Philosophy In World Perspective A Comparative Hermeneutic Of The Major Theories:

Philosophy in World Perspective David A. Dilworth, 1989-01-01 Philosophers and theologians from around the world and throughout history have grappled with such fundamental issues as the nature of the world and man's relation to it as well as the optimal forms of human perception language and behaviour Yet it has always been difficult to compare the works of thinkers from different eras and cultures In this work of systematic philosophy David Dilworth places the major texts of ancient and modern and Western and Oriental philosphy and religion into one comparative framework His study reveals affinities between thinkers who lived centuries and continents apart and produces numerous insights by bringing together the greatest philosophical texts into a single scheme A Comparative History of World Philosophy Ben-Ami Scharfstein, 1998-02-27 A Comparative History of World Philosophy presents a personal yet balanced guide through what the author argues to be the three great philosophical traditions Chinese European and Indian The book breaks through the cultural barriers between these traditions proving that despite their considerable differences fundamental resemblances exist in their abstract principles Ben Ami Scharfstein argues that Western students of philosophy will profit considerably if they study Indian and Chinese philosophy from the very beginning along with their own Written with clarity and infused with an engaging narrative voice this book is organized thematically presenting in virtually every chapter characteristic views from each tradition that represent similar positions in the core areas of metaphysics and epistemology At the same time Scharfstein develops each tradition historically as the chapters unfold He presents a great variety of philosophical positions fairly avoiding the relativism and ethnocentrism that could easily plague a comparative presentation of Western and non Western philosophies The Epistemology of Comparative Philosophy Joseph Kaipayil, 1995 Methodologies of Comparative Philosophy Robert W. Smid, 2010-07-02 What is comparative philosophy This question is ultimately a methodological one according to this much needed book The cultivation of area studies in diverse traditions has opened up opportunities for cross cultural understanding that have rarely existed before and comparative philosophy is a rapidly emerging area of inquiry Yet surprisingly little has been written on comparative methodology in philosophy Of course there is much at stake in how we compare things how comparison is done determines what comparison is Author Robert W Smid provides a critical review of four of the most influential comparative methodologies within the American pragmatist and process philosophical traditions those of William Ernest Hocking F S C Northrop Robert Cummings Neville and David L Hall in collaboration with Roger T Ames Discussing the history of each methodology s development and critically assessing its strengths and weaknesses Smid demonstrates that it is possible to compare methods as well as traditions and encourages those interested to join the contemporary conversation Religious Philosophy as Multidisciplinary Comparative **Inquiry** Wesley J. Wildman, 2010-11-05 What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to

regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they are across the world's religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future Methods in Law, Humanities and Social Sciences Adams, Maurice, Van Hoecke, Mark, 2021-11-19 This cutting edge book facilitates debate amongst scholars in law humanities and social sciences where comparative methodology is far less well anchored in most areas compared to other research methods It posits that these are disciplines in which comparative research is not simply a bonus but is of the essence **European Perspectives on the New Comparative Theology** Francis X. Clooney, John Berthrong, 2018-10-09 Printed Edition of the Special Issue Published in Religions with a Summary by Overheard in Seville 2002, 2002-10-15 An annual publication Overheard in Seville Bulletin of the Perry Schmidt Leukel George Santayana Society includes scholarly articles on George Santayana as well as announcements of publications and meetings pertaining to Santayana Scholarship Overheard in Seville 2003, 2003-10-15 An annual publication Overheard in Seville Bulletin of the George Santayana Society includes scholarly articles on George Santayana as well as announcements of publications and meetings pertaining to Santayana Scholarship Comparing Religions Thomas Athanasius Idinopulos, Brian C. Wilson, James Constantine Hanges, 2018-08-14 Given the fact that today s university students are far more culturally sophisticated than ever before Comparing Religions Possibilities and Perils brings together a distinguished group of professors of religion with years of teaching experience to address the central guestion of how comparison of religions should be pursued in today s classroom Covering topics such as recent theoretical approaches to comparison case studies of comparing religions in the classroom and the impact of postcolonialism and postmodernism on the modernist assumptions of comparitivism the volume seeks to problematize and interrogate the field especially as it relates to emerging models of pedagogy at the university level Comparing Religions will be of especial interest to those who teach in religious studies departments or who teach courses on religion in departments of anthropology sociology and history Recovering Pragmatism's Voice Lenore Langsdorf, Andrew R. Smith, 1995-01-01 This book establishes a new paradigm for CAD expanding computer tools beyond the technical processes of computer aided design to include the discussion and negotiation which are a necessary complement to developing design ideas thus introducing the concept that design is fundamentally a social Oriental Enlightenment J.J. Clarke, 2002-09-11 What is the place of Eastern thought Buddhism Taoism Hinduism process

Confucianism in the Western intellectual tradition Oriental Enlightenment shows how despite current talk of globalization there is still a reluctance to accept that the West could have borrowed anything of significance from the East and explores a critique of the orientalist view that we must regard any study of the East through the lens of Western colonialism and domination Oriental Enlightenment provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance A Life of Scholarship with Santayana Herman J. Saatkamp Jr., 2021-01-25 An entire lifetime s work by Herman J Saatkamp is collected here in A Life of Scholarship with Santayana Essays and Reflections From the first essay published in 1972 to the latest in 2017 almost fifty years of scholarship is given a fresh embodiment of expression Saatkamp is considered by many to be the world's foremost authority on George Santayana's life and thought Not only does this volume bring into clear relief Saatkamp's understanding of Santayana the editing process and genetic concerns and the future of philosophy but it also betrays a lucid and humane understanding that aptly personifies a life spent in reflection a discerning sense of appreciation and an affirmation of life and learning Transformations Of The Confucian Way John Berthrong, 2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world John Berthrong's comprehensive new work tells the story of the grand intellectual development of the Confucian tradition revealing all the historical phases of Confucianism and opening the reader's eyes to the often neglected gifts of scholars of the Han T and and the modern periods as well as to the vast contributions of Korea and Japan The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West Religious Liberty and the Law Angus J. L. Menuge, 2017-07-20 Questions of religious liberty have become flashpoints of controversy in virtually every area of life around the world Despite the protection of religious liberty at both national and supranational levels there is an increasing number of conflicts concerning the proper way to recognize it both in modern secular states and in countries with an established religion or theocratic mode of government This book provides an analysis of the general concept of religious liberty along with a close study of important cases that can serve as test beds for conflict resolution proposals It combines the insights of both pure academics and experienced legal practitioners to take a fresh look at the nature scope and limits of religious liberty Divided into two parts the collection presents a blend of legal and philosophical approaches and draws on cases from a wide range of jurisdictions including Brazil India Australia the USA the Netherlands and Canada Presenting a broad range of views this often provocative volume makes for fascinating reading for academics and researchers working in the areas of law and religion legal philosophy and human rights George Santayana at 150 Matthew C.
