**The New Photo-miniature** ,1908      The Photo-miniature ,1909      **Photography and Exploration** James R. Ryan,2013-07-15 When Ferdinand Magellan set out to circumnavigate the globe in 1519 he wasn't able to bring a digital camera or a smartphone with him Yet as the eagerly awaited images from the Mars rover prove modern exploration is inconceivable without photography Since its invention in 1839 photography has been integral to exploration used by explorers sponsors and publishers alike and the early twentieth century advances in technology and photography's newfound cultural currency as a truthful witness to the world made the camera an indispensable tool In *Photography and Exploration* James R Ryan uses a variety of examples from polar journeys to space missions to show how exploration photographs have been created circulated and consumed as objects of both scientific research and art Examining a wide range of photographs and expeditions Ryan considers how nations have often employed images as a means to scientific advancement or territorial conquest He argues that because exploration has long been bound up with the construction of national and imperial identity expeditionary photographs have often been used to promote claims to power especially by the West These images also challenge the way audiences perceive the world and their place within it Featuring one hundred images *Photography and Exploration* shines new light on how photography has shaped the image of explorers expeditions and the worlds they discovered

**Photo-miniature** John A. Tennant,Ben Jehudah Lubschez,1909      *The Photographic Journal* ,1922 Vols for 1853 include the transactions of the Royal Photographic Society of Great Britain      A Cultural History of the British Empire John MacKenzie,2022-12-06 A compelling history of British imperial culture showing how it was adopted and subverted by colonial subjects around the world As the British Empire expanded across the globe it exported more than troops and goods In every colony imperial delegates dispersed British cultural forms Facilitated by the rapid growth of print photography film and radio imperialists imagined this new global culture would cement the unity of the empire But this remarkably wide ranging spread of ideas had unintended and surprising results In this groundbreaking history John M MacKenzie examines the importance of culture in British imperialism MacKenzie describes how colonized peoples were quick to observe British culture and adapted elements to their own ends subverting British expectations and eventually beating them at their own game As indigenous communities integrated their own cultures with the British imports the empire itself was increasingly undermined From the extraordinary spread of cricket and horse racing to statues and ceremonies MacKenzie presents an engaging imperial history one with profound implications for global culture in the present day      The British Journal of Photography William Crookes,T. A. Malone,George Shadbolt,J. Traill Taylor,William Blanchard Bolton,Thomas Bedding,1921

**New Spaces of Exploration** Simon Naylor,James R. Ryan,2009-12-18 For many the dawn of the twentieth century ushered in an era where the world map had few if any blank spaces left to discover The age of exploration was supposedly

dead New Spaces of Exploration challenges this assumption Focusing specifically on exploration in the twentieth century the authors demonstrate how new technologies and changing geopolitical configurations have ensured that exploration has remained a key feature of our rapidly globalizing world Ranging widely in their geographical focus from the Europe and Asia to Australia and from the polar regions to outer space they demonstrate the increasing diversity of modern exploration and reveal the continuing political military industrial and cultural motivations at play The result is a major contribution to our understanding of the significance of exploration in the twentieth century Contributors include E Baigent C Collis K Dodds F Driver M Godwin J Hill F Korsmo F MacDonald S Naylor J Ryan N Thomas and K Yusoff Photo-era ,1916 **Racing With Death** Beau Riffenburgh,2013-02-11 Scott Shackleton and Mawson were the three great explorers of the Edwardian age Now Beau Riffenburgh tells the forgotten story of Douglas Mawson and his death defying expedition of 1911 14 A key member of Ernest Shackleton s famous Nimrod Expedition Mawson led his own Australasian Antarctic Expedition However following the tragic deaths of the other members of his sledging party he was left to struggle the hundreds of miles back to base alone only to find that the relief ship had sailed away leaving him to face another year in Antarctica Having survived with a small band of men against incredible odds he later led a groundbreaking two year expedition which explored hundreds of miles of unknown coastline Mawson s is a story of true heroism and a fascinating insight into the human psyche under extreme duress **Antarctic Bibliography** Naval Photographic Interpretation Center (U.S.),1951 *The Last Great Quest* Max Jones,2004-11-11 Scott s last Antarctic expedition is one of the great adventure stories of the twentieth century On 1 November 1911 a British team set out on the gruelling 800 mile journey across the coldest and highest continent on Earth to travel to the South Pole Five men battled through unimaginably harsh conditions only to find the Norwegian flag had been planted at the Pole just weeks before Captain Robert Falcon Scott Lieutenant Henry Bowers Petty Officer Edgar Evans Captain Lawrence Oates and Dr Edward Wilson all died on the return trek starved and frozen to death only eleven miles from a supply camp In November 1912 a rescue party discovered their last letters and diaries which told a story of bravery hardship and self sacrifice that shocked the world Recent decades have seen controversy rage over whether Scott was the last of a line of great Victorian explorers intent on discovering uncharted lands or a hopeless incompetent driven by personal ambition Rejecting the stereotypes Max Jones reveals a complex figure a product of the passions and preoccupations of an imperial age He also shows how heroes are made and manipulated through a close examination of the unprecedented outpouring of public grief at the news of the death of Scott and his companions Max Jones uses fascinating new evidence and previously unseen illustrations to take us back to this remarkable moment in modern history and tells for the first time the full story of *The Last Great Quest* Photo-era Magazine Juan C. Abel,Thomas Harrison Cummings,Wilfred A. French,A. H. Beardsley,1913 **Photo-Era Magazine, the American Journal of Photography** ,1925 **South** National Maritime Museum,2018-08-23 Had we lived I should have had a tale to tell of the hardihood endurance and courage of my companions

which would have stirred the heart of every Englishman These rough notes and our dead bodies must tell the tale Extract from Scott's message to the public March 1912 The late 1890s saw the start of a heroic age in polar exploration This book tells the story of three men who were to embody the spirit of the time driven by courage determination and ambition to be the first to discover the South Pole Robert Falcon Scott Roald Amundsen and Ernest Shackleton South The Race to the Pole describes the extraordinary challenges faced and hardships endured in their attempts Scott's first British National Antarctic Expedition 1901-04 The exploits of Shackleton's British Antarctic Expedition 1907-09 The success of Amundsen's team in reaching the Pole in 1911 and the tragic events surrounding Scott's British Antarctic Expedition 1910-13 Shackleton's dramatic journey to seek rescue after the destruction of his ship Endurance on the Imperial Trans Antarctic Expedition 1914-17 Illustrated throughout the book contains a map depicting the routes of the various expeditions crew lists a selected bibliography and suggested reading and recommended websites This new revised edition will be thoroughly revised throughout and contain a new introduction to reflect new research and discoveries regarding these expeditions as well as more recent attempts in travelling to the Pole in addition to containing new images from the Royal Museums Greenwich Collection
