

On The Banks Of The Suez

Dr. George W. Gawrych

On The Banks Of The Suez:

On the Banks of the Suez Avraham Adan, 1980 Military Memoirs Reading List 2014 **On the banks of the Suez** Avraham Adan, 1991 *Command in War* Martin Van Creveld, 1987-01-01 Many books have been written about strategy tactics and great commanders This is the first book to deal exclusively with the nature of command itself and to trace its development over two thousand years from ancient Greece to Vietnam **On the banks of the Suez ('Al štē gedōt has-Sū'ēs, engl.); An Israeli general's personal account of the Yom Kippur War** Avraham Adan Bren, 1980 *The 1973 Arab-Israeli War: The Albatross Of Decisive Victory [Illustrated Edition]* Dr. George W. Gawrych, 2015-11-06 Includes 8 maps and more than 20 illustrations Armies appear to learn more from defeat than victory In this regard armed forces that win quickly decisively and with relative ease face a unique challenge in attempting to learn from victory The Israel Defense Forces certainly fell into this category after their dramatic victory over the combined armies of Egypt Jordan and Syria in the Six Day War of June 1967 This study analyzes the problems that beset Israel in the aftermath of its decisive victory in the Six Day War over the Arabs In the 1973 War Anwar Sadat Egypt's president was able to exploit Israeli vulnerabilities to achieve political success through a limited war An important lesson emerges from this conflict A weaker adversary can match his strengths against the weaknesses of a superior foe in a conventional conflict to attain strategic success Such a strategic triumph for the weaker adversary can occur despite serious difficulties in operational and tactical performance The author suggests a striking parallel between the military triumphs of Israel in 1967 and the United States in 1991 In both cases success led to high expectations The public and the armed forces came to expect a quick and decisive victory with few casualties In this environment a politically astute opponent can exploit military vulnerabilities to his strategic advantage Sadat offers a compelling example of how this can be done Margin of Victory Douglas MacGregor, 2016-06-15 In *Margin of Victory* Douglas Macgregor tells the riveting stories of five military battles of the twentieth century each one a turning point in history Beginning with the British Expeditionary force holding the line at the Battle of Mons in 1914 and concluding with the Battle of Easting in 1991 during Desert Storm *Margin of Victory* teases out a connection between these battles and teaches its readers an important lesson about how future battles can be won Emphasizing military strategy force design and modernization Macgregor links each of these seemingly isolated battles thematically At the core of his analysis the author reminds the reader that to be successful military action must always be congruent with national culture geography and scientific industrial capacity He theorizes that strategy and geopolitics are ultimately more influential than ideology Macgregor stresses that if nation states want to be successful they must accept the need for and the inevitability of change The five warfighting dramas in this book rendered in vivid detail by lively prose offer many lessons on the tactical operational and strategic levels of war **Military Adaptation In War: With Fear Of Change** Professor Williamson Murray, 2015-11-06 *Military Adaptation in War* addresses one of the most persistent problems that military organizations

confront namely the problem of how to adapt under the trying terrifying conditions of war This work builds on the volume that Professor Williamson Murray edited with Allan Millett on military innovation a quite different issue though similar in some respects In Clausewitzian terms war is a contest an interactive duel which is of indeterminate length and presents a series of intractable problems at every level from policy and strategy down to the tactical Moreover the fact that the enemy is adapting at the same time presents military organizations with an ever changing set of conundrums that offer up no easy solutions As the British general James Wolfe suggested before Quebec War is an option of difficulties Dr Murray provides an in depth analysis of the problems that military forces confront in adapting to these difficulties

Do Good Fences Make Good Neighbors? Brent L. Sterling, 2009-10-30 A number of nations conspicuously Israel and the United States have been increasingly attracted to the use of strategic barriers to promote national defense In *Do Good Fences Make Good Neighbors* defense analyst Brent Sterling examines the historical use of strategic defenses such as walls or fortifications to evaluate their effectiveness and consider their implications for modern security Sterling studies six famous defenses spanning 2 500 years representing both democratic and authoritarian regimes the Long Walls of Athens Hadrian s Wall in Roman Britain the Ming Great Wall of China Louis XIV s Pr Carr France s Maginot Line and Israel s Bar Lev Line Although many of these barriers were effective in the short term they also affected the states that created them in terms of cost strategic outlook military readiness and relations with neighbors Sterling assesses how modern barriers against ground and air threats could influence threat perceptions alter the military balance and influence the builder s subsequent policy choices Advocates and critics of strategic defenses often bolster their arguments by selectively distorting history Sterling emphasizes the need for an impartial examination of what past experience can teach us His study yields nuanced lessons about strategic barriers and international security and yields findings that are relevant for security scholars and compelling to general readers

