Leben mit Pop Manfred Kuttner, Christopher Williams, M. Darsie Alexander, Städtische Kunsthalle Düsseldorf, 2013

Gerhard Richter Konrad Lueg Sigmar Polke and Manfred Kuttner coined the term Capitalist Realism on the occasion of their self organised exhibitions in Düsseldorf in 1963 Although they only used the term themselves for a short period and quickly distanced themselves from their perception as a group of artists Capitalist Realism represented a specific conception of art in post war West Germany that has remained controversial to this day This exhibition publication is the first fully dedicated to this important phenomenon The main exhibitions and actions are documented in image and text and the international art historical and social context is illuminated from different perspectives Both exhibition and catalogue substantiate the topicality of one of the most intense and influential tendencies of the postwar period

*Prayer, Pop and Politics* Katharina Limacher, Astrid Mattes, Christoph Novak, 2019-04-15

What is it like to be young and religious in migration society? This volume presents research at the intersection of religion, age and race. The chapters focus range from methodological challenges to conceptual work and empirical case studies. The authors present research on various religious traditions, including contributions on young Alevis, Hindus, Buddhists and Muslims, and apply an array of theoretical angles among them feminist, post and de-colonial perspectives. Furthermore, the volume engages in the debate over novel conceptual frameworks attuned to investigate contemporary manifestations of youth religiosity, for example in digital spaces. The methodological chapters advocate for reflexivity in the context of empirical research on religion in migration society and promote a self-evaluative assessment of researchers' positionality.

**Komm Mit!: Level 3** George Winkler, 2000    **Blumfeld und die Hamburger Schule** Till Huber, 2016-09-12

The terms Hamburger Schule/Hamburg school and Diskurspop discourse pop have been used since the beginning of the 1990s for groups such as Blumfeld, Die Sterne and Tocotronic. The works of these bands have been characterized by intellectualized, hermetic and abstract lyrics which represent an entirely new approach to language in German pop music. They reflect upon the inevitable entanglements of their work, the pop industry and the logic of capitalism, including Germany and the city of Hamburg as the place of production. Till Huber presents the first comprehensive study on the phenomenon of Diskurspop. The early work of the most important band of the Hamburger Schule, Blumfeld, is profiled as an attempt to critically engage in the medium of pop music without falling behind the level of complexity of poststructuralist theory.

**Language Hacking German** Benny Lewis, 2017-03-28

It's true that some people spend years studying German before they finally get around to speaking.

the language But here s a better idea Skip the years of study and jump right to the speaking part Sound crazy No it s language hacking Unlike most traditional language courses that try to teach you the rules of German LanguageHacking shows you how to learn and speak German through proven memory techniques unconventional shortcuts and conversation strategies perfected by one of the world s greatest language learners Benny Lewis aka the Irish Polyglot Using the language hacks shortcuts that make learning simple that Benny mastered while learning his 11 languages and his speak from the start method you will crack the language code and exponentially increase your language abilities so that you can get fluent faster It s not magic It s not a language gene It s not something only other people can do It s about being smart with how you learn learning what s indispensable skipping what s not and using what you ve learned to have real conversations in German from day one The Method LanguageHacking takes a modern approach to language learning blending the power of online social collaboration with traditional methods It focuses on the conversations that learners need to master right away rather than presenting language in order of difficulty like most courses This means that you can have conversations immediately not after years of study Each of the 10 units culminates with a speaking mission that prepares you to use the language you ve learned to talk about yourself Through the language hacker online learner community you can share your personalized speaking missions with other learners getting and giving feedback and extending your learning beyond the pages of the book You don t need to go abroad to learn a language any more
