

Telecommunications Policy-Making in the European Union

Joseph W. Goodman

Making Of Telecommunications Policy

Dick Olufs

Making Of Telecommunications Policy:

The Making of Telecommunications Policy Dick Olufs, 1999 The Making of Telecommunications Policy examines the history politics and impact of telecommunications policy Beginning with a comparison of several alternate views of the future Olufs explains how government action makes the widespread use of some new technologies more likely than others He details the challenges that rapid advances in communications technologies pose for policymaking institutions and considers the ways that government responds to the ideological economic and political interests of industry private advocacy groups and individuals Olufs discussed the recent trend toward deregulation and provides a full analysis of the Telecommunications Act of 1996 including the politics of its enactment and its long term implications for both industry and the daily lives of citizens

Telecommunications Policy-making in the European Union Joseph W. Goodman, 2006-01-01 This book offers a good study of the development of telecommunications policy by the EU Great value to those interested in understanding both European telecommunications policy and more generally in how policy making operates in the EU Mark Thatcher West European Politics the book provides an interesting perspective on the evolution of nature of telecommunications policy making within the EU As a consequence the book should be of interest to telecommunications and politics government researchers alike Jason Whalley Communications Booknotes Quarterly This well written book deals with the emergence and shaping of telecommunications policy in Europe with a particular focus on the time period of 1987 1998 This book fills an important gap reviewing the initial formative years of European telecommunications policy development and liberalization in detail The book captures the complicated and interdependent policy formation process in Europe in a credible and thoughtful way without falling into the trap of admiring critical personalities and key actors The author has written an important and useful book which invites the research community to further explore the evolution of European telecommunications policy Erik Bohlin Communications Strategies Examining the emergence of a European Union telecommunications policy Joseph Goodman explains how and why the policy developed as it did and why certain reforms in the sector were easier to achieve than others He provides a history of the key actors in the policy making process from the first attempts by the national postal telegraph and telecommunication administrations to coordinate their telecommunications policies in the 1950s to the implementation of a comprehensive EU telecommunications regulatory structure in 1998 and the development of a new regulatory structure in 2003 The analytical framework employed by the author draws upon new institutionalism and actor based approaches providing an opportunity to evaluate the utility of a synthetic approach for examining and explaining EU policy making The focus of his analysis is on the European Commission s two pronged strategy of liberalisation and harmonisation which began in the late 1980s and culminated in an important milestone on January 1st 1998 when the EU Member States fully opened their telecommunications markets to competition He concludes that a synthetic approach which enables the researcher to apply a number of approaches to multiple settings and various levels of analysis is useful even

necessary in understanding and explaining the many dimensions of EU policy making This authoritative study will be of interest to all those in the telecommunications industry including attorneys consultants and lobbyists who would like to know how the EU s policy developed It will appeal more generally to political scientists and scholars of European history and politics *The Making of Telecommunications Policy* Dick W. Olufs III,2022 Olufs examines the history politics and impact of telecommunications policy Telecommunication Policy Act United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications and Finance,1990 India Telecom 2000: Vol. 1: Telecommunications Policy and Infrastructure , **Making Policy for the New Information Economy** Krishna Prasad Jayakar,Chun Liu,2023-09-10 This volume is a theoretically informed comparative analysis of the telecommunications and information policy making process in two major developing economies China and India With a focus on how policies are made rather than what those policies are the book investigates how policy actors interact within institutional structures to define policy problems and identify potential solutions The authors explain the evolution of these policy making systems as the two countries liberalized their economies and opened their media and telecommunications systems to competition over the past two and a half decades With applications in numerous international contexts this book will be of interest to scholars and practitioners in public policy studies telecommunications business development economics political science Asian studies and public administration *Federal Telecommunications Policy Act of 1986* United States. Congress. Senate. Committee on Commerce, Science, and Transportation,1987 Media and Communications Policy Making Robert G. Picard,2020-03-25 This textbook focuses on how media and communications policy is made and what influences its design It explores the structures and processes in which policymaking takes place worldwide the factors that determine its forms influence its elements and affect its outcomes It explores how to analyze policy proposals evaluate policy and use policy studies approaches to examine policy and policymaking Truly international in scope it lays out the variety of political social economic and institutional influences on policy the roles of industries and policy advocates in the processes and issues and factors that complicate effective policymaking and skew policy outcomes This textbook is a valuable resource for advanced undergraduate and postgraduate students **Telecommunications Policy for the 1990s and Beyond** Walter G. Bolter,James W. McConnaughey,Fred J. Kelsey,1990 This book analyzes the development of the telecommunications industry since the AT T divestiture The reference work examines the technological revitalization of the telecommunications industry from the perspective of global markets and from these trends considers the implications for regulatory policy in the future **Chinese Telecommunications Policy** Xu Yan,2002 Telecommunications Regulation Clare Hall,Christopher Hood,Colin Scott,2005-08-02 Using unprecedented access to the key actors inside the UK Office of Telecommunications OFTEL and supporting interviews this book explores how telecommunications regulation works from the inside **Communication Researchers and Policy-making** Sandra Braman,2003 A sourcebook on the multiple relationships

between the communication research and policy making communities over the last hundred years As the global information infrastructure evolves the field of communication has the opportunity to renew itself while addressing the urgent policy need for new ways of thinking and new data to think about Communication Researchers and Policy making examines diverse relationships between the communication research and policy communities over more than a century and the issues that arise out of those interactions The book provides primary material in the form of reports on such relationships spanning time periods subject matter policy issues decision making venues and governments The essays range from historical pieces on the importance of communication research since the beginning of systematic policy analysis and on the various roles that researchers can play to contemporary analyses of contributions of research to policy debates over network design and access media violence and advertising fraud Substantial interstitial essays by the editor explore the impact of the policy context on communication theories and research practices relationships between researchers and their institutional homes the role of communication researchers as public intellectuals and ways to maximize the impact of communication research on policy making during this period of infrastructural transformation The book includes an extensive bibliography

