Passion Of Ayn Rand

Clemens Wendtner

Passion Of Ayn Rand:

The Passion of Ayn Rand Barbara Branden, 1986 The bestselling biography of one of the 20th century's most remarkable and controversial writers Author Barbara Branden who knew Rand for nineteen years provides a matchless portrait of this fiercely private and complex woman

The Passion of Ayn Rand Barbara Branden, 1986 The bestselling biography of one of the 20th century's most remarkable and controversial writers Author Barbara Branden who knew Rand for nineteen years provides a matchless portrait of this fiercely private and complex woman

Passion of Ayn Rand Barbara Branden, 2008-07-10 Based on interviews with Rand and discussions with those close to her this biography describes her life from her youth in Russia to her stint in Hollywood as a screenwriter and through her marriage the publication of her novels and the evolution of her philosophy

Ayn Rand, [Ayn Rand and the Russian Intelligentsia](#) Derek Offord, 2022-05-05 This book examines the writings of the American novelist Ayn Rand especially *The Fountainhead* 1943 and *Atlas Shrugged* 1957 which Rand considered her definitive statement about the need for an unregulated free market in which superior humans could fully realize themselves by living for no one but themselves It explores Rand's conception of American identity which exalted individualism and capitalism and her solution for saving the modern American nation which she believed was losing the spirit of its 18th and 19th century founders and frontiersmen having been degraded morally and economically by the rampant socialism of the mid 20th century world Derek Offord crucially goes on to analyse how Rand's writings functioned as a vehicle in which she a Russian Jewish writer born in St Petersburg in 1905 engaged with ideas that had long animated the Russian intelligentsia Her conception of human nature and of a utopian community capable of satisfying its needs her reversal of conventional valuations of self sacrifice and selfishness her division of humans into an extraordinary minority and the ordinary mass her comparison of competing civilizations in all these areas Offord argues that Rand drew on Russian debates and transposed them to a different context Even the type of novel she writes the novel of ideas is informed by the polemical methods and habits of the Russian intelligentsia The book concludes that her search for a brave new world continues to have topicality in the 21st century with its populist critiques of liberal democracies and acrimonious debates about countries moral social and economic priorities and their identities inequalities and social tensions

A Companion to Ayn Rand Allan Gotthelf, Gregory Salmieri, 2021-11-08 The first volume to offer a comprehensive scholarly treatment of Rand's entire corpus including her novels her philosophical essays and her analysis of the events of her times this Companion provides vital orientation and context for scholars and educated readers grappling with a controversial and understudied thinker whose enduring influence on American and world culture is increasingly recognized The first publication to provide an in depth scholarly treatment ranging over the whole of Rand's corpus Provides informed contextual analysis for scholars in a variety of disciplines Presents original research on unpublished material and drafts from the Rand archives in California Features insightful and fair minded interpretations of Rand's controversial positions

[Ayn Rand and the World She Made](#)

Anne C. Heller, 2009-10-27 Ayn Rand is best known as the author of the perennially bestselling novels *The Fountainhead* and *Atlas Shrugged*. Altogether more than 12 million copies of the two novels have been sold in the United States. The books have attracted three generations of readers, shaped the foundation of the Libertarian movement, and influenced White House economic policies throughout the Reagan years and beyond. A passionate advocate of laissez faire capitalism and individual rights, Rand remains a powerful force in the political perceptions of Americans today. Yet twenty five years after her death, her readers know little about her life. In this seminal biography, Anne C. Heller traces the controversial author's life from her childhood in Russia during the Bolshevik Revolution to her years as a screenwriter in Hollywood, the publication of her blockbuster novels, and the rise and fall of the cult that formed around her in the 1950s and 1960s. Throughout, Heller reveals previously unknown facts about Rand's history and looks at Rand with new research and a fresh perspective. Based on original research in Russia, dozens of interviews with Rand's acquaintances and former acolytes, and previously unexamined archives of tapes and letters, *AYN RAND AND THE WORLD SHE MADE* is a comprehensive and eye-opening portrait of one of the most significant and improbable figures of the twentieth century.

