Phonology Of Norwegian:

The Phonology of Norwegian Gjert Kristoffersen, 2000 At the end of the fourteenth century Norway having previously been an independent kingdom became by conquest a province of Denmark and remained so for three centuries In 1814 as part of the fall out from the Napoleonic wars the country became a largely independent nation within the monarchy of Sweden By this time however Danish had become the language of government commerce and education as well as of the middle and upper classes Nationalistic Norwegians sought to reestablish native identity by creating and promulgating a new language based partly on rural dialects and partly on Old Norse The upper and middle classes sought to retain a form of Norwegian close to Danish that would be intelligible to themselves and to their neighbours in Sweden and Denmark The controversy has gone on ever since One result is that the standard dictionaries of Norwegian ignore pronunciation for no version can be counted as received Another is that there has been considerable variety and change in Norwe *The Phonology of Norwegian* Gjert Kristoffersen, 2023 This text explores the phonology of Norwegian At the end of the 14th century Norway was part of Denmark and in 1814 it became part of the monarchy of Sweden Nationalistic Norwegians sought to re establish identity by creating a new language *Tonal Accents in Norwegian* Allison Wetterlin, 2010-09-29 Tonal accents in Norwegian Phonology morphology and lexical specification breaks from the traditional and contemporary analyses of word accent in North Germanic with the goal of providing a more simplex and unified morphophonological analysis of word accents in North Germanic It gives the facts of accent distribution in Standard East Norwegian discusses how three of the more recent and most important analyses of accent assignment in Norwegian and Swedish deal with these facts and provides an alternative analysis Given that many Accent 1 words are loans the book also discusses how loanword incorporated in East Norwegian and other North Germanic dialects and the question of why loans predominantly bear Accent 1 Although the focus of the book is word accent assignment in Standard East Norwegian it also refers to Central Swedish and Old Norse In this way it accounts for many aspects of accent assignment the true nature of which might have gone undetected had only one of the North Germanic language been taken into consideration The book also dedicates one chapter to the phonetics of the tonal contrast Addressing the question of how perceptually salient the tonal contrast is
