Philosophy and Death Robert

J. Stainton, Samantha Brennan, 2009-09-02 Philosophical reflection on death dates back to ancient times but death remains a most profound and puzzling topic Samantha Brennan and Robert Stainton have assembled a compelling selection of core readings from the philosophical literature on death The views of ancient writers such as Plato Epicurus and Lucretius are set alongside the work of contemporary figures such as Thomas Nagel John Perry and Judith Jarvis Thomson Brennan and Stainton divide the anthology into three parts Part I considers questions about the nature of death and our knowledge of it What does it mean to be dead Is it possible to survive death Is the end of life a mystery Part II asks how we should view death What if anything is so bad about dying If death is nothingness should it be feared or regretted Part III examines ethical questions related to killing particularly abortion euthanasia and suicide Is killing ever permissible Under what conditions or circumstances

Exploring the Philosophy of Death and Dying Travis Timmerman, Michael Cholbi, 2020-12-30 Exploring the Philosophy of Death and Dying Classical and Contemporary Perspectives is the first book to offer students the full breadth of philosophical issues that are raised by the end of life Included are many of the essential voices that have contributed to the philosophy of death and dying throughout history and in contemporary research The 38 chapters in its nine sections contain classic texts by authors such as Epicurus Hume Nietzsche and Schopenhauer and new short argumentative essays specially commissioned for this volume by world leading contemporary experts Exploring the Philosophy of Death and Dying introduces students to both theoretical issues whether we can survive death whether death is truly bad for us whether immortality would be desirable etc and urgent practical issues the ethics of suicide the value of grief the appropriate medical criteria for declaring death etc raised by human mortality enabling instructors to adapt it to a wide array of institutions and student audiences As a pedagogical benefit PowerPoints discussion questions and test questions for each chapter are included as online ancillary materials

Political Theory on Death and Dying Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2021-09-14 Political Theory on Death and Dying provides a comprehensive encyclopedic review that compiles and curates the latest scholarship research and debates on the political and social implications of death and dying Adopting an easy to follow chronological and multi disciplinary approach on 45 canonical figures and thinkers leading scholars from a diverse range of fields including political science philosophy and English discuss each thinker's ethical and philosophical accounts on mortality and death Each chapter focuses on a single established figure in political philosophy as well as religious and literary thinkers covering classical to contemporary thought on death Through this approach the chapters are designed to stand alone allowing the reader to study every entry in isolation and with greater depth as well as trace how thinkers are influenced by their predecessors A key contribution to the field Political Theory on Death and Dying provides an excellent overview for students and researchers who study philosophy of death the history of political thought and political philosophy

Handbook of Death and Dying Clifton D. Bryant, 2003-10 Dying is a social as well as physiological phenomenon Each society characterizes and consequently treats death and dying in its own individual ways

ways that differ markedly These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work This two volume handbook will provide direction and momentum to the study of death related behavior for many years to come Key Features More than 100 contributors representing authoritative expertise in a diverse array of disciplines Anthropology Family Studies History Law Medicine Mortuary Science Philosophy Psychology Social work Sociology Theology A distinguished editorial board of leading scholars and researchers in the field More than 100 definitive essays covering almost every dimension of death related behavior Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern Journal article length essays that address topics with appropriate detail Multidisciplinary and cross cultural coverage

The Oxford Handbook of Philosophy of Death Ben Bradley, Fred Feldman, Jens Johansson, 2015 This Handbook consists of 21 new essays on the nature and value of death the relevance of the metaphysics of time and personal identity for questions about death the desirability of immortality and the wrongness of killing *Immortality and the Philosophy of Death* Michael Cholbi, 2015-12-02 Death comes for us all eventually Philosophers have long been perplexed by how we ought to feel about death Many people fear death and believe that death is bad for the person who dies But is death bad for us and if so how is its badness best explained If we do not survive death if death is simply a state of nothingness how can death be bad for us If death is bad for us do we have good reason to live as long as possible Would an immortal life really be a good human life or would even an immortal life eventually become tedious and make us long for mortality This volume presents fourteen philosophical essays that examine our attitudes toward mortality and immortality The topics addressed have become more urgent as scientists attempt to extend the human lifespan perhaps even indefinitely This book invites the reader to critically appraise his or her own attitudes toward death and immortality by exploring the ethical metaphysical and psychological complexities associated with these issues

Death Geoffrey Scarre, 2007-01-01 *Annihilation* Christopher Belshaw, 2014-12-05 The ever present possibility of death forces upon us the question of life's meaning and for this reason death has been a central concern of philosophers throughout history From Socrates to Heidegger philosophers have grappled with the nature and significance of death In *Annihilation* Christopher Belshaw explores two central questions at the heart of philosophy's engagement with death what is death and is it bad that we die Belshaw begins by distinguishing between literal and metaphorical uses of the term and offers a unified and biological account of death denying that death brings about non existence How our death relates to the death of the brain is explored in detail Belshaw considers the common sense view that death is often bad for us by examining the circumstances that might make it bad as well as the grounds for thinking that one death can be worse than another In addition Belshaw explores whether we can be harmed after we die and before we were

born The final chapters explore whether we should prevent more deaths and whether via cryonics brain transplants data storage we might cheat death Throughout Belshaw shows how questions of personhood and life's value are bound up with our views on the sense and significance of death Annihilation's in depth analysis and insightful exposition will be welcomed not only by philosophers working on the metaphysics of death but also by students and scholars alike looking for a foundation for discussions of the ethics of abortion euthanasia life support and suicide