The Politics of Telecommunications Mark Thatcher, 1999 This book confronts some of the most important questions related to liberalization regulation and the role of the nation state in an increasingly international economy In the face of powerful transitional pressures for change to what extent are states able to maintain stable institutional frameworks Do different domestic structures generate dissimilar patterns of policy making and economic performance How important are past institutional choices to subsequent reform The author addresses these questions through a study of the transformations of a strategic economic sector telecommunications in Britain and France over the past three decades It analyses the theoretical strengths and weaknesses of various models of public policy formation and the role and reform of national institutions and the continuing role of the nation state

OECD Review of Telecommunication Policy and Regulation in Mexico OECD, 2012-01-30 This publication reviews the telecommunication market in Mexico examines the current policy and regulatory framework of the sector and puts forward proposals for reform in order to develop competition in the market

China's Internet in the 2000s Junhao Hong, 2025-02-11 This book studies China's Internet in the 2000s with a focus on the challenges and dilemmas of the authorities and the battles between the authorities and the newly networked society in the cyber space which has been a critical centerpiece in the Chinese authorities struggle for political stability The book also examines the distinct technological means and political legal regulations restrictions used for Internet control unique characteristics and the implications of their influences on the political change and social transformation of the world's most populous country It illuminates the fierce competition between the authorities and the newly networked Chinese society by looking at how Chinese netizens make every possible effort to gain access to the Internet for truth and make their voices and views heard while how the authorities use whatever possible means to prevent that from happening The in depth analyses of

how these challenges dilemmas and battles have been affecting and changing China's political system the ruling communist ideology the public's access to information as well as the expression of the public's discourse are relevant to policymakers and analysts in both business and government sectors as well as scholars and researchers with an interest in Asian Studies Chinese Studies communication new media political science and sociology

Resources in Education, 1990

Asian Economic and Political Issues Frank H. Columbus, 1998 It is predicted by some observers that the 21st century will be remembered as the Asian Century Many of the countries in the region seem to be able to take the economic and trade baton when one of the others experiences problems the region in general continues to grow economically politically and militarily The articles presented in this book examine the current political and economic situations in nations across Asia particularly focusing on economic developments Contents Preface Why Does China Succeed in Attracting and Utilising Foreign Direct Investment Democracy Movement at the Crossroads Protracted Democratisation and De mobilisation in Hong Kong China's Opening to the Outside World with Facing Economic Globalisation China's Telecommunications Reforms From Monopoly towards Competition World Bank Lending Issues Raised by China's Qinghai Resettlement Project Explaining the Soft Open Regionalism in East Asia Governance Security and the Environmental Policy in South Asia A Paradox of Change and Continuity Carbon Emissions Control Trade Liberalisation and Electricity Market Imperfection Coordinated Approaches to Taiwan's Trade and Tax Policy ASEAN Haz

European Telecommunications Liberalisation Kjell A. Eliassen, Marit Sjøvaag Nfa, Marit Sjøvaag, 2013-03-04 This book examines the process and consequences of telecommunications liberalisation in the context of an ever closer European Union The creation of a single market for telecommunications and of a wider European single market mirror one another Telecommunications are also something of a test case for the privatisation process as this sector has traditionally been a state monopoly The volume approaches the European experience from three angles the politics of regulation and the process of liberalisation in the EU including case studies of the UK France and Germany increasing global economic interdependence makes international comparisons essential and the volume compares the EU experience with that of the Czech Republic Israel and Thailand the consequences of technology and continuous innovation

The Dynamics of Institutional Control Over U.S. Federal Telecommunications Policy Decisions Kwangho Sim, 1999

The Legitimacy and Responsiveness of Industry Rule-making Karen Lee, 2018-09-06 Rule making is no longer an activity undertaken exclusively by public actors Private actors are increasingly allowed by legislatures and regulatory bodies to take part in and in some cases assume responsibility for the formation of legally binding rules for example in the US UK Australia and the EU Departing from traditional forms of rule making by involving private actors may enhance the ability of regulatory systems to achieve social goals as regulatory scholars argue However because private actors are permitted to act in their own best interests their involvement also raises doubts about the legitimacy of the underlying rule making processes and the rules that are formulated The principal aim of this book is to highlight that the tension between the

responsiveness that leading international regulatory scholars advocate in order to improve regulatory effectiveness and the law and its formal substantive procedural and institutional values is not as great as may first appear Drawing on three in depth case studies of the experience of the Australian telecommunications industry with self regulatory rule making a form of rule making that bears the hallmarks of responsive regulation democratic experimentalism smart regulation and other strategies of proceduralization it is argued that industry rule making can as a matter of practice be responsive and legitimate at the same time In doing so the book formulates and applies criteria against which industry rule making should be evaluated and identifies a number of indicia that point to when industry rule making is likely to be simultaneously legitimate and responsive
