A History of the AbaThembu People from Earliest Times to 1920 Jongikhaya Mvenene, 2020-10-02 This book is an account of the history of the AbaThembu from the reign of uKumkani Nxeko in c 1650 to the death of uKumkani Dalindyebo in 1920 The importance of this cut off date lies in the fact that uKumkani Dalindyebo's reign was characterised by relative stability compared to those of his predecessors His

prestige however was demeaned by the Department of Native Affairs Secretary whose instruction was that uKumkani Dalindyebo should not be addressed as a paramount chief as that title applied exclusively to the government thereby strengthening the government's position and elevating it to be above customary law. AbaThembuland was and still is central to the history of the former Transkei region and South Africa. Not only does it form part of the former Transkei region but it also constitutes South Africa and so divisions, conflicts, developments and/or underdevelopments in AbaThembuland inevitably affected not only the former Transkei region but also the greater part of South Africa in no small measure. Thus the history of AbaThembuland and the divisions thereof overlap with the history of the former Transkei region and South Africa.

Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19. With respect to the countries of the world, this work addresses two basic questions: How does religion affect politics in this country and how does politics affect religion in this country. Although there are many books on the topics of religion and politics, reference works that consider the two together are few, with those that do exist primarily addressing theory rather than trends. The present work does the latter, contextualizing them within regional and national boundaries. In so doing, it recognizes the power of political and religious ideas and movements on individuals, communities, and nations, making the work a valuable resource for several disciplines among them: political science, international relations, religion, and sociology. The work focuses on the interplay of religion and politics in countries around the world, with an emphasis on the post-2000s. It is organized by global geographic regions, including Africa, Central and South America, and the Middle East, and presents countries alphabetically within those sections. Each region has a brief overview of the political/religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region. The work also includes an introduction, sidebars, and a bibliography.

Confronting Hitler William Smaldone, 2010-02-03. The stories of the individual men and women who led German Social Democracy's failed efforts to fend off the Nazi onslaught in 1933 have largely been lost in the wake of the cataclysmic war, the Holocaust, and the division of Europe that followed Hitler's victory. *Confronting Hitler* recovers their stories and places them at center stage. In a series of biographical essays focusing on the experiences of ten leading Social Democratic activists, Smaldone examines their defeat in 1933 from the perspective of individuals enmeshed in political struggle. This study reveals what aspects of these activists' lives were most important in shaping their political outlook during the republic's final crisis and illustrates the key factors that guided their actions in the effort to keep the republic alive. In addition, the biographies raise the important issue of the degree to which the defeat of German Social Democracy in 1933 is comparable to the experiences of other democratic socialist movements in the twentieth century.

a Jewish rather than a secular state It shows how the postwar labor alignments were replaced by the hard right coalitions thanks to U S neoliberal economic policies assertive neoconservatism and Jewish American donors It also explains the causes behind the rise of the Messianic far right centrist parties and the failure of the Left The corrosion of Israeli society and politics was already reflected in and driven by an economy constrained by adverse erosion as reflected by the liabilities of its high tech cluster the talent brain drain the threatened welfare state and subsidized religious sector But now the already evident politico economic costs to Israel of the Gaza war have set the stage for extraordinary uncertainty in the foreseeable future

The Oxford History of the British Empire: Volume V: Historiography Robin Winks,1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future The Oxford History of the British Empire: Historiography Robin W. Winks,1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries

The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century George Mugovhani,Owen Seda,2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and

Cold War Literature Andrew Hammond, 2006-11-22 The Cold War was the longest conflict in a century defined by the scale and brutality of its conflicts In the battle between the democratic West and the communist East there was barely a year in which the West was not organising fighting or financing some foreign war It was an engagement that resulted in Korea Guatemala Nicaragua and elsewhere in some twenty million dead This collection of essays analyses the literary response to the coups insurgencies and invasions that took place around the globe and explores the various thematic and stylistic trends that Cold War hostilities engendered in world writing Drawing together scholars of various cultural backgrounds the volume focuses upon such themes as representation nationalism political resistance globalisation and ideological scepticism Eschewing the typical focus in Cold War scholarship on Western authors and genres there is an emphasis on the literary voices that emerged from what are often considered the peripheral regions of Cold War geo-politics Ranging in focus from American postmodernism to Vietnamese poetry from Cuban autobiography to Maoist theatre and from African fiction to Soviet propaganda this book will be of real interest to all those working in twentieth century literary studies cultural studies history and politics

Decentralization and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities Since the end of the Cold War jurisdictions across Africa have witnessed an ostensible

return to multi party democracy within the paradigm of constitutionalism and the rule of law Linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes The centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of forms and degrees of decentralization found across Africa It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa

Who's Afraid of Children? Helen Brocklehurst, 2017-03-02 Brocklehurst's impressive work breaks new ground in normative international political theory It develops a new theoretical framework which exposes how children are present in international relations and security practices using an empirical and comparative assessment of the role of children and youth in a range of conflicts including Nazi Germany Mozambique South Africa Northern Ireland the Cold War and the British Empire The author argues powerfully that concepts of children are partial and contained through their construction as non political Global in scope this book is a timely and important contribution given the growing visibility of children in international relations evident after September 11 The political and ethical question at the heart of this book is will international relations dare to catch up

Applied Theatre and Sexual Health Communication Katharine E. Low, 2020-11-05 This book analyses the partnership between applied theatre and sexual health communication in a theatre making project in Nyanga a township in South Africa By examining the bridges and schisms between the two fields as they come together in the project an alternative way of approaching sexual health communication is advocated This alternative considers what it is that applied theatre does and could become in this context Moments of value which lie around the margins of the practice emerge as opportunities that can be overlooked These somewhat ephemeral intangible moments which appear on the edges are described as apertures of possibility and occur when one takes a step back and realises something unnoticed in the moment This book offers an invitation to pause and notice the seemingly insignificant moments that often occurs tangentially to the practice The book also calls for more outcry about sexual health and sexual violence arguing for theatre making as a route to multitudes of voices nuanced understandings and diverse spaces in which discussions of sexuality and sexual health are shared felt and experienced
