Epistemology Laurence Bonjour, 2009-11-15 In Epistemology Laurence Bonjour introduces the serious philosophy student to the history and concepts of epistemology while simultaneously challenging them to take an active part in its ongoing debates The text reflects Bonjour's conviction that the place to start any discussion of the theories of knowledge is with the classical problems beginning with and centered around Descartes Only after the groundwork for understanding epistemology is laid does Bonjour move on to the more contemporary revolutions against the classical approach A versatile text that can be used in introductory level epistemology courses it can also be used by an upper level epistemology class when supplemented by appropriate readings This book is not however a simple reader of the different theories of knowledge Epistemology prods students to think independently about the various epistemological approaches presented in the text and form their own conclusions thus becoming active participants in the ongoing debate

Jason D. Crowder, 2016-03-02 Too often skeptics charge Christians with having a blind faith Unfortunately believers have added fuel to the charges of skeptics by speaking of their faith illogically But the Christian faith is not a blind faith In fact biblical faith is never a blind irrational faith Christianity rests firmly on the stone that was rejected by the builders which has become the cornerstone Jesus Christ Acts 4 11 Living biblically requires thinking biblically just as to think biblically entails to live biblically as Winfried Corduan notes in the Foreword As followers of Christ believers cannot separate biblical thinking and biblical living These two behaviors are eternally connected not only in the person of Jesus Christ but they stem from the eternal being of God the Father and his eternal truth Christ mandates that his followers love God with their entire being heart soul mind and strength Mark 12 30 How are believers to go about living out this biblical mandate Christian faith is a warranted belief This is why it is so essential that Christians recognize the value and importance of philosophy and its proper place in Christendom and in the Christian's walk *Sport, Philosophy, and Good Lives* Randolph Feezell, 2013-07-01 There's more to sports than the ethos of competition entertainment and commercialism expressed in popular media and discourse Sport Philosophy and Good Lives discusses sport in the context of several traditional philosophical questions including What is a good human life and how does sport factor into it To whom do we look for ethical guidance What makes human activities or projects meaningful Randolph Feezell examines these questions along with other relevant topics in the philosophy of sport such as the contribution of play to a meaningful life the various reasons for pessimistic views of sport the various claims that celebrated athletes are role models and the seldom questioned view that coaches are in a position to offer advice to athletes on how to live or on leadership skills He also discusses the way that non Western attitudes found in Buddhism Taoism and the Bhagavad Gita might be used to address the vulnerabilities of sports participants Feezell draws from current sports issues popular literature and contemporary sports figures to shed light on the attraction and value of sports and examine the accompanying ethical issues **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association, 2004 List of members in v 1 *Viktor E. Frankl Anthology* Timothy Lent, 2004-08-30 Introduction to Viktor E Frankl The Man and His Message Philosopher of Meaning Viktor Emil Frankl was a philosopher of meaning Even from his childhood days and into his adolescent years Frankl was concerned with meaning At the early age of four he vividly remembered the thought of his own mortality In his autobiography he recalled one evening just before falling asleep I was startled by the unexpected thought that one day I too would have to die What troubled me then as it has done throughout my life was not the fear of dying but the question of whether the transitory nature of life might destroy its meaning Even as a teenager Frankl was on a quest for meaning searching for the answer to the question What is the meaning of life He wrote I

well remember how I felt when I was exposed to reductionism in education as a junior high school student at the age of thirteen Once our natural science teacher told us that life in the final analysis was nothing but a combustion process an oxidation process I sprang to my feet and said Professor Fritz if this is the case what meaning does life have In 1921 as a high school student at the age of 16 he gave his first public lecture to an adult education school It was entitled The Meaning of Life For Frankl all of life was imbued with meaning no matter what situation in which one may find oneself no how well of ill chronically or terminally ill one was no matter where one was along life's journey no matter how badly a person may have wrecked his or her life In all of its various conditions life still has meaning as Frankl often said every life in every situation and to the last breath has a meaning retains a meaning He was emphatic The so called life not worth living does not exist Frankl was an amazing man who had an amazing message to tell men and women in the 20th century He was an extremely gifted human being a physician psychiatrist and philosopher

representation This book offers readers a broad perspective on the multiple ways in which Hispanic women writers are explicitly exploring the social political and economic realities of our era and integrating global perspectives and gender concerns into their writing highlighting the unprecedented level of sociopolitical engagement practiced by 20th and 21st century Hispanic women writers