Madness and Death in Philosophy Ferit Guven, 2005-03-17 Demonstrates the significance of the concepts of madness and death for the history of philosophy The Philosophy of Death Andrew J. Davis, 1995 Omnipotent Laws in nature not religious beliefs of human beings govern birth on earth and continuity of personal individual consciousness forever Have you prepared yourself or a dear relative how to die a facsimile of A J Davis article an

The Metaphysics of Death John Martin Fischer, 1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality

Heidegger, Plato, Philosophy, Death Richard Rojcewicz, 2021-09-27 Richard Rojcewicz's Heidegger Plato Philosophy Death An Atmosphere of Mortality offers an original perspective on the bond between philosophy and death in the thought of Martin Heidegger and Plato For Heidegger authentic being toward death is not preoccupation with death as such nor resoluteness in the face of one's demise but preoccupation with the meaning of the beings ourselves who comport themselves understandingly toward death and who breathe an atmosphere of mortality Authentic dying is then nothing other than the practice of philosophy For Plato philosophy is the practice of dying the separating of the soul to its own autonomous existence This separation however is not that of the soul from the body Instead it is separation from common understanding hearsay everydayness and mediocrity Accordingly both Heidegger and Plato see an intimate connection between philosophy

and death Rather than a morbid focus on negativity and dissolution however this connection leads to a call to being authentic thinking for oneself and repudiating the superficiality of the crowd For both Heidegger and Plato philosophizing and dying are most concretely a matter of heeding the Delphic oracle Know thyself Rojcewicz pursues this theme of philosophy and death through the topics of signs anxiety conscience music and the COVID 19 pandemic

Philosophy of Death & Dying M. V. Kamath,1978 Immortality and the Philosophy of Death Michael Cholbi,2015-12-02 Death comes for us all eventually Philosophers have long been perplexed by how we ought to feel about death Many people fear death and believe that death is bad for the person who dies But is death bad for us and if so how is its badness best explained If we do not survive death if death is simply a state of nothingness how can death be bad for us If death is bad for us do we have good reason to live as long as possible Would an immortal life really be a good human life or would even an immortal life eventually become tedious and make us long for mortality This volume presents fourteen philosophical essays that examine our attitudes toward mortality and immortality The topics addressed have become more urgent as scientists attempt to extend the human lifespan perhaps even indefinitely This book invites the reader to critically appraise his or her own attitudes toward death and immortality by exploring the ethical metaphysical and psychological complexities associated with these issues *The Role of Death in Life* Fr. John Behr,Conor Cunningham,2015-08-31 The relation between life and death is a subject of perennial relevance for all human beings and indeed the whole world and the entire universe in as much as according to the saying of ancient Greek philosophy all things that come into being pass away Yet it is also a topic of increasing complexity for life and death now appear to be more intertwined than previously or commonly thought Moreover the relation between life and death is also one of increasing urgency as through the twin phenomena of an increase in longevity unprecedented in human history and the rendering of death dying and the dead person all but invisible people living in the industrialized and post industrialized Western world of today have lost touch with the reality of death This radically new situation and predicament has implications medical ethical economic philosophical and not least theological that have barely begun to be addressed This volume gathers together essays by a distinguished and diverse group of scientists theologians philosophers and health practitioners originally presented in a symposium sponsored by the John Templeton Foundation

The Philosophy and Practice of Medicine and Bioethics Barbara Maier,Warren A. Shibles,2010-11-03 This book challenges the unchallenged methods in medicine such as evidence based medicine which claim to be but often are not scientific It completes medical care by adding the comprehensive humanistic perspectives and philosophy of medicine No specific or absolute recommendations are given regarding medical treatment moral approaches or legal advice Given rather is discussion about each issue involved and the strongest arguments indicated Each argument is subject to further critical analysis This is the same position as with any philosophical medical or scientific view The argument that decision making in medicine is inadequate unless grounded on a philosophy of medicine is not meant to include all of philosophy and every philosopher On

the contrary it includes only sound practical and humanistic philosophy and philosophers who are creative and critical thinkers and who have concerned themselves with the topics relevant to medicine These would be those philosophers who engage in practical philosophy such as the pragmatists humanists naturalists and ordinary language philosophers A new definition of our own philosophy of life emerges and it is necessary to have one Good lifestyle no longer means just abstaining from cigarettes alcohol and getting exercise It also means living a holistic life which includes all of one s thinking personality and actions This book also includes new ways of thinking In this regard the Metaphorical Method is explained used and exemplified in depth for example in the chapters on care egoism and altruism letting die etc Psychology of Death and Dying John C. Morgan, Richard L. Morgan, 2006-04-01 Sooner or later each one of us faces death our own or others we care about And yet few take time beforehand to think about these endings and in the process may lose the wisdom of the ages that comes after facing death Perhaps this explains why when Plato was asked to summarize his philosophy he reportedly said Practice dying He understood that dying is what each one of us does throughout our lives whether it is leaving home the first time to go to school or departing from this planet when our lives end If we learn how to die to let go and get our egos out of the way we will have gained wisdom about how best to live This brief yet comprehensive book deals not only with the philosophical and psychological meaning of death but its practical implications for our lives Written by two brothers who have taught philosophy ethics psychology and religion at community colleges and four year private colleges this book can be used in many learning situations whether part of courses in philosophy ethics psychology or counseling or for short term workshops or continuing education courses for students in human services health care social work or any of the helping professions
