Crisis of Political Understanding 1979 Jung described the urgency and necessity of breakthrough in political thinking as a crisis and he followed up on this issue for his half century of scholarship by introducing Asian philosophy and political thought to Western scholarship demonstrating the possibility of cross cultural philosophical thinking In his most recent publications Jung refers to this possibility as transversality or trans universality a concept which should replace the outmoded Eurocentric universality of modernist philosophy Jung expounds that in transversality differences are negotiated and compromised rather than effaced and absorbed into sameness This volume is a testimony to the very possibility of
