Reading Darwin in Arabic, 1860-1950 Marwa Elshakry,2014-01-06 In Reading Darwin in Arabic Marwa Elshakry questions current ideas about Islam science and secularism by exploring the ways in which Darwin was read in Arabic from the late 1860s to the mid twentieth century Borrowing from translation and reading studies and weaving together the history of science with intellectual history she explores Darwin s global appeal from the perspective of several generations of Arabic readers and shows how Darwin s writings helped alter the social and epistemological landscape of the Arab learned classes Providing a close textual political and institutional analysis of the tremendous interest in Darwin s ideas and other works on evolution Elshakry shows how in an age of massive regional and international political upheaval these readings were suffused with the anxieties of empire and civilizational decline The politics of evolution infiltrated Arabic discussions of pedagogy progress and the very sense of history They also led to a literary and conceptual transformation of notions of science and religion themselves Darwin thus became a vehicle for discussing scriptural exegesis the conditions of belief and cosmological views more broadly The book also acquaints readers with Muslim and Christian intellectuals bureaucrats and theologians and concludes by exploring Darwin s waning influence on public and intellectual life in the Arab world after World War I Reading Darwin in Arabic is an engaging and powerfully argued reconceptualization of the intellectual and political history of the Middle East *The British Library General Catalogue of Printed Books to 1975* British Library,1985 *Spiritual Healing*

Jack Angleo,2016-01-28 Spiritual healing is an ancient art which has been practised for thousands of years in many different cultures Today healers are working more closely with doctors as spiritual healing effectively complements orthodox medicine But spiritual healing extends to other levels of our being to discover the causes of illness and heal body mind and spirit This practical guide outlines what spiritual healing is how healing relates to human energy system how spiritual healing can work for you how and where to find a healer how to use self healing techniques *Let the dead speak* Andrew Singleton,Matt Tomlinson,2025-01-21 This book explores the historical and social dynamics of Spiritualism a religious movement associated

in the popular imagination with nineteenth century parlour sances and ghost photography It continues to be practised actively today in Australia the UK and USA The authors draw on their deep fieldwork interviews and archival research to analyse Spiritualism s resilience and the enduring popular appeal of mediumship There are three key contributions of the book the first is that the scholarly study of belief should be rehabilitated The authors propose a model of belief as a dialogue between claims to truth and commitments to institutions supporting those claims The second is women s agency in Spiritualism From the movement s beginnings strong female leaders have decisively shaped its religious and political profile The third is the need to analyse Australian Spiritualism as a distinct variant of a transnational Anglophone family of ritual practice