Selfish Women Lisa Downing, 2019-05-24 This book proceeds from a single and very simple observation throughout history and up to the present: women have received a clear message that we are not supposed to prioritize ourselves. Indeed, the whole question of self is a problem for women and a problem that issues from a wide range of locations, including in some cases feminism itself. When women espouse discourses of self-interest, self-regard, and selfishness, they become illegible. This is complicated by the commodification of the self in the recent Western mode of economic and political organization known as neoliberalism, which encourages a focus on self-fashioning that may not be identical with self-regard or self-interest. Drawing on figures from French, US, and UK contexts, including Rachilde, Ayn Rand, Margaret Thatcher, and Lionel Shriver, and examining discourses from psychiatry, media, and feminism with the aim of reading against the grain of multiple orthodoxies, this book asks how revisiting the words and works of selfish women of modernity can assist us in understanding our fraught individual and collective identities as women in contemporary culture. And can women with politics that are contrary to the interests of the collective teach us anything about the value of rethinking the role of the individual? This book is an essential read for those with interests in cultural theory, feminist theory, and gender politics.

Radicals for Capitalism Brian Doherty, 2009-04-28 On Wall Street, in the culture of high tech, in American government, Libertarianism, the simple but radical idea that the only purpose of government is to protect its citizens and their property against direct violence and threat, has become an extremely influential strain of thought. But while many books talk about libertarian ideas, none until now has explored the history of this uniquely American movement: where and who it came from, how it evolved, and what impact it has had on our country. In this revelatory book, based on original research and interviews with more than 100 key sources, Brian Doherty traces the evolution of the movement through the unconventional life stories of its most influential leaders: Ludwig von Mises, F. A. Hayek, Ayn Rand,

Murray Rothbard and Milton Friedman and through the personal battles character flaws love affairs and historical events that altered its course And by doing so he provides a fascinating new perspective on American history from the New Deal through the culture wars of the 1960s to today s most divisive political issues Neither an expos nor a political polemic this entertaining historical narrative will enlighten anyone interested in American politics *Reclaiming the American Right* Justin Raimondo,2023-04-04 Many conservatives want to know Where did the Right go wrong Justin Raimondo provides the answer in this captivating narrative Raimondo shows how the noninterventionist Old Right which included half forgotten giants and prophets such as Senator Robert A Taft Garett Garrett and Colonel Robert McCormick was supplanted in influence by a Right that made its peace with bigger government at home and perpetual war for perpetual peace abroad First published in 1993 *Reclaiming the American Right* is as timely as ever This new edition includes commentary by Pat Buchanan political scientist George W Carey Chronicles executive editor Scott Richert and the Ludwig von Mises Institute s David Gordon **Tough Love** Cynthia Burack,2014-02-01 Exposes how ex gay and postabortion ministries operate on a shared system of thought and analyzes their social implications A staple of the culture wars the struggle between Christian conservatives and progressives over sexuality and reproductive rights continues Focusing on ex gay ministries geared to helping same sex attracted people resist their sexuality and postabortion ministries dedicated to leading women who have had an abortion to repent that decision Cynthia Burack argues that both are motivated and characterized by a strain of compassion that is particular to Christian conservatism rather than a bias and hatred toward sexual minorities and sexually active women This compassion reproduces the sexual ideology of the Christian right and absolves Christian conservatives from responsibility for stigma and other forms of harm to postabortive and same sex attracted people Using the democratic theory of Hannah Arendt the popular fiction of Ayn Rand and the psychoanalytic thought of Melanie Klein Burack studies the social and political effects of Christian conservative compassion **10 Books Every Conservative Must Read** Benjamin Wiker,2010-05-25 Following up his *10 Books That Screwed Up the World* author Benjamin Wiker brings you *10 Books Every Conservative Must Read* Plus Four Not to Miss and One Impostor Offering a guide to some of the most important literary works of our time Wiker turns his discerning eye from the great texts that have done so much damage to Western Civilization to the great texts that could help rebuild it *10 Books Every Conservative Must Read* features a range of works from classics such as *Democracy in America* and *The Federalist* and *Anti Federalist Papers* to more pop classics like *Sense and Sensibility* and *The Tempest* Through these works Wiker reveals some of the most important lessons for our time as well as the true meaning of conservatism Written with an educational purpose and witty tone this is a must read for conservatives Republicans and booklovers everywhere Nova. The Passion of Ayn Rand , Architects of the Culture of Death Benjamin Wiker,Donald Demarco,2009-09-03 The phrase the Culture of Death is bandied about as a catch all term that covers abortion euthanasia and other attacks on the sanctity of life In *Architects of the Culture of Death* authors Donald DeMarco and

