Photoshop 6 Photo Retouching Secrets:

Photoshop 6 Photo-Retouching Secrets Scott Kelby, 2001-05-02 Photo Retouching Secrets is not another color correction book or scanning manual. It covers only one topic: retouching images to make them look better. What type of retouching are we talking about? Things like tricks for removing red eye and then recoloring the eye to its natural color, tricks for removing the signs of aging, how to fix underexposed or overexposed images, how to remove spots, rips, and tears. In *Photo Retouching Secrets*, you will also learn how to seamlessly splice images together, repair damaged body parts, remove unsightly shadows, fix some of the other problems that digital cameras can often introduce to photos. *Photo Retouching Secrets* shows you feathering tricks, cropping, and straightening tricks to save you time and frustration. If you want nothing but the tips, the tricks, and the secret inside shortcuts to make retouching images easy and fun, this book is the right one. *Photoshop 6 Killer Tips* Scott Kelby, Felix Nelson, 2001-10-03 When it comes to Photoshop, time is money, and this hot new book from Scott Kelby and Felix Nelson, the team behind *Photoshop User* magazine, is all about speed: speed and more speed. This book is all tips; there are no special effects, no flaming type, no glows, etc. It's just packed cover to cover with nothing but little-known tricks and tips that the pros use every day to get twice the work done in half the time. The idea behind this book comes from something that every great Photoshop book already has: those valuable little sidebar tips. We found that we often read those tips first before we'd even actually read the chapter. The only problem is there's just not enough of 'em. So we thought, Wouldn't it be cool if there was a Photoshop book and the whole book cover to cover was nothing but those great sidebar tips? That's what we've created in this book, which is all about the fun and bragging rights that come with knowing all the inside tips. The reason why the book's slogan is "speed kills" is because this is the book that will make you faster and more productive than ever, so you can smoke the competition.

Photoshop 7 Killer Tips Scott Kelby, 2011-12-16 The hottest collection of cool tips and hidden secrets for the pro that needs results FAST. The whole concept is to help make the reader faster and more productive than ever in Photoshop 7. In an ever-tightening and competitive marketplace, this kind of book is sorely needed. *Photoshop 7 Down and Dirty Tricks* Scott Kelby, 2002-04-23 Updated for the latest version of Photoshop. *Photoshop 7 Down Dirty Tricks* is packed cover to cover with step-by-step tutorials on the coolest Photoshop 7 effects. The book is not another rehash of masking pixels and file formats or resolution; it's nothing but the cool stuff that will make your client's or boss's jaw drop. **88 Secrets to Photoshop for Photographers** Scott Bourne, 2005 Written strictly from a photographer's point of view, *88 Secrets to Photoshop for Photographers* contains dozens of stand-alone nuggets of practical information: from tips and tricks to hard-core hands-on advice for Photoshop users.
