A Philosophical Theology of the Old Testament Jaco Gericke, 2020-01-08 Are we able to identify and compare the philosophical perspectives and questions that must be postulated as having been somehow present in the language ideas and worldviews of the Biblical authors This book sets out an approach to something that has been generally considered impossible a philosophical theology of the Old Testament It demonstrates and addresses the neglect of a descriptive and comparative philosophical clarification of concepts in Old Testament theology and in so doing treads new ground in Biblical studies and philosophical theology Recognizing the obvious problems with and objections to any form of interdisciplinary research combining philosophical and Biblical theology this study presents itself as introductory and experimental in nature The methodology opted for is limited to a philosophical clarification of concepts already found in Old Testament theology while the findings are presented via the popular thematic approach found in analytic philosophical theologies with no attempted justification or critique of the textual contents under investigation These approaches are combined by primarily looking at the nature of Yahweh in the Old Testament This book offers a new vision of Biblical and philosophical theology that brings them closer together in order that we might understand both more broadly and deeply As such it will be vital reading for scholars of Theology Biblical Studies and Philosophy

Ultimates Robert Cummings Neville, 2013-10-01 A new theology of ultimate realities and a new theory of religion to back it up addressed to believers unbelievers and scholars of all traditions God, Knowledge, and Mystery Peter Van Inwagen, 2019-05-15 In a book that will appeal to a general audience as well as philosophers of religion a leading metaphysician tackles fundamental theological problems in a lucid and engaging manner Peter van Inwagen begins with a provocative new introduction exploring the question of whether a philosopher such as himself is qualified to address theological matters The chapters that follow take up the central problem of evil in a world created and sustained by God

Philosophical Theology Frederick Robert Tennant, 1928 Philosophical Theology and the Knowledge of Persons Eleonore Stump, 2023-02-02 In the series of essays collected in this book Eleonore Stump offers reflections that illustrate the

nature and importance of learning from the Christian heritage in its development over the ages of the Christian tradition and its continued development in interaction with contemporary philosophy theology and science The essays show the power of this heritage in philosophical theology and in philosophical biblical exegesis Central to the concerns they address is the Christian conviction that at the foundation of all reality is a God who is love in a welcoming personal relationship offered to all human beings The essays explore the nature of God and some puzzles about God s interactions with human beings they also examine the nature of human knowledge of God and argue that it can be achieved not only through propositional truths but also through knowledge of persons and even through apprehension of beauty in nature or the arts The book closes with an examination of what it is to will in accordance with the will of God for those who long for him Scottish Philosophical Theology David Fergusson,2012-10-05 This volume concentrates on the period from the beginning of the 18th century to the latter part of the 20th It is impossible to depict a single school of philosophical theology in Scotland across three centuries yet several strains have been identified that suggest some recurrent themes or intellectual habits These include the following the mutually beneficial cross fertilisation of the disciplines of philosophy and theology the tendency to eschew powerful philosophical systems that might threaten to imprison theological ideas a stress on both the providential limitations and reliability of human reason a suspicion of reductive theories of a materialist inclination and a determination to inspect critically the proposals of theology and to place these in positive relation to other disciplines **Philosophical Theology** Michael Baur,2001 Theology and Philosophy Ingolf U. Dalferth,2001-10-13 **Religion** Robert Cummings Neville,2015-01-08 Religion is the third and final volume in Robert Cummings Neville s systematic development of a new philosophical theology Unfolding through his earlier volumes *Ultimates* and *Existence* and now in *Religion* philosophical theology considers first order questions generally treated by religious traditions through philosophical methods while reflecting Neville s long engagement with philosophy theology and Eastern and Western religious traditions In this capstone to the trilogy Neville provides a theory of religion and presents a sacred worldview to guide religious participation His philosophical theory of value enlightens religions approaches to ethics spirituality and religious institutional living and collaboration With a detailed examination of plausibility conditions for sacred worldviews the book concludes with an exploration of religionless religion for which institutions of religion are of penultimate value Through the development of philosophical theology Neville has built a unique multidisciplinary comparative nonconfessional theological system one that addresses concerns and provides tools for scientific and humanistic scholars of religion postmodern thinkers intellectuals from both secular and religious backgrounds and those interested in the global state of religion today Faith and Logic Basil Mitchell,2013-07-18 When this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon Christianity but there had been relatively little sustained discussion of the subject This book of essays was the product of a small group of Oxford philosophers and theologians who had met and

talked informally for some years before writing it It is an attempt to discuss with care and candour some of the problems raised for Christian belief by contemporary analytical philosophy In asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers The contributors concentrate on the way such concepts as God Revelation the Soul Grace are actually used rather than asserting or denying some very general theory of meaning

Oxford Readings in Philosophical Theology: Providence, scripture, and resurrection Michael C. Rea, 2009 Over the past sixty years within the analytic tradition of philosophy there has been a significant revival of interest in the philosophy of religion More recently philosophers of religion have turned in a more self consciously interdisciplinary direction with special focus on topics that have traditionally been the provenance of systematic theologians The present anthology aims to bring together some of the most important essays on six central topics in recent philosophical theology Volume 1 collects essays on three distinctively Christian doctrines trinity incarnation and atonement Volume 2 focuses on three topics that arise in all the major theistic religions providence

resurrection and scripture Book Jacket **Methexiology** Nicolas Laos, 2016-05-19 Methexiology is not a particular theory but rather a general philosophical orientation Therefore in Methexiology Philosophical Theology and Theological Philosophy for the Deification of Humanity Nicolas Laos elucidates the significance of methexiology for the study of ontology epistemology ethics philosophical psychology theory of justice philosophy of history and philosophy of religion Laos argues that faced with the modern and the postmodern crises of meaning we need a new myth a new spiritual formula for the resacralization of humanity and the cosmos without restoring defunct totems without using tales as cheap substitutes for the lack of a life giving myth and without negating history In his Methexiology Laos studies the genealogy of the modern and the postmodern crises of meaning and based on his new interpretation of classical Greek philosophy and Hesychasm proposes methexiology as a way of overcoming the crises of meaning and as a way of resacralizing humanity and the cosmos through a new metaphysically grounded humanism