Benjamin Wiker expose the Culture of Death as an intentional and malevolent ideology promoted by influential thinkers who specifically attack Christian morality's core belief in the sanctity of human life and the existence of man's immortal soul. In scholarly yet reader friendly prose DeMarco and Wiker examine the roots of the Culture of Death by introducing 23 of its architects including Ayn Rand Charles Darwin Karl Marx Jean Paul Sartre Alfred Kinsey Margaret Sanger Jack Kevorkian and Peter Singer. Still this is not a book without hope. If the Culture of Death rests on a fragmented view of the person and an eclipse of God the future of the Culture of Life relies on an understanding and restoration of the human being as a person and the rediscovery of a benevolent God. The personalism of John Paul II is an illuminating thread that runs through Architects serving as a hopeful antidote.

Intellectual Morons Daniel J. Flynn, 2004-09-21

Why do well educated antiwar activists call the president of the United States the new Hitler and argue that the U S government orchestrated the September 11 attacks? Why does Al Gore believe that cars pose a mortal threat to the security of every nation? Why does the Princeton professor known as the father of the animal rights movement object to humans eating animals but not to humans having sex with them and why does PETA defend that position? In other words why do smart people fall for stupid ideas? The answer Daniel J Flynn reveals in *Intellectual Morons* is ideology. Flynn the author of *Why the Left Hates America* shows how people can be so blinded to reality by the causes they serve that they espouse bizarre sometimes ridiculous and often dangerous positions. The most influential social movements have spawned ideologues who do not care whether an idea is good or bad true or false but only whether it can serve their cause. It is startling how many Americans and particularly how many media academic and political elites fall for bad ideas. The trouble is their lies become institutionalized as truth and we all suffer as a result. In *Intellectual Morons* Flynn reveals how rabid anti Americans simply parrot the delusional claims of a few gurus. How the environmental movement spawned by a scientist whose doomsday predictions are almost always wrong has bred fanaticism stupidity and dishonesty. How the hero of the animal rights crowd is a crank who promotes infanticide and euthanasia. How a scientific fraud and pervert launched the sexual revolution. How abortion rights activists ignore or cover up the fact that their matron saint advocated eugenics and concentration camps. How our universities have become hothouses of leftist ideology. How historians and journalists have airbrushed history to turn a racial separatist into a civil rights icon. Filled with jaw dropping lapses in common sense from even our most celebrated opinion leaders *Intellectual Morons* is a welcome reality check for the glaring excesses of today's political and cultural debates. This is a sophisticated pile driver of a book guiding us through the wiles of great luminaries of the netherworld. And such liveliness in the writing and such erudition I was quite fascinated by *Intellectual Morons*. William F Buckley Jr *Intellectual Morons* is exceptionally aptly named. The thought of all that brainpower going down the intellectual drain is sad but Daniel Flynn's description of it is hilariously on point. This is must reading. G Gordon Liddy *Intellectual Morons* is a delight a wonderful intellectual history of the past hundred years. Flynn ably describes the purveyors of the bad ideas that have undermined our free society. Burton W

