Phoenix Rising Kristen Moeller, Leslie Alpin Wharton, 2016-04-05 How do you go on after you've lost everything True stories of surviving the Colorado wildfires and finding hope for the future Over several terrifying summers deadly wildfires raged across Colorado Lives were lost and the flames destroyed thousands of homes When the smoke cleared and only rubble remained survivors were left trying to find a way forward against devastating loss The aftermath of that destruction would span many years and its effects are still felt today In *Phoenix Rising* twenty women share their stories of fire the terror they felt as flames engulfed their communities and the dark desperation that followed And how in the ensuing weeks and months they worked to recreate a life from the ashes Their tales of fear and bravery of deep compassion and heart rending grief offer an uplifting chronicle of human courage and resilience A gem of a book When it comes to withstanding and making meaning of the most painful twists of this mysterious life or enjoying its surprising rewards nothing compares to the company of other women and their stories Megan Feldman Bettencourt author of *Triumph of the Heart Forgiveness in an Unforgiving World*

Phoenix Rising Hank, 2009-10-15 *PHOENIX RISING, PIONEERING CHINESE WOMEN OF MALAYSIA* Ho Tak Ming, 2015-01-01 THROUGH the centuries Chinese women have had to struggle under a load of injustices denial of education ineligibility to sit the civil service examinations and hold official posts female infanticide selling of daughters concubinage foot binding just to name a few They had largely remained silent because they did not have a voice As China descended to abject poverty in the nineteenth century the lot of Chinese women became even worse When Chinese women came to Malaysia Malaya then largely from the nineteenth century onwards the circumstances became different Under British law they were the equal of men but social conditions took some time to evolve For instance daughters were left out of inheritance until quite recently sons received preferential treatment in education and polygamy was declared illegal only in the 1930s But Chinese women became successful entrepreneurs through their own ability and through education many of them became distinguished professionals *Phoenix Rising Pioneering Chinese Women of Malaysia* is the story of Chinese women who have immigrated to this country and forged independent lives different from their lives in China They have shown courage resilience and determination in improving their lives Like the phoenix the mythological bird that symbolises the Chinese woman they are set to soar to greater heights given equal opportunities and just social conditions *History of Medicine* Jacalyn Duffin, 1999-01-01 Examining discoveries and disasters ideas patients and diseases in fields from anatomy to pharmacology to surgery this is a highly accessible overview of medical history as a vibrant component of intellectual and cultural history *Lesbian and Gay Richmond* Beth Marschak, Alex Lorch, 2008 The history of lesbian gay bisexual and transgender LGBT people in Richmond Virginia invokes a rich but uncelebrated past From the first recorded sodomy prosecution in America in 1624 to the fight to repeal the crimes against nature laws LGBTs have left their imprint on almost 400 years of history in the Old Dominion's capital *Lesbian and Gay Richmond* presents a photographic showcase of the

events people and places that have been a part of this history There are snapshots from the 1920s and 1930s when avant garde and gay authors caroused and shared ideas in private homes Previously untold stories from the post World War II era tell of the rise of the gay caf  s in Richmond and the subsequent attempts by the authorities to shut their doors Much like larger cities to the north and west of Richmond the attempts to close these bars led to the first public protests in the late 1960s Other images show how Richmond has a unique story to lend to the larger national LGBT history **Phoenix Rising** Frances Patton Statham,1986 *Voices in the History of Madness* Robert Ellis,Sarah Kendal,Steven J. Particles in Oncology Marco Durante, Francis A. Cucinotta, Jay S. Loeffler, 2018-01-31 High energy charged particles represent a cutting edge technique in radiation oncology Protons and carbon ions are used in several centers all over the world for the treatment of different solid tumors Typical indications are ocular malignancies tumors of the base of the skull hepatocellular carcinomas and various sarcomas The physical characteristics of the charged particles Bragg peak allow sparing of much more normal tissues than it is possible using conventional X rays and for this reason all pediatric tumors are considered eligible for protontherapy Ions heavier than protons also display special radiobiological characteristics which make them effective against radioresistant and hypoxic tumors On the other hand protons and ions with high charge Z and energy HZE particles represent a major risk for human space exploration The main late effect of radiation exposure is cancer induction and at the moment the dose limits for astronauts are based on cancer mortality risk The Mars Science Laboratory MSL measured the dose on the route to Mars and on the planet's surface suggesting that a human exploration missions will exceed the radiation risk limits Notwithstanding many studies on carcinogenesis induced by protons and heavy ions the risk uncertainty remains very high In this research topic we aim at gathering the experiences and opinions of scientists dealing with high energy charged particles either for cancer treatment or for space radiation protection Clinical results with protons and heavy ions as well as research in medical physics and pre clinical radiobiology are reported In addition ground based and spaceflight studies on the effects of space radiation are included in this book Particularly relevant for space studies are the clinical results on normal tissue complications and second cancers The eBook nicely demonstrates that particle therapy in oncology and protection of astronauts from space radiation share many common topics and can learn from each other
