Philosophy of World Revolution Franz Marek, 1969

Philosophy and Revolution Raya Dunayevskaya, 2003-01-01

Few thought systems have been as distorted and sometimes misconstrued as those of Marx and Hegel. Philosophy and Revolution presented here in a new edition attempts to save Marx from interpretations which restrict the revolutionary significance of the philosophy behind his theory. Developing her breakthrough on Hegel's Absolute Idea, Raya Dunayevskaya, who died in the June of 1987, aims at a total liberation of the human person not only from the ills of a capitalist society but also from the equally oppressive state capitalism of established communist governments. She assumes within her theory of class struggle issues as diverse as feminism, black liberation, and even the new nationalism of third world countries. Moreover, Dunayevskaya combines within herself an incorruptible objectivity with a passionate political attitude, making this work a vibrant and concrete discussion of the vicissitudes of society, justice, equality, and existence.

Hegel's World Revolutions

Richard Bourke, 2025-07-22. A new account of the relevance of Hegel's ideas for today's world, countering the postwar anti-Hegel insurgency. G. W. F. Hegel was widely seen as the greatest philosopher of his age. Ever since his work has shaped debates about issues as varied as religion, aesthetics, and metaphysics, his most lasting contribution was his vision of history and politics. In *Hegel's World Revolutions*, Richard Bourke returns to Hegel's original arguments, clarifying their true import and illuminating their relevance to contemporary society. Bourke shows that central to Hegel's thought was his anatomy of the modern world. On the one hand, he claimed that modernity was a deliverance from subjection, but on the other, he saw it as having unleashed the spirit of critical reflection. Bourke explores this predicament in terms of a series of world revolutions that Hegel believed had ushered in the rise of civil society and the emergence of the constitutional state. Bourke interprets Hegel's thought with particular reference to his philosophy of history, placing it in the context of his own time. He then recounts the reception of Hegel's political ideas largely over the course of the twentieth century. Countering the postwar revolt against Hegel, Bourke argues that his disparagement by major philosophers has impoverished our approach to history and politics alike. Challenging the condescension of leading thinkers from Heidegger and Popper to Lévi-Strauss and Foucault, the book revises prevailing views of the relationship between historical ideas and present circumstances.

Capitalism and World Revolution C. L. R. James, Raya Dunayevskaya, Grace Lee Boggs, 2013-09-01. Over sixty years ago, C. L. R. James and a small circle of collaborators making up the radical left Johnson Forest Tendency reached the conclusion that there was no true socialist society existing anywhere in the world. Written in collaboration with Raya Dunayevskaya and Grace Lee Boggs, this is another pioneering critique of Lenin and Trotsky and a reclamation of Marx from the West Indian scholar and activist C. L. R. James. Originally published in 1950, this definitive edition includes the original preface from Martin Glaberman to the third edition, C. L. R. James' original introductions to three previous editions, and a new introduction from James' biographer Paul Buhle.

Philosophie Der Weltrevolution. Philosophy of World Revolution. A Contribution to

an Anthology of Theories of Revolution. (Translation by Daphne Simon.). Franz Marek, Daphne SIMON, 1969

Destiny Kōji Takazawa, 2017-07-31 In 1970 nine members of a Japanese New Left group called the Red Army Faction hijacked a domestic airliner to North Korea with dreams of acquiring the military training to bring about a revolution in Japan. The North Korean government accepted the hijackers who became known in the media as the Yodog group based on the name of the hijacked plane and two years later they announced their conversion to Juche, North Korea's new political ideology. Little was heard from the exiles until 1988 when a member of Yodog was unexpectedly arrested in Japan and communications with the group opened up in the context of his trial. As a former Red Army Faction member, journalist Kōji Takazawa made several trips to North Korea, re-established his ties to the group's leader Takamaro Tamiya and helped to publish the group's writings in Japan. After Kim Il Sung revealed that Yodog members had Japanese wives, Takazawa published a book of interviews with the women but in the process became suspicious about the romantic stories they told. He also wondered about the members who were missing and learned more details in long private conversations with Tamiya. After Tamiya's sudden death in 1995, Takazawa launched his own investigation of what the group had actually been doing for two decades, even traveling to Europe to follow traces there. An example of superb investigative journalism, *Destiny: The Secret Operations of the Yodog Exiles* offers Kōji Takazawa's powerful story of how he exposed the Yodog group's involvement in the kidnapping and luring of several young Japanese to North Korea, as well as the truth behind their Japanese wives' presence in the country. Takazawa's careful research was validated in 2002 when the North Korean government publicly acknowledged it had kidnapped thirteen Japanese citizens during the 1970s and 1980s, including three people whom Takazawa had connected to the Yodog hijackers. Embedded in his pursuit toward what truly happened to the Yodog members is Takazawa's personal reflection of the 1970s, a decade when radical student activism swept Japan and what it meant to those whose lives were forever changed.

Philosophy and Myth in Karl Marx Robert C. Tucker, 2017-07-05 In Karl Marx's early writing first made available many years after his death, his economic interpretation of history and his concept of communism were set in a comprehensive philosophical framework. Marx's main preoccupation at this time was with man estranged from himself in an alienated world, a subjective almost religious theme. Taking full account of these earlier writings, Robert Tucker critiques and reinterprets Marx's thought. He shows how its origins can be located in earlier German philosophers, in particular Kant, Hegel, and Feuerbach. Reconstructing the genesis of Marxism in its founder's own mind, he clarifies Marx's mystifying contention that Marxism represented Hegelianism turned on its head. He then presents a new interpretation based on close textual analysis of the relation between Marx's early philosophical system and the subsequent materialist conception of history as expounded in the later and best-known writings of Marx and Engels. Against this background, Tucker presents *Das Kapital* as a work belonging to the post-Hegelian mythical development of German philosophy. Considering in turn the genesis of Marxism and the underlying continuity of his thought from the early writings to

Das Kapital Tucker shows the theme of alienation is central throughout In the years since the book was first written comments and criticism have encouraged Tucker to change his position somewhat This is explained in a new introduction that goes beyond the interpretative enterprise of the rest of the book to assess Marx in relation to contemporary concerns first it presents a critique of Marx's treatment of alienation and then it comments on the moot problem of the continuing relevance of his social and economic thought On the latter point his views have matured and altered during the intervening years and he now finds the economic and social aspects of Marx's thought considerably more relevant than he did before

Raya Dunayevskaya: Philosopher of Marxist-Humanism Eugene Gogol, 2004-07-28 This study of the origins and development of Marxist Humanism probes the philosophic organizational labors of Raya Dunayevskaya Beginning with her work as secretary to Leon Trotsky in exile in Mexico in 1937-38 the book explores her development of state capitalist theory in the 1940s and her thought dive into Hegel's Absolutes in the 1950s Each of Dunayevskaya's major works Marxism and Freedom 1958 Philosophy and Revolution 1973 and Rosa Luxemburg Women's Liberation and Marx's Philosophy of Revolution 1983 is examined inseparable from the objective world events and revolutionary subjectivity that unfolded from the 1940s into the 1980s The U S Russia super power rivalry the Sino Soviet Conflict the rise of the Afro Asian Latin American and East European revolts and revolutions together with the Black Disenfranchisement Women's Liberation anti war youth and rank and file labor struggles in the United States all in fusion with the re-creation of the Hegelian and Marxian dialectic in the later half of the twentieth century formed the contours of Dunayevskaya's labors traced within this new work Her final unfinished and unpublished studies on Dialectics of Organization and Philosophy are examined in the concluding part
