**Philosophy Bridging the World Religions** P. Koslowski, 2014-01-15 Wisdom From World Religions John Marks Templeton, 2008-01-01 Every religion acknowledges certain spiritual principles and records them in its sacred literature and traditions This book curates these ancient teachings and shows how they apply to modern life with the help of parables quotations and commentaries By reading Wisdom from World Religions people from all walks of life will be inspired to pursue their own spiritual growth and to contemplate questions central to our existence such as how through love and creativity can we be agents of divinity on earth Uplifting and instructional this is a book to be treasured studied and practiced

*Essentials of Catholic Radicalism* Corneliu C. Simuț, 2011 The book describes the fundamental tenets of Catholic Radicalism defined as an understanding of Christianity from a perspective which dismisses the traditional supernatural image of God The essentials of Catholic Radicalism are extracted from the works of Vito Mancuso a lay Italian theologian whose intention is to rebuild Christian theology starting from the natural and physical reality of this world Mancuso insists that he is a Catholic theologian despite his conviction that God should be seen today in atheistic terms which help us understand the world from a rational perspective The use of reason in theology is compulsory for Mancuso in order for theology to make sense in the skeptical society of our times which is characterized by a powerful lay consciousness

**Nature and Technology in the World Religions** P. Koslowski, 2013-06-29 Technology and the control of nature have arisen from the endeavor to reduce the neediness of human life Since this reduction is also the goal of religions there is a necessary proximity between religion and technology The relationship of humans to nature and technology is an object of religious doctrine and ethics in all of the world's religions The interpretations and the norms of the treatment of nature in economy and technology but also the veneration of nature in nature mysticism and its elevation in cult and sacrament are forms of expression of the relationship to nature in religions The development of the modern control of nature through technology appears to be connected to the biblical commission to rule over nature Buddhism and Hinduism however also interpret technology and human control of nature Technological power raises the question of how the normativeness of the created order intended by religion's concept of creation relates to the human freedom to reshape creation What answers do religions give to the question of the humane form of technology and the limits to technological power and human control of nature Leading scholars of Judaism Christianity Islam Hinduism and Buddhism have created with this volume a first hand source of information which enables

*Approaching the World's Religions, Volume 1* Robert Boyd,2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers

in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue

*Encyclopedia of World Religions* Encyclopaedia Britannica, Inc.,2008-05-01 A guide to the religions of the world and to the concepts movements people and events that have shaped them It includes features such as entries on religious movements and concepts historical and legendary figures divinities religious sites and ceremonies images that show sacred places vestments rituals objects and texts and more

*The Concept of Self in Hinduism, Buddhism, and Christianity and Its Implication for Interfaith Relations* Kiseong Shin,2017-05-05 This is the first comparative study of the self and no self in Hinduism Buddhism and Christianity In spite of doctrinal differences within these three belief systems they agree that human beings are in a predicament from which they need to be liberated Indian religions including Hinduism and Buddhism share the belief that human nature is inherently perfectible while the epistemological and psychological limitation of the human being is integral to Christian belief Regarding the immortality of the human being Hinduism and Christianity traditionally and generally agree that human beings as atman or soul possess intrinsic immortality On the contrary Buddhism teaches the doctrine of no self anatta Further in their quest to analyze the human predicament and attempt a way out of it they employ different concepts such as sin and salvation in Christianity attachment tanka and enlightenment nirvana in Buddhism and ignorance avidya and liberation moksha in Hinduism This volume seeks to show that that behind these concepts are deep concerns related to human existence and its relationship with the whole creation These common concerns can be a basis for a greater understanding and dialogue between Christians Hindus and Buddhists

*Emil Fackenheim's Post-holocaust Thought* Kenneth Hart

Green, Martin D. Yaffe, 2021-11-17 Recognized as one of the leading philosophers and Jewish thinkers of the twentieth century Emil Ludwig Fackenheim has been widely praised for his boldness originality and profundity As is well known a striking feature of Fackenheim's thought is his unwavering contention that the Holocaust brought about a radical shift in human history so monumental and unprecedented that nothing can ever be the same again Fackenheim regarded it as the specific duty of thinkers and scholars to assume responsibility to probe this historical event for its impact on the human future and to make its immense ramifications evident In Emil Fackenheim's Post Holocaust Thought and Its Philosophical Sources scholars consider important figures in the history of philosophy including Kant Hegel Heidegger and Strauss and trace how Fackenheim's philosophical confrontations with each of them shaped his overall thought This collection details which philosophers exercised the greatest influence on Fackenheim and how he diverged from them Incorporating widely varying approaches the contributors in the volume wrestle with this challenge historically politically and philosophically in order to illuminate the depths of Fackenheim's own thought

*The Bridge* Michael W. McGowan, 2015-05-04 Philosophers of religion and theologians have long wrestled with the concept of revelation Does God reveal truth to human subjects primarily through sacred texts or audible voices Through inner experiences or pronouncements of religious leaders What is the relationship between the truths given in revelation and those discoverable by reason Revelation is a challenge not only to scholars but also for churchgoers How can the same God command one person to do one thing and another to do something quite different In *The Bridge* Michael McGowan explores how a number of great twentieth and twenty first century thinkers understand the concept of revelation Using insights from their work and some recent advances in literary theory and communication studies he constructs a model of revelation in which symbol and narrative figure heavily Ancient ideas are given new life in this contemporary explication of the nature of revelation God as the Revealer and revelation's implications
