accomplished what every scientist yearns for discovery She revealed the atomic composition of stars only to be told that her conclusions were wrong by the very man who would later show her to be correct In *What Stars Are Made Of* Donovan Moore brings this remarkable woman to life through extensive archival research family interviews and photographs Moore retraces Payne Gaposchkin s steps with visits to cramped observatories and nighttime bicycle rides through the streets of Cambridge England The result is a story of devotion and tenacity that speaks powerfully to our own time **Falling Stars** Fern
