Phone Booths By Famous Architects:

Phone Booths by Famous Architects Steve Schaecher, 2004 Following architect Steve Schaecher's groundbreaking *Outhouses by Famous Architects* and *Mobile Homes by Famous Architects* Pomegranate 2000 and 2002 we present his new array of historical inquiries In deft ink and watercolor illustrations and knowledgeable prose Schaecher informs each of his twenty nine booths with the sensibility of the architect who supposedly designed it Schaecher's books are not mere parodies While he envisions humorous applications for the talents of Palladio Le Corbusier Wright and other giants his watercolors are true reflections of the architects styles e g Erik Gunnar Asplund's phone booth the Stockholm Dialibrary clearly exemplifies Asplund's design precepts and the concise text explores the Swede's architectural principles as well as the assertion that music by the Swedish 1970s supergroup Abba is piped into the Dialibrary to ease the pain of being on hold Schaecher brings a generous sense of humor to analyses of building styles from classical Egypt through Renaissance mastery Enlightenment engineering and Modern uplift before arriving among the competing theories of today His past performance has won accolades from the likes of Robert Venturi and *Phone Booths* keeps up the good work **Architecture Minnesota**, 2005
