

WHAT IS HUMANISM?

Humanism is a Renaissance cultural movement which turned away from medieval scholasticism and revived interest in ancient Greek and Roman thought.

Humanism is an approach to life based on reason and our common humanity, recognizing that moral values are properly founded on human nature and experience alone.

Humanists reject the idea or belief in a supernatural being such as God. This means that humanists class themselves as agnostic or atheist.

Rhetoric and Philosophy in Renaissance Humanism Jerrold E. Seigel, 2015-12-08 The combination of rhetoric and philosophy appeared in the ancient world through Cicero and revived as an ideal in the Renaissance By a careful and precise analysis of the views of four major humanists Petrarch Salutati Bruni and Valla Professor Seigel seeks to establish that they were first of all professional rhetoricians completely committed to the relation between philosophy and rhetoric He then explores the broader problem of the external history of humanism and reopens basic questions about Renaissance culture He departs from the views held by such scholars as Hans Baron and Lauro Martines and expands the conclusions suggested by Paul Oskar Kristeller The result is a stimulating controversial study that rejects some of the claims made for the humanists and indicates achievements and limitations Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
