Philosophy In And Out Of Europe:

Philosophy in and Out of Europe Marjorie Grene, 1976 *A Philosophy for Europe* Roberto Esposito, 2018-06-11 Amid a devastating economic crisis two tragic events coming from the outside the wave of immigration and Islamic terrorism have radically changed the profile and significance of the space we call Europe Given a paradigm leap of this sort philosophical reflection is in a position to exert its creative power more than other types of knowledge But this can only happen if it is able to go beyond its own lexical boundaries by turning its gaze outside itself Here the leading Italian philosopher Roberto Esposito looks at how various strands of German French and Italian thought have achieved this outward turn and successfully captured international attention by breaking with the language of early nineteenth century crisis philosophies When analyzed from this novel perspective the great texts of Adorno Derrida Foucault and Deleuze as well as works by the latest Italian thinkers are cast in a new light From the relationship and tension between them reconstructed here with extraordinary theoretical sensitivity a form of thought can arise that is equal to the challenges faced by Europe today This erudite and wide ranging analysis of European thought in the light of the crises facing the continent today will appeal to students and scholars of philosophy critical theory and beyond *Philosophy in Colonial India* Sharad Deshpande, 2015-05-13 This volume focuses on the gradual emergence of modern Indian philosophy through the cross cultural encounter between indigenous Indian and Western traditions of philosophy during the colonial period in India specifically in the 19th and early 20th centuries This volume acknowledges that what we take Indian philosophy or modern Indian philosophy to mean today is the sub text of a much wider complex and varied Indian reception of the West during the colonial period Consisting of twelve chapters and a thematic introduction the volume addresses the role of academic philosophy in the cultural and social ferment of the colonial period in India and its impact on the development of cross cultural philosophy the emergence of a cosmopolitan consciousness in colonial India as also the philosophical contribution of India to cultural globalization The issue of colonialism and emergence of new identities in India has engaged the critical attention of scholars from diverse fields of inquiry such as history sociology politics and subaltern studies However till today the emergence of modern Indian philosophy remains an unexplored area of inquiry Much of the academic philosophical work of this period despite its manifest philosophical originality and depth stands largely ignored not only abroad but even in India This neglect needs to be overcome by a re reading of philosophical writings in English produced by scholars located in the universities of colonial India This edited volume will facilitate further explorations into the presence of colonial tensions as they are visible in the writings of modern Indian academic philosophers like B N Seal Hiralal Halder Rasvihary Das G R Malkani K C Bhattacharyya G N Mathrani and others Key Concepts in World Philosophies Sarah Flavel, Chiara Robbiano, 2023-01-12 Crossing continents and running across centuries Key Concepts in World Philosophies brings together the 45 core ideas associated with major Indian Chinese Japanese Islamic African Ancient Greek Indigenous and modern

European philosophers The universal theme of self cultivation and transformation connects each concept Each one seeks to change our understanding the world or the life we are living From Chinese xin and karma in Buddhist traditions to okwu in African philosophy equity in Islamic thought and the good life in Aztec philosophy an international team of philosophers cover a diverse set of ideas and theories originating from thinkers such as Confucius Buddha Dogen Nezahualcoyotl Nietzsche and Zhuangzi Organised around the major themes of knowledge metaphysics and aesthetics each short chapter provides an introductory overview supported by a glossary This is a one of a kind toolkit that allows you to read philosophical texts from all over the world and learn how their ideas can be applied to your own life

Chinese and Indian Ways of Thinking in Early Modern European

Philosophy Selusi Ambrogio, 2020-11-12 Why were Chinese and Indian ways of thinking excluded from European philosophy in early modern times This is a study of what happened to the European understanding of China and India between the late 16th century and the first half of the 18th century Investigating the description of these two Asian civilizations during a century and a half of histories of philosophy this book accounts for the change of historiographical paradigms from Neoplatonic philosophia perennis and Spinozistic atheism to German Eclecticism Uncovering the reasons for inserting or excluding Chinese and Indian ways of thinking within the field of Philosophy in early modern times it reveals the origin of the Eurocentric understanding of Philosophy as a Greek European prerogative By highlighting how this narrowing and exclusion of non Western ways of thought was a result of conviction of superiority and religious prejudice this book provides a new way of thinking about the place of Asian traditions among World philosophies

Irvine, 2009-09-30 The present collection of writings on postcolonial philosophy of religion takes its origins from a Philosophy of Religion session during the 1996 Annual Meeting of the American Academy of Religion held in New Orleans Three presentations by Purushottama Bilimoria Andrew B Irvine and Bhibuti Yadav were to be offered at the session with Thomas Dean presiding and Kenneth Surin responding Yadav unfortunately could not be present because of illness This was the first AAR session ever to examine issues in the study of religion under the rubric of the postcolonial turn in academia Interest at the session was intense For instance Richard King then at work on the manuscript of the landmark *Orientalism and Religion* was present so too was Paul J Griffiths whose subsequent work on interreligious engagement has been

so noteworthy In response to numerous audience appeals revised versions of the presentations eventually were published as a Dedicated Symposium on Subalternity in volume 39 no 1 2000 of Sophia the international journal for philosophy of religion metaphysical theology and ethics Since that time the importance of the nexus of religion and the postcolonial has become increasingly patent not only to philosophers of religion but to students of religion across the range of disciplines and methodologies The increased internationalization of the program of the American Academy of Religion especially in more recent years is a significant outgrowth of this transformation in consciousness among students of religion

Phenomenology and Indian Philosophy D. P. Chattopadhyaya, Lester Embree, Jitendranath Mohanty, 2011-05-01 This book shows the close relation between the phenomenology of the West and the phenomenological approach taken by Indian thinkers both classical and modern It illustrates that the underlying spirit of phenomenology and hermeneutics has been consciously followed by Indian philosophers for centuries and is not peculiar to Western thinkers It also shows that Edmund Husserl and K C Bhattacharyya were aware of these parallel trends of thought Phenomenology and Indian Philosophy addresses not only the basic theme of phenomenology but its aesthetic social psychological scientific and technological aspects as well