Folsom Jr professor of history Hillsdale College A famous bit of folk wisdom says You ve got to stand for something or you ll fall for anything Some of the crackpot notions now fashionable in academic circles as here documented by Daniel Flynn suggest that saying is an understatement If you want to know how crazy and scary intellectual morons can get you have to read this book M Stanton Evans author of The Theme Is Freedom contributing editor to Human Events **Essays on Ayn Rand's "We the Living"** Robert Mayhew,2004-01-01 Ayn Rand s first novel We the Living offers an early form of the author s nascent philosophy the philosophy Rand later called Objectivism Robert Mayhew s collection of entirely new essays brings together pre eminent scholars of Rand s writing In part a history of We the Living from its earliest drafts to the Italian film later based upon it Mayhew s collection goes on to explore the enduring significance of Rand s first novel as a work both of philosophy and of literature *Christianity's Dangerous Idea* Jonas E. Alexis,2010 Today many in Hollywood and the media have declared open warfare on the family education and Christianity in general Intellectuals have labeled religion particularly Christianity as mere wish fulfillment or a virus of the mind something to be eradicated at all costs In Christianity s Dangerous Idea Jonas Alexis picks up where he left off in his previous books and continues to examine the ideological fallacies that have been fabricated in order to attack Christianity and the people who promote those fallacies This latest book is a tour de force of rigorous logic and testable evidence for the Christian worldview from history science experience common sense and final destiny More importantly Alexis subjects the rivals of Christianity to the same rigorous testing Christianity s Dangerous Idea clearly demonstrates the destructive nature of popular atheistic and anti Christian philosophies spread throughout Western culture by such famous people as Friedrich Nietzsche Sigmund Freud Carl Jung David Cronenberg Steven Spielberg Alan Moore William S Burroughs Philip K Dick Bruce Lee Ayn Rand Bart D Ehrman Richard Dawkins and many more In a scholarly yet readable fashion Alexis shows that what the ancient Greeks often referred to as the cult of Dionysus has become mainstream in our modern age *The Woman and the Dynamo* Stephen Cox,2017-10-24 Novelist columnist cultural critic political theorist Isabel Paterson was one of the most extraordinary personalities of the 1930s renowned for her incisive wit and her unique interpretation of the American experience The Woman and the Dynamo is the first biography of a woman who has long been a source of rumor and legend From interviews private papers and her millions of published words Stephen Cox weaves a narrative that brings Paterson vividly to life A radical individualist in both theory and practice Paterson spent her early life on the Western frontier lavished two years on formal education set a record for high altitude flight became a journalist by accident and made herself a fearless chronicler and conscience of New York literary life At the same time she made a permanent contribution to American political thought Paterson identified the fundamental issues at stake in the crises of the twentieth century and responded with an original theory of history and political economy In her view the individual mind is the dynamo of history working through the long circuit of institutions that maintain and enhance individual liberty and America is the place where the advanced forms of those institutions were

invented and are currently undergoing their severest trial While other intellectuals derided the American ideal of progress and called for the restraint or abolition of the capitalist system Paterson demanded a scrupulous application of the engineering principles on which American civilization had been built The Woman and the Dynamo provides one of the few broad and detailed accounts of the origins of the American political Right emphasizing the special role that women and imaginative writers played in its creation and posing new questions about what it means to be left or right liberal or conservative in America This will be compelling reading for those interested in twentieth century intellectual history literature and politics *Billboard* ,2001-04-14 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Nikolai Chernyshevskii and Ayn Rand Aaron Weinacht,2021-10-07 Nikolai Chernyshevskii and Ayn Rand Russian Nihilism Travels to America argues that the core commitments of the nihilist movement of the 1860 s made their way to 20th century America via the thought of Ayn Rand While mid nineteenth century Russian nihilism has generally been seen as part of a radical tradition that culminated in the Bolshevik Revolution of 1917 the author argues that nihilism s intellectual trajectory was in fact quite different Analysis of such sources as Nikolai Chernyshevskii s What is to Be Done 1863 and Ayn Rand s Atlas Shrugged 1957 archival research in Rand s papers and broad attention to late nineteenth century Russian intellectual history all lead the author to conclude that nihilism s legacy is deeply implicated in one of America s most widely read philosophers of capitalism and libertarian freedom