The Albatross of Decisive Victory George W. Gawrych, 2000 In 1967 the Israeli Defense Forces defeated the combined armies of Egypt Jordan and Syria in a mere six days This remarkable military accomplishment would however have the ultimate effect of creating an albatross around the neck of the Israeli Army as Israelis would now expect the next conventional war with the Arabs to achieve similar results a quick decisive victory with relatively few casualties Although Egyptian forces were militarily inferior to those of Israel President Anwar Sadat developed a successful limited war strategy designed to exploit this unrealistic expectation Rather than aiming to achieve a military victory or to seize strategic terrain Sadat merely sought to break a diplomatic stalemate with a major military operation designed to soften Israeli intransigence toward negotiations and to force a change in U S foreign policy toward the Arab Israeli conflict In support of these political aims the Egyptian Armed Forces set out to discredit the Israeli Army s prowess by inflicting heavy casualties in a limited war Sadat s success in regaining the entire Sinai without another armed struggle holds an important lesson for the United States After its dramatic victory in Desert Storm American armed forces feel compelled to win the next conventional war quickly decisively and with

relatively few casualties much like the challenge that faced Israel after the 1967 war **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency,1967 *The Marine Corps Gazette* ,1981 *The Nautical Magazine and Naval Chronicle for 1870* Various,2013-03-28 The 1870 Nautical Magazine the last volume edited by Rear Admiral Becher focuses on the Suez Canal Australia and Canada *The Nation* ,1980-07 *H.O. Pub* United States. Hydrographic Office,1922 States and Firms Razeen Sally,2013-08-21 States and Firms is a study in the political economy of the multinational enterprise It looks at the internationalisation in the 1980s of the twelve leading French and German owned multinational enterprises in chemicals and electronics who form part of a European Challenge in international competition in technology intensive sectors The book examines how and why the internationalisation of these MNEs has interacted with their embeddedness in the domestic structures of their home countries France and Germany particularly in terms of their power relationships with home governments and financial institutions The primary themes are the MNEs roles as political actors domestic government policy vis a vis the MNEs MNEs financial relationships with banks in France and Germany MNE political activity at the level of the European Union especially evident in technology policy The primary contribution of this book is an inclusion of a firm level approach to put the spotlight on fundamental questions of political economy and international business **Corporations, Classes and Capitalism** John Scott,2024-03-08 First published in 1985 Corporations Classes and Capitalism raises some crucial questions how important are large multinational companies Who really controls the economy Is government policy able to influence business activities John Scott examines the transformation of industrial property over the last hundred years and through the use of extensive empirical data relates this transformation to the actual structure of control over business decision making The book considers the rival theories of industrial society and capitalist society and argues that neither provides a satisfactory account of the development of industrial capitalism Building on these theories and the critical debates they have generated John Scott develops an alternative model of corporate control control through a constellation of interests He argues that this new form of impersonal possession has emerged in Britian America Australia and Canada but is not so strongly developed in other economies This book will be of interest to students of sociology political science and economics Publication United States. Hydrographic Office,1922 **The Nautical Magazine and Naval Chronicle** ,1870 **The African Correspondence of Sir Joseph Banks, 1767-1820** Neil Chambers,2024-06-21 This edition brings together in three fully edited volumes the correspondence and associated papers of Sir Joseph Banks regarding European and especially British exploration of Africa from 1767 1820 for the first time publishing this globally scattered material in one place thereby revolutionizing its availability and understanding of the activities of a key figure who helped organize and publish a series of missions to penetrate the African interior mainly from West Africa and by crossing the Sahara from Cairo and Tripoli Banks was a founder in 1788 of the African Association which mounted many of these missions including those of Mungo Park to explore the River Niger and J L

Burkhardt exploring Syria Arabia and Egypt At the time little was known about the African interior its peoples kingdoms and resources and the aim of the African Association under Banks was to discover what lay there to make contact with and study its societies to map them and their lands and help establish trading links Banks also maintained a lively correspondence with British diplomatic representatives in North Africa such as James Mario Matra at Tangier and Henry Salt in Cairo who were a rich source of news Moreover as unofficial director of the royal gardens at Kew he sent pioneering plant collectors to gather plants in South Africa vastly boosting knowledge of this region s important flora At home he corresponded with politicians government officials entrepreneurs navigators naturalists and campaigners like William Wilberforce about a great range of issues surrounding Africa This work is multi disciplinary and will stand alongside existing series of Banks s correspondence published by Neil Chambers Scientific Correspondence 2007 Indian and Pacific Correspondence 2007 14 It will appeal to scholars of African history in the Early Modern Period to those studying exploration and collecting as well as those interested in natural history the history of science geography cartography and the Enlightenment An Introduction detailed Calendar of Correspondents Timelines for each volume and a comprehensive Index supplement the footnotes to nearly 800 documents included in this fascinating and comprehensive new series Parliamentary Papers Great Britain.
