Hegel, Husserl and the Phenomenology of Historical Worlds Tanja Staehler, 2016-12-07 GWF Hegel famously described philosophy as its own time apprehended in thoughts reflecting a desire that we increasingly experience namely the desire to understand our complex and fast changing world But how can we philosophically describe the world we live in When Hegel attempted his systematic account of the historical world he needed to conceive of history as rational progress to allow for such description After the events of the twentieth century we are rightfully doubtful about such progress However in the twentieth century another German philosopher Edmund Husserl attempted a similar project when he realised that a philosophical account of our human experience requires attending to the historical world we live in According to Husserl the Western world is a world in crisis In this book Tanja Staehler explores how Husserl thus radicalises Hegel s philosophy by providing an account of historical movement as open Husserl s phenomenology allows thinking of historical worlds in the plural without hierarchy determined by ethics and aesthetics Staehler argues that through his radicalization of Hegel s philosophy Husserl provides us with a historical phenomenology and a coherent concept of a culture that points to the future for phenomenology as a philosophy that provides the methodological grounding for a variety of qualitative approaches in the humanities and social sciences

Merleau-Ponty and Buddhism Gereon Kopf, Jin Y. Park, 2009-08-13 *Merleau Ponty and Buddhism* explores a new mode of philosophizing through a comparative study of Maurice Merleau Ponty s phenomenology and philosophies of major Buddhist thinkers such as Nagarjuna Chinul Dogen Shinran and Nishida Kitaro Challenging the dualistic paradigm of existing philosophical traditions Merleau Ponty proposes a philosophy in which the traditional opposites are encountered through mutual penetration Likewise a Buddhist worldview is articulated in the theory of dependent co arising or the middle path which comprehends the world and beings in the third space where the subject and the object or eternalism and annihilation exist independent of one another The thirteen essays in this volume explore this third space in their discussions of Merleau Ponty s concepts of the intentional arc the flesh of the world and the chiasm of visibility in connection with the Buddhist doctrine of no self and the five aggregates the Tiantai Buddhist concept of threefold truth Zen Buddhist huatou meditation the invocation

of the Amida Buddha in True Pure Land Buddhism and Nishida's concept of basho In his philosophical project Merleau-Ponty makes vigorous efforts to challenge the boundaries that divide philosophy and non-philosophy the East and the West experience and concepts the subject and the object and body and mind Combining the Eastern philosophical tradition of Buddhism with Merleau-Ponty's phenomenology Merleau-Ponty and Buddhism offers an intercultural philosophy in which opposites intermingle in a chiasmic relationship and which brings new understanding regarding the self and the self's relation with others in a globalized and multicultural world

Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his

ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement

Merleau-Ponty's Developmental Ontology David Morris, 2018-10-15 Winner of the 2020 Edward Goodwin Ballard Prize in Phenomenology Merleau Ponty's Developmental Ontology shows how the philosophy of Maurice Merleau Ponty from its very beginnings seeks to find sense or meaning within nature and how this quest calls for and develops into a radically new ontology David Morris first gives an illuminating analysis of sense showing how it requires understanding nature as engendering new norms He then presents innovative studies of Merleau Ponty's The Structure of Behavior and Phenomenology of Perception revealing how these early works are oriented by the problem of sense and already lead to difficulties about nature temporality and ontology that preoccupy Merleau Ponty's later work Morris shows how resolving these difficulties requires seeking sense through its appearance in nature prior to experience ultimately leading to radically new concepts of nature time and philosophy Merleau Ponty's Developmental Ontology makes key issues in Merleau Ponty's philosophy clear and accessible to a broad audience while also advancing original philosophical conclusions

for a Copernican reorientation of the very notion Cartesianism the book s series of close creatively critical readings of Descartes signature images brings the dramatic forces moments and scenes of the cogito into our own contemporary moment The author patiently unravels the knotted skeins of ambiguity that have been spun within philosophical modernity out of such clichés as Descartes the abstract modern subject and Descartes the father of modern philosophy a figure who is at once everywhere and nowhere In the process she revitalizes and reframes the legacy of Cartesian modernity in a way more mindful of its proto phenomenological traces

The Derrida Reader Jacques Derrida,1998-01-01 In the English speaking world Jacques Derrida s writings have most influenced the discipline of literary studies Yet what has emerged since the initial

phase of Derrida's influence on the study of English literature classed under the rubric of deconstruction has often been disowned by Derrida. What then can Derrida teach us about literary language about the rhetoric of literature and about questions concerning style form and structure? The *Derrida Reader* draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language the idea of the literary and questions of poetics and poetry. The essays discuss single tropes or concepts a figure such as metaphor the ideas of titles and signatures proper names and Derrida's thinking on such subjects as undecidability or aporia. The editor's introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question. The introduction also outlines each essay's main points its usefulness for reading literary texts and its particular area of interest. The *Derrida Reader* thus provides students of literature with a focused contextualized and readily understandable volume.

Merleau-Ponty, Hermeneutics, and Postmodernism Thomas W. Busch, Shaun Gallagher, 1992-10-01 This book opens up new dimensions in the philosophical thought of Merleau-Ponty and addresses contemporary issues concerning interpretation theory and postmodernity. In Part I the authors employ the texts of Merleau-Ponty to challenge many of assumptions that operate in the current field of hermeneutics. They find in Merleau-Ponty the outline of a hermeneutics of ambiguity that incorporates his accounts of the human body language and temporality in working out the concepts of interpretation context perspective truth and interpersonal transgression. Merleau-Ponty thus enters into a productive dialogue with contemporary thinkers such as Gadamer Ricoeur Habermas Levinas and Derrida. Part II engages Merleau-Ponty with the many voices of postmodernism. Some of the most able Merleau-Ponty interpreters reveal the richness of his work through variant readings. Can Merleau-Ponty be construed as a postmodern thinker or as a critic of postmodernism? To what extent can the concepts of flesh reversibility and *écart* be made to function as deconstructive non-concepts? What can Merleau-Ponty contribute toward a

postmodern politics These essays move the discussion from Derrida to Deleuze Foucault and Lyotard
