Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship *The Making of Chicana/o Studies* Rodolfo Acuña, 2011 The Making of Chicana o Studies traces the philosophy and historical development of the field of Chicana o studies from precursor movements to the Civil Rights era to today focusing its lens on the political machinations in higher education that sought to destroy the discipline As a renowned leader activist scholar and founding member of the movement to establish this curriculum in the California State University system which serves as a model for the rest of the country Rodolfo F Acu a has for more than forty years battled the trend in academia to deprive this group of its academic presence The book assesses the development of Chicana o studies an area of studies that has even more value today than at its inception myths about its epistemological foundations have remained uncontested Acu a sets the record straight challenging those in the academy who would fold the discipline into Latino studies shadow it under the dubious umbrella of ethnic studies or eliminate it altogether Building the largest Chicana o studies program in the nation was no easy feat especially in an atmosphere of academic contention In this remarkable account Acu a reveals how California State University Northridge was instrumental in developing an area of study that offers more than 166 sections per semester taught by 26 tenured and 45 part time instructors He provides vignettes of successful programs across the country and offers contemporary educators and students a game plan the

mechanics for creating a successful Chicana o studies discipline and a comprehensive index of current Chicana o studies programs nationwide Latinas os of which Mexican Americans are nearly seventy percent comprise a complex sector of society projected to be just shy of thirty percent of the nation s population by 2050 *The Making of Chicana o Studies* identifies what went wrong in the history of Chicana o studies and offers tangible solutions for the future *Making Histories* CCCS,2013-12-16 First published in 2006 Routledge is an imprint of Taylor Francis an informa company Ghosts P. Buse,A. Stott,1999-01-28 Did you know that the father of psychoanalysis believed in ghosts or that Frederick Engels attended seances *Ghosts Deconstruction Psychoanalysis History* is the first collection of theoretical essays to evaluate these facts and consider the importance of the metaphor of haunting as it has appeared in literature culture and philosophy Haunting is considered as both a literal and figurative term that encapsulates social anxieties and concerns The collection includes discussions of nineteenth century spiritualism gothic and postcolonial ghost stories and popular film with essays on important theoretical writers including Freud Derrida Adorno and Walter Benjamin **Louis Althusser and the Traditions of French Marxism** William Lewis,2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e g Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Kruschev exposed Stalin s atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin s excesses were somehow encouraged or supported through Marx s thought When in the mid 1960s Louis Althusser first offered his re readings of Marx s philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In *Louis Althusser and the Traditions of French Marxism* William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser s thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns

AMBEDKAR AND THE MAKING OF MODERN INDIA: SOCIAL TRANSFORMATION, DEMOCRACY AND GENDER JUSTICE Dr. Chittaranjan Mallik, The idea of writing this book has been germinating in my mind for long time but

due to certain unavoidable reason could not get it finished Really it is very tough task to put together Dr Babasaheb Ambedkar s ideas and thoughts on entirety in a single book yet this book is an attempt to provide a coherent account on his socio political struggles to establish an egalitarian transformative society with the ideas of liberty equality fraternity and social justice through the Constitutional means with all odds of caste indignities and challenged the age old social structure intellectually rooting on the ground and rendered unwavering contributions in making modern India *The Making of a State* Tomáš Garrigue Masaryk,1927 **Making Transformative Geographies** Benedikt Schmid,2020-06-03 In the light of social and environmental unsustainability and injustice the continuing attachment to the idea that a growth based economy is reconcilable with human prosperity and ecological limits seems increasingly implausible Tracing and dissecting the complexities of social change Making Transformative Geographies speaks about the development of visions alternatives and strategies for a radical transformation beyond accumulation and growth Covering an empirical sample of 24 eco social organizations projects and groupings in the city of Stuttgart Germany the book drills down into the social spatial and strategic dimensions of transformation It advances a conceptually and empirically grounded assessment of the possibilities and limitations of community activism and civic engagement for shifting transformative geographies towards a degrowth trajectory *The Use of Mao and the Chongqing Model* Joseph Y.S. CHENG,2015-07-10 MAO Zedong was a Chinese communist leader and founder of the People s Republic of China He developed his own ideology and methodology known as Maoism or Mao Zedong Thought and his thought has a great influence in China or even overseas This book aims at bringing together a group of scholars to address the uses of Mao in China PRC today with special reference to the Bo Xilai case It also provides insights and detail on how and what we know about modern China Contributing authors including a number of French scholars illustrate how Maoism influences and engages in government business sector or social life This timely volume will be of considerable interest to scholars journalists and those keen to better understand the changing values in China today *Marx and Hegel on the Dialectic of the Individual and the Social* Sevgi Dogan,2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx s arguments from those of Hegel s enables the book to underline how and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account
