The remarkable lectures that Hegel gave in Berlin in the 1820s generated an exciting intellectual atmosphere which lasted for decades. From the 1830s many students flocked to Berlin to study with people who had studied with Hegel and both his original students such as Feuerbach and Bauer and later arrivals including Kierkegaard, Engels, Bakunin and Marx evolved into leading nineteenth century thinkers. Jon Stewart's panoramic study of Hegel's deep influence upon the nineteenth century in turn reveals what that century contributed to the wider history of philosophy. It shows how Hegel's notions of alienation and recognition became the central motifs for the era's thinking, how these concepts spilled over into other fields like religion, politics, literature and drama, and how they created a cultural phenomenon so rich and pervasive that it can truly be called Hegel's century. This book is required reading for historians of ideas as well as of philosophy. Kierkegaard Bibliography Peter Šajda, Jon Bartley Stewart, 2016 *Søren Kierkegaard Literature, 1956-2006* Aage Jørgensen, 2009 This bibliography on Søren Kierkegaard carries on the work of Jens Himmelstrup's international bibliography 1962. It collates everything written about Kierkegaard, books, contributions to edited collections and journals, and also features an appendix of primary text editions and translations. Discussion notes, reviews etc. are catalogued according to the items they refer to. The bibliography contains more than 5,600 primary entries and is a testament to the expanding worldwide interest in the Danish philosopher. It also remedies the deeply felt need for a collected overview of the extensive literature on Kierkegaard.

Confronting the Will-to-Power Mark F.W. Lovatt, 2006-10-19 The author takes up Niebuhr's theology and presents it to be at its heart an attempt to grapple with the most powerful and most dangerous aspect of human nature, a quality Niebuhr describes as the will to power. Lovatt argues forcibly that Niebuhr identifies the fundamental nature of human sin as having very specific qualities and that Niebuhr over his various works develops a theology which seeks to deal effectively with this quality, both theologically and practically. Lovatt discusses the main areas of doctrine covered by Niebuhr and considers how his position reflects his underlying agenda to grapple with the reality of the will to power; this leads to some important conclusions about Niebuhr, modern theology and the present-day problem of evil. *George Herbert Mead* Peter Hamilton, 1992 **French Philosophies of the Romantic Period** George Boas, 1925 **Catalog of Copyright Entries.
