[The Selected Essays of T. Harry Williams](#) T. Harry Williams, 1999-03-01 This first collection of the essays of the late T. Harry Williams brings together some of the best shorter works of a man who was by any standard one of the finest historians of our time. Spanning the range of Williams' interests, this volume contains essays on the Civil War, Reconstruction, the end of the world wars, military affairs, the craft of the historian, and the careers of Abraham Lincoln, Huey Long, and Lyndon Johnson. Williams' reputation rests on such large-scale works as *Lincoln and His Generals* and the Pulitzer Prize-winning biography *Huey Long*, exhaustively researched studies monumental in their scope and ambition. Providing Williams with the chance to let his gaze probe beyond the fixed borders of such works, the essay was a flexible medium in which he could freely pursue some of the ideas that grew out of his daily regimen of writing and reading. He used the essay to examine large themes that spanned many areas of his interests as well as specific incidents in the course of American history to reach both a popular audience and his fellow historians to test ideas for books in the planning stage and to assess the works of his colleagues. Among the essays brought together in this volume are *That Strange Sad War* in which Williams examines the Civil War as the first truly and tragically modern war; *Abraham Lincoln: Pragmatic Democrat* which sees Lincoln as the supreme example in our history of the union of principle and pragmatism in politics; and *The Louisiana Unification Movement of 1873* which traces the short history of an ambitious attempt to bring about racial unity in Reconstruction Louisiana. In *Interlude 1918-1939*, an essay published here for the first time, Williams analyzes the weakened state of American military preparedness before Franklin Roosevelt came into office and turned his attention to the growing threat of Hitler's Germany. In *The Macs and the Ikes: America's Two Military Traditions*, Williams contrasts the opposing types of military leaders in American history: those generals in the mold of Dwight Eisenhower who follow orders and submit to the power of the president and Congress, and the more fractious generals such as Douglas MacArthur who view the military as an aristocracy of courage and genius and bridle at the reigns of civilian authority. *Huey, Lyndon, and Southern Radicalism* traces the common political roots of two men Williams considered among the most successful power artists of the century. And in *Lyndon Johnson and the Art of Biography*, Williams discusses his own plans to write a biography of Johnson and speaks of his unapologetic belief in a great man theory of history.

**Daisy Petals and Mushroom Clouds** Robert Mann,2011-11-07 The grainy black and white television ad shows a young girl in a flower filled meadow holding a daisy and plucking its petals which she counts one by one As the camera slowly zooms in on her eye a man s solemn countdown replaces hers At zero the little girl s eye is engulfed by an atomic mushroom cloud As the inferno roils in the background President Lyndon B Johnson s voice intones These are the stakes to make a

world in which all of God's children can live or to go into the dark. We must either love each other or we must die. In this thought provoking and highly readable book Robert Mann provides a concise engaging study of the Daisy Girl ad widely acknowledged as the most important and memorable political ad in American history. Commissioned by Johnson's campaign and aired only once during Johnson's 1964 presidential contest against Barry Goldwater it remains an iconic piece of electoral propaganda intertwining cold war fears of nuclear annihilation with the increasingly savvy world of media and advertising. Mann presents a nuanced view of how Johnson's campaign successfully cast Barry Goldwater as a radical too dangerous to control the nation's nuclear arsenal a depiction that sparked immediate controversy across the United States. Repeatedly analyzed in countless books and articles the spot purportedly destroyed Goldwater's presidential campaign. Although that degree of impact on the Goldwater campaign is debatable what is certain is that the ad ushered in a new era of political advertising using emotional appeals as a routine aspect of campaign strategy.

**Los Angeles Documentary and the Production of Public History, 1958-1977** Joshua Glick, 2018-01-19 Los Angeles Documentary and the Production of Public History 1958-1977 explores how documentarians working between the election of John F. Kennedy and the Bicentennial created conflicting visions of the recent and more distant American past. Drawing on a wide range of primary documents Joshua Glick analyzes the films of Hollywood documentarians such as David Wolper and Mel Stuart along with lesser known independents and activists such as Kent Mackenzie Lynne Littman and Jes's Salvador Treviño. While the former group reinvigorated a Cold War cultural liberalism the latter group advocated for social justice in a city plagued by severe class stratification and racial segregation. Glick examines how mainstream and alternative filmmakers turned to the archives, civic institutions and production facilities of Los Angeles in order to both change popular understandings of the city and shape the social consciousness of the nation.

**Religion and Politics in America** Frank J. Smith, 2016-07-11 There has always been an intricate relationship between religion and politics. This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present. Can a judge display the Ten Commandments outside of the courthouse? Can a town set up a nativity scene on the village green during Christmas? Should U.S. currency bear the In God We Trust motto? Should public school students be allowed to form bible study groups? Controversies about the separation of church and state, the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated. This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America. Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies. The information is presented in an unbiased manner that favors no particular religious background or political inclination. This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students.
