The essays are written in the context of the so called tribal areas of the north eastern region of India. The base data in most cases have however been collected from Meghalaya, the Khasi Jaintia Hills in particular, my primary research universe. However, the ethnic groups living in the mountainous terrain of India's north east show a characteristic unity despite linguistic and cultural diversities that of being in a state of social format called tribal, facing similar problems of static life economy and under development. Added to this are the tensions generated in recent years when education and some waves of development reached the region and tribal self governing states in the Indian Union came in to being. Consequently, new issues have come into the fore, the issues relating to self assertion, retention of the age old cultural identity, the crisis of adjustment between tradition and modernity and above all the tensions of a change over from the tranquil folklife to modern hurly burly including those of the fast moving world in the days of globalization. Consequently, there also appeared a concern with folklore, the search for a lore of essential core to write a new history. Khasi Jaintia Oral Texts, Folklore and Development, Antithetic NorthEast India, Mentalities, The Folklife and the Socio Psychological Issues of Development, Identity, Narrative, Ritual and Historical Jaintia, Religion and Identity, Khasi Orality, Khasi Jaintia Genre of Folklore, The Nongkrem Dances of Khasi Meghalaya, Hills, Dales and Groves, Folk Court, Popular Hermeneutics of Religious Practices. Boundaries and Borderlands Alka Acharya, 2022-07-21. The Simla Convention of 1914 held between Great Britain, China and Tibet demarcated the border between India and Tibet and gave birth to the McMahon Line. This volume critically examines the legacy of the 1914 Convention and explores its relevance in scholarly discourse about the status of Tibet and Sino Indian relations more than a hundred years later. The book discusses the significance of the Simla Convention both in terms of the geopolitics of boundaries as well as the people and the liminal borderlands they occupy, encapsulating the culture and diversity of the trans Himalayan regions. The book explicates how colonial legacies, namely the 1914 Simla Convention, have become virtual straitjackets hardening the positions on the boundaries between India and China. It also looks at the debilitating consequences of the nation state framework on more

Nayak, 2023-01-01 Anthropology is one of the very vibrant subjects in India and Indian anthropologists will be second to American Anthropologists in terms of numbers. The institutions teaching anthropology are nearly touching a half century. India has already completed a century of teaching of anthropology. Besides, India is one of the few countries to have an exclusive public funded research organization named Anthropological Survey of India completing 77 years of its glorious existence. In the present volume, comprehensive information is being given on many important anthropologists who have made significant contribution in enriching the theory and subject matter of Indian anthropology.
