Philosophy And Literature Of Existentialism:

Existentialists and Mystics Iris Murdoch, 1999-07-01 Best known as the author of twenty six novels Iris Murdoch has also made significant contributions to the fields of ethics and aesthetics Collected here for the first time in one volume are her most influential literary and philosophical essays Tracing Murdoch s journey to a modern Platonism this volume includes incisive evaluations of the thought and writings of T S Eliot Jean Paul Sartre Albert Camus Simone de Beauvoir and Elias Canetti as well as key texts on the continuing importance of the sublime on the concept of love and the role great literature can play in curing the ills of philosophy Existentialists and Mystics not only illuminates the mysticism and intellectual underpinnings of Murdoch s novels but confirms her major contributions to twentieth century thought Humanistic Existentialism Hazel Estella Barnes, 1959-01-01 Click for larger cover scan Humanistic Existentialism The Literature of Possibility Paper 1959 X 419 CIP LC 59 11732 ISBN 0 8032 5229 3 Price 29 95 University of Nebraska Press This study in humanistic existentialism is highly informative as well as entertaining It is a scholarly detailed analysis of the literary art the philosophical ideas and the psychologies of Albert Camus Jean Paul Sartre and Simone de Beauvoir It is also a competent effort to explain the positive implications for the theory of freedom and possibility which lie half buried under this literature of nothingness alienation and absurdity Miss Barnes makes thoroughly enjoyable reading of a subject matter which might have seemed forbidding Herbert W Schneider Journal of Philosophy Recommended unqualifiedly as the most thorough and reliable exposition of the works of Sartre Camus and de Beauvoir to have appeared in this country Willard Colston Chicago Sun Times Those who want a real understanding of existentialism instead of the usual superficial generalizations are certain to gain it from this book Walter Kaufmann The American Scholar The book captures much of the forlorn dark grandeur of the existentialist vision of the human condition Yale Review The philosophy of Sartre is presented accurately and with rare elegance and simplicity The section on psychoanalysis compares Sartre to Freud then to Horney and Fromm then to the phenomenologists The treatment is fair minded and careful Robert Champigny L Esprit Crateur Literature & Existentialism Jean-Paul Sartre, 1949 The Philosophy of Existentialism Jean-Paul Sartre, 1965 Essays Bibliography p 423 431 **Literature, Philosophy, and the Social Sciences** Maurice Natanson, 2012-12-06 A collection of one man s essays in book form tends to be viewed today with some suspicion if not hostility by philosophical critics It would seem that the author is guilty of an academic sin of pride causing or helping to cause separately conceived articles to surpass their original station and assume a new life a grander articulation It can hardly be denied that the essays which follow must face this sullen charge for they were composed at different times for different sorts of audiences and for the most part have already been published Their appearance in a new form will not allay commonplace criticisms there are repetitions certain key terms are defined and defined again in various places a few quotations reappear and beyond this the essays are unequal in range depth and fundamental intent But it is what brings these essays together that constitutes I trust their collective merit Underlying

the special arguments that are to be found in each of the chapters is a particular sense of reality not a thesis or a theory but rather a way of seeing the world and of appreciating its texture and design It is that sense of reality that I should like to speak of here Philosophy stands in a paradoxical relationship to mundane existence it is at once its critique and one of its possibilities

Sartre and Existentialism William L. McBride, 2000-02-01 Captures the full range of existentialism For the quarter century following World War II existentialism was a pervasive current of thought worldwide not only in philosophy but also in literature and in much of psychological and social theory Jean Paul Sartre was the towering controversial figure who gave impetus to the movement and with whom existentialism was identified Sartre's philosophy which evolved considerably over more than three decades continues to generate attention today Scholarship on all of Sartre's writings The collection begins with contemporary articles that recapture the atmosphere in which the idea of existentialism crystallized It presents important comparative and background studies that establish connections between Sartre and existentialist writers who preceded him and offers some of the best scholarship on his writings including posthumous publications The articles also connect Sartre's philosophy with the work of his best known French contemporaries and associates notably Camus de Beauvoir and Merleau Ponty and with major post existentialist intellectual currents Interdisciplinary and balanced coverage While presenting Sartre as a philosopher as he saw himself this interdisciplinary collection of articles includes both comprehensive overviews of his philosophy and in depth analyses of it some highly sympathetic and some highly critical Because of its interdisciplinary character and its chronological range over more than half a century this series is an exceptionally valuable resource for scholars in the humanities and social sciences A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on existentialism and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Comprehensive contemporary to classic Not only does the collection offer the best of contemporary articles but it also includes important classics and seminal pieces Thus a student can view in one place the historical evolution and advances in existentialist thought as well as be informed about the latest developments Authoritative introductions A distinguished authority in the field the series editor has put together a balanced and well thought out selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject Durable and permanent Unlike journals which cannot withstand the rigors of constant use the hardbound books in this series have sturdy

library style bindings and are printed on acid free paper that has a guaranteed shelf life of 300 years Consequently the set will still be in excellent condition when the original periodicals are long gone An affordable research resource Even if a library has all of the journals represented in the series this inexpensive core collection of articles in permanent form saves wear and tear on the fragile journals themselves The series puts into the hands of undergraduates a selection of the best writings on existentialism that is convenient comprehensive multidisciplinary and ideal as a starting point for research The many articles introduce students in a user friendly way to a range of important opinions and intellectual discourse that is likely to whet their appetite for pursuing the subject further on their own Individual volumes available Vol 1 The Development and Meaning of Twentieth Century Existentialism 400 pages 0 8153 2491 X Vol 2 Existentialist Background Kierkegaard Dostoevsky Nietzsche Jaspers Heidegger 0 8153 2492 8 Vol 3 Sartre's Life Times and Vision Du Monde 392 pages 0 8153 2493 6 Vol 4 Existentialist Ontology and Human Consciousness 392 pages 0 8153 2494 4 Vol 5 Existentialist Ethics 400 pages 0 8153 2495 2 Vol 6 Existentialist Politics and Political Theory 376 pages 0 8153 2496 0 Vol 7 Existentialist Literature and Aesthetics 376 pages 0 8153 2497 9 Vol 8 Sartre's French Contemporaries and Enduring Influences 392 pages 0 8153 2498 7
