Spy, 1988-10. Smart. Funny. Fearless. It's pretty safe to say that *Spy* was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written, and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented. Dave Eggers: It's a piece of garbage. Donald Trump.

Transplanting Commercial Law Reform John Gillespie, 2017-03-02. The first sustained analysis examining legal transplantation into East Asia, this volume examines the prospects for transplanting a rule of law that will attract and sustain international trade and investment in this economically dynamic region. The book develops both a general model that explains how legal transplantation shapes legal development in the region whilst developing theoretical insights into the political, economic, and legal discourses guiding commercial law reforms in Vietnam. For the first time, this book develops a research methodology specifically designed to investigate law reform in developing East Asia. In so doing, it challenges the relevance of conventional convergence and divergence explanations for legal transplantation that have been developed in European and North American contexts. As the first finely grained analysis of legal development in Vietnam, the book will be invaluable to academics and researchers working in this area. It will also be of interest to those involved in commercial legal theory.
