Eisenstadt,2022-11-07 This collection of essays provides an analysis of the dynamics of Civilizations The processes of globalization and of world history are described from a comparative sociological point of view in a Weberian tradition These essays were written between 1974 and 2002 by one of the most eminent sociologists of today The print edition is available as a set of two volumes 9789004129931 **The Bodies of God and the World of Ancient Israel** Benjamin D. Sommer,2009-06-29 Sommer utilizes a lost ancient Near Eastern perception of divinity according to which a god has more than one body and fluid unbounded selves Though the dominant strains of biblical religion rejected it a monotheistic version of this theological intuition is found in some biblical texts Later Jewish and Christian thinkers inherited this ancient way of thinking ideas such as the sefirot in Kabbalah and the trinity in Christianity represent a late version of this theology This book forces us to rethink the distinction between monotheism and polytheism as this notion of divine fluidity is found in both polytheistic cultures Babylonia Assyria Canaan and monotheistic ones biblical religion Jewish mysticism Christianity whereas it is absent in some polytheistic cultures classical Greece The Bodies of God and the World of Ancient Israel has important repercussions not only for biblical scholarship and comparative religion but for Jewish Christian dialogue Anti-Judaism David Nirenberg,2013-02-04 A powerful history that shows anti Judaism to be a central way of thinking in the Western tradition This incisive history upends the complacency that confines anti Judaism to the ideological extremes in the Western tradition With deep learning and elegance David Nirenberg shows how foundational anti Judaism is to the history of the West Questions of how we are Jewish and more critically how and why we are not have been churning within the Western imagination throughout its history Ancient Egyptians Greeks and Romans Christians and Muslims of every period even the secularists of modernity have used Judaism in constructing their visions of the world The thrust of this tradition construes Judaism as an opposition a danger often from within to be criticized attacked and eliminated The intersections of these ideas with the world of power the Roman destruction of the Second Temple the Spanish Inquisition the German Holocaust are well known The ways of thought underlying these tragedies can be found at the very foundation of Western history
