**ABSTRACT:** A colorimetric method for the detection of 2,4-dinitrophenol

in aqueous solution is described. The method is based on the formation of a colored complex between 2,4-dinitrophenol and a diazonium salt in the presence of a surfactant. The complex is stable in the presence of a surfactant and is used for the detection of 2,4-dinitrophenol in aqueous solution.

**Keywords:** colorimetric; 2,4-dinitrophenol; diazonium salt; surfactant; complex formation

INTRODUCTION

2,4-Dinitrophenol (2,4-DNP) is a highly toxic compound which is used in a variety of industrial processes. It is a strong oxidizing agent and is highly reactive towards many organic compounds. It is also a strong irritant and can cause severe burns on contact with the skin. It is therefore important to have a reliable method for the detection of 2,4-DNP in aqueous solution. A colorimetric method for the detection of 2,4-DNP in aqueous solution is described in this paper. The method is based on the formation of a colored complex between 2,4-DNP and a diazonium salt in the presence of a surfactant. The complex is stable in the presence of a surfactant and is used for the detection of 2,4-DNP in aqueous solution.

The method is based on the formation of a colored complex between 2,4-DNP and a diazonium salt in the presence of a surfactant. The complex is stable in the presence of a surfactant and is used for the detection of 2,4-DNP in aqueous solution. The method is simple and rapid and can be used for the detection of 2,4-DNP in aqueous solution. The method is also sensitive and can be used for the detection of 2,4-DNP in aqueous solution. The method is also specific and can be used for the detection of 2,4-DNP in aqueous solution. The method is also reliable and can be used for the detection of 2,4-DNP in aqueous solution.

response in the minds and hearts of other thinkers who also may be engaged in the like earnest and strenuous pursuit of fundamental religious truth For may it not without presumption be taken for granted that what has met the deepest felt needs and the highest religious hopes of one sincere inquirer after ultimate truth in religion may prove of interest if not even of value and assistance to others whose religious needs and aspirations are similar to his own It may however be well to remind the reader that within the limits of so comparatively brief a treatise as the present there are necessarily many interesting questions and important themes that could only be glanced at in passing though in themselves worthy of much fuller development About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Value of Mysticism** S. Payne,2012-12-06 Among Anglo American philosophers interest in mysticism has typically been limited to the question of whether or not mystical and religious experi ences provide evidence for or knowledge of the existence and nature of God Most authors conclude that they do not because such experiences lack certain qualities needed in order to be counted as cognitive In this study I examine some current philosophical opinions about mysticism and objec tions to its epistemic significance in the context of a detailed study of the writings of a single mystical author the Spanish Carmelite Saint John of the Cross 1542 1591 I argue that from his works one can draw a coherent theory of what takes place in the Christian mystical life and will indicate how acceptance of this theory might be defended as rational through a type of inference often referred to as the Argument to the Best Explanation In this way I hope to show that mysticism still has a significant bearing on the justification of religious faith even if it cannot be used to prove the exis tence of God The nature and advantages of my own somewhat unusual approach to mysticism can perhaps best be explained by contrasting it with the way other authors have dealt with the subject One of the most striking develop ments in recent decades has been the growing fascination with mysticism meditation and the experiential aspects of religion      **The Wiley-Blackwell**
