*Existentialist Thinkers and Ethics* Christine Daigle, 2006 Twentieth century existential thinkers critical of traditional overly rationalistic approaches to ethics sought to provide a better account of what it means to be human in the world They articulated ethical views that respected the individual yet were fundamentally concerned with the Other and the ethical value of an authentic life Their philosophy has often been dismissed as unsuccessful Through examination of the thought of eight key figures in existentialism Kierkegaard Nietzsche Heidegger Arendt Camus Sartre Beauvoir and Merleau Ponty this collection demonstrates that such dismissals are unfounded Contributors tackle the difficulties raised by an existentialist ethics and show how each thinker successfully elaborated an ethics that provides a viable alternative to traditional ethical views *Twentieth-Century French Philosophy* Alan D. Schrift, 2009-02-04 This unique book addresses trends such as vitalism neo Kantianism existentialism Marxism and feminism and provides concise biographies of the influential philosophers who shaped these movements including entries on over ninety thinkers Offers discussion and cross referencing of ideas and figures Provides Appendix on the distinctive nature of French academic culture **Postmetaphysical**

**Thinking** Jürgen Habermas, 2015-10-07 In this new collection of recent essays Habermas takes up and pursues the line of analysis begun in *The Philosophical Discourse of Modernity* He begins by outlining the sources and central themes of twentieth century philosophy and the range of current debates He then examines a number of key contributions to these debates from the pragmatic philosophies of Mead Perice and Rorty to the post structuralism of Foucault Like most contemporary thinkers Habermas is critical of the Western metaphysical tradition and its exaggerated conception of reason But he cautions against the temptation to relinquish this conception altogether In opposition to the radical critics of Western philosophy Habermas argues that postmetaphysical thinking can remain critical only if it preserves the idea of reason while stripping it of its metaphysical trappings Habermas contributes to this task by developing further his distinctive approach to problems of meaning rationality and subjectivity This book will be of particular interest to students of philosophy sociology and social and political theory and it will be essential reading for anyone interested in the continuing development of Habermas's project **Dictionary Of Modern American Philosophers** John R. Shook, 2005-05-15 The Dictionary of

Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

*Between Nihilism and Politics* Silvia Benso, Brian Schroeder, 2010-09-29 This is the first collection of essays in English that deals directly with the philosophy of Gianni Vattimo from a purely critical perspective further establishing his rightful place in contemporary European philosophy Vattimo who first came to prominence as the translator of Gadamer's Truth and Method into Italian is now considered to be more than a philosopher and prolific author As a former member of the European Parliament 1999-2004 he is also a public intellectual This book takes up his call to advance the crucial active and affirmative engagement with thinking and society More than just interpretations of Vattimo's thinking these essays are expressions of the new impetus given to hermeneutic philosophy by weak thought the term he coined for how we think now in the wake of Nietzsche Heidegger and Gadamer The development of Vattimo's thinking is reflected in the organization of the volume divided into three main parts Hermeneutics and Nihilism Metaphysics and Religion and Politics and Technology

**Heidegger, Rorty, and the Eastern Thinkers** Wei Zhang, 2012-02-01 Wei Zhang joins the ongoing hermeneutic quest for understanding and appropriating the East West encounter and cross cultural engagement by exploring Martin Heidegger's and Richard Rorty's cross cultural encounters with Eastern thinkers Zhang begins by

examining Rorty's correspondence with Indian philosopher Anindita N Balslev outlining their debate about the discipline of comparative philosophy and curriculum reform as well as the nature or origin of philosophy itself She then focuses on the dialogue between Heidegger and a Japanese professor concerning the nature of human language and discusses whether Heidegger's view of language allows for a true understanding between East and West or whether it admits only misunderstanding and prejudice are possible Finally the author presents a conceptual dialogue with Heidegger's primary text on hermeneutics and phenomenology *Ontology The Hermeneutics of Facticity* Utilizing the dialogues and correspondence between Heidegger Rorty and the Eastern thinkers as textual examples Zhang deconstructs and recovers layers of misconceptions of the various interpretations of the East West encounter

**Death, Contemplation and Schopenhauer** R. Raj Singh, 2016-05-13 The connections between death contemplation and the contemplative life have been a recurrent theme in the canons of both western and eastern philosophical thought This book examines the classical sources of this philosophical literature in particular Plato's *Phaedo* and the *Katha Upanishad* and then proceeds to a sustained analysis and critical assessment of the sources and standpoints of a single thinker Arthur Schopenhauer whose work comprehensively pursues this problem Going beyond the well examined western influences on Schopenhauer Singh offers an in depth account of Schopenhauer's references to eastern thought and a comprehensive examination of his eastern sources particularly Vedanta and Buddhism The book traces the pivotal issue of death through the whole range of Schopenhauer's writings uncovering the deeper connotations of his crucial notion of the will to live

The Perfection of Freedom D. C. Schindler, 2012-11-08 The Perfection of Freedom seeks to respond to the impoverished conventional notion of freedom through a recovery of an understanding rich with possibilities yet all but forgotten in contemporary thought This understanding developed in different but complementary ways in the German thinkers Schiller Schelling and Hegel connects freedom not exclusively with power and possibility but rather most fundamentally with completion wholeness and actuality What is unique here is specifically the interpretation of freedom in terms of form whether it be aesthetic form Schiller organic form Schelling or social form Hegel Although this book presents serious criticisms of the three philosophers it shows that they open up new avenues for reflection on the notion of freedom avenues that promise to overcome many of the dichotomies that continue to haunt contemporary thought for example between freedom and order freedom and nature and self and other The Perfection of Freedom offers not only a significantly new interpretation of Schiller Schelling and Hegel it also proposes a modernity more organically rooted in the ancient and classical Christian worlds

The Question of Being in Western and African Analytic Metaphysics Grivas Muchineripi Kayange, 2021-05-04 The main aim of this book is to discuss fundamental developments on the question of being in Western and African philosophy using analytic metaphysics as a framework It starts with the two orthodox responses to the question of being namely the subject verb object language view and the rheomodic language view In the first view being is conceived through the analysis of language structure where it is represented by subjects particulars objects and relations often universals In the second view there are different variations however the common idea is that the world s structure is revealed in the root verb of terms This suggests a holistic and dynamic conception of being where everything is in a continuous process of action The book builds on analytic philosophy and explores metaphysical concepts such as space time modality causation indeterminism versus determinism and mind and body The book shows that in both Western and African thought i similarities in different studies confirm that philosophy is a universal activity ii differences within a context and beyond confirm the perspectival nature of human knowledge as individuals attempt to interpret reality and iii language influences the conceptualization of being in a particular area One of
