Making Children's Furniture And Play Structures:

Making Children's Furniture and Play Structures Bruce Palmer, 1974 Shows how to make a variety of stools chairs tables desks beds storage units play structures tents domes geoshapes habitats vehicles and other apparatuses using inexpensive easily obtained materials

The Design of Childhood Alexandra Lange, 2018-06-12 From building blocks to city blocks an eye opening exploration of how children's playthings and physical surroundings affect their development Parents obsess over their children's playdates kindergarten curriculum and every bump and bruise but the toys classrooms playgrounds and neighborhoods little ones engage with are just as important These objects and spaces encode decades even centuries of changing ideas about what makes for good child rearing and what does not Do you choose wooden toys or plastic or increasingly digital What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety How can the built environment help children cultivate self reliance In these debates parents educators and kids themselves are often caught in the middle Now prominent design critic Alexandra Lange reveals the surprising histories behind the human made elements of our children's pint size landscape Her fascinating investigation shows how the seemingly innocuous universe of stuff affects kids behavior values and health often in subtle ways And she reveals how years of decisions by toymakers architects and urban planners have helped and hindered American youngsters' journeys toward independence Seen through Lange's eyes everything from the sandbox to the street becomes vibrant with buried meaning

The Design of Childhood will change the way you view your children's world and your own

Index to Handicraft Books, 1974-1984 Carnegie Library of Pittsburgh. Science and Technology Department, 1986 Handicrafts and do it yourself projects have always been a library's most popular and heavily requested subject And for more than a decade a definitive index to handicraft books has not been published To fill this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the *Index to Handicraft Books* listing more than 900 books and over 12 400 subject entries covering books published from 1974 to 1984 The *Index to Handicraft Books* is an essential reference tool for librarians who want to help someone find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books have listed Each entry in the index consists of a subject heading the name of the project as listed in the book the author and title of the book and the page numbers on which the project can be found The author and title correspond to those in the List of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through inter library loan Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974 the list concentrates mainly on medium priced books that most libraries buy

Designing the Creative Child Amy F. Ogata, 2013-04-21 The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War The creative child an idealized future citizen was the darling of baby boom parents

psychologists marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age *Designing the Creative Child* reveals how a postwar cult of childhood creativity developed and continues to this day Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II Amy F Ogata argues that educational toys playgrounds small middle class houses new schools and children s museums were designed to cultivate imagination in a growing cohort of baby boom children Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization Ogata describes how a historically rooted belief in children s capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today From building blocks to Gumby playhouses to Playskool trains Creative Playthings to the Eames House of Cards Crayola fingerpaint to children s museums material goods and spaces shaped a popular understanding of creativity and *Designing the Creative Child* demonstrates how this notion has been woven into the fabric of American culture

particular environments and as the foundation of a common language that designers and educators can use when developing a new design. She also addresses the issues of safety and security and demonstrates that learning environments can be stimulating, interesting links with the natural world and safe places for children to run free. *Landscapes for Learning* is the ideal source for landscape architects, architects, planners, school administrators and teachers who want to collaborate in the development of useful, intriguing outdoor environments for students in day care, preschool, elementary school, junior high and high school. Discover the keys to creating delightful, stimulating, challenging and educational outdoor environments for children and youth. This unique volume explores the vital and growing movement that is transforming school yards, day care facilities and museum grounds around the world. Dr. Sharon Stine presents detailed analyses of a wide variety of outdoor environments for children and the principles and processes that enabled their design, creation and ongoing operation. Special features of this book include: Eleven case studies of outstanding outdoor environments for children and youth, both contemporary and historical; More than 140 photos and line drawings that illustrate the application of specific design principles; Nine pairs of contrasting elements essential in any play environment that form the basis of a shared language for the design and analysis of outdoor learning environments; In-depth analyses of the development and evolution of outside space in two schools over a period of 80 years; And much more.

The Elementary School Journal, 1920 Learning for Little Kids Sandy Jones, 1979 *How to Put Your Kids on A Schedule* Lorelei Burk, 2023-06-15

When Lorelei Burk adopted her twins when they were just a few days old, she only had 9 days to prepare to bring her babies home from the hospital. She had to learn quick how to put her babies on a schedule to survive. Whether you are a parent of one child or multiples, this book will teach you how to put your baby or toddler on a feeding and sleeping schedule. She will explain the rules of attachment, give advice on sleep training, how to do time ins instead of time outs, how to be prepared for hospital emergencies, how to deal with the big emotions of toddlers, how to survive the holidays and travelling, and how to color code everything. She will also give you advice on how to get your child working in film and television. This book is for all parents who are trying to make their days more manageable and would rather have them filled with wonderful, positive memories instead of melt downs and tantrums. With a schedule, you can learn how to anticipate your child's needs and be proactive, which results in children who are happier, calmer, well behaved, and have no trouble with transitioning to different activities throughout the day. If you are looking for some hot tips, a bit of advice, and a few laughs, this is a fantastic survival guide that is a fast read that will hopefully make your most important job in the world of parenting a little bit easier.
