Coffman, Theophilus Savvas, 2020-12-17 Several of American literature s most prominent authors and many of their most perceptive critics and reviewers argue that fiction of the last quarter century has turned away from the tendencies of postmodernist writing Yet the nature of that turn and the defining qualities of American fiction after postmodernism remain less than clear This volume

identifies four prominent trends of the contemporary scene the recovery of the real a rethinking of historical engagement a preoccupation with materiality and a turn to the planetary Readings of works by various leading figures including Dave Eggers Jonathan Franzen A M Homes Lance Olsen Richard Powers William T Vollmann and David Foster Wallace support a variety of arguments about this recent revitalization of American literature The chapters in this book were originally published as a special issue of the journal Textual Practice

Reading Simulacra M. W. Smith,2001-09-06 Reading Simulacra analyzes the ways in which our culture has become fatally immersed in simulation Television the Internet virtual reality and other advancements in technology and information processing have brought about an order in which simulations and digital images permeate our experiences of the world so deeply that their distinctions from reality appear seamless Through a careful study of some of the most important postmodern theorists particularly Jean Baudrillard and Deleuze and Guattari this book puts forth two different communication strategies seduction and rupture for a world where the difference between what is real and what is simulated has disappeared In an attempt to discern meaning from this contemporary situation M W Smith examines a range of contemporary texts that have in the past resisted traditional analysis These include the O J Simpson trial Oliver Stone s Natural Born Killers Reese Williams s A Pair of Eyes Kathy Acker s Blood and Guts in High School and Don Quixote Clarence Major s My Amputations and Baudrillard s America all of which represent the obscenity of hypersignified existence

Fiction's Present R. M. Berry, Jeffrey R. Di Leo, 2015-05-11 Combining creative and critical responses from some of today's most progressive and innovative novelists critics and theorists Fiction's Present adventurously engages the aesthetic political philosophical and cultural dimensions of contemporary fiction By juxtaposing scholarly articles with essays by practicing novelists the book takes up not only the current state of literature and its criticism but also connections between contemporary philosophy and contemporary fiction In doing so the contributors aim to provoke further discussion of the present inflection of fiction a present that can be seen as Janus faced looking both forward to the novel's radically changed political economic and technological circumstances and back to its history of achievements and problems Editors R M Berry and Jeffrey R Di Leo contend that examinations of fiction's present are most informative not when they defend philosophical distinctions or develop literary classifications but when they grapple with elusive topics such as the meaning of a narrative present or the relation of fiction's medium to its representations of context As the essays reveal this process when pursued diligently breaks down traditional divisions of academic and intellectual labor compelling the fiction writer to become more philosophical and the theorist to become more imaginative The value of this book is not in the exhaustiveness of its treatment but rather in the seriousness of the criticism it incites The present materializes in quarrel and it is toward such a beginning that the writings in Fiction's Present work
