involve artists in their activities the forms that they can or cannot achieve This proposal and its outline for a rule based ontology of the arts addresses four themes the relationship between human nature and artistic practices the features of art making the conception of artworks as structures and the social nature of the arts American Culture, American Tastes Michael Kammen, 2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century **Eyewitness Companions: Art** Robert Cumming, 2005-10-17 This title covers all of the key movements in Western art history from Classicism to conceptual art and profiles more than 780 of the world's greatest artists Specially commissioned illustrations and photographs written by experts in each field using the award winning design of the Eyewitness Travel Guides Eyewitness Companions are the ultimate visual handbook to a wide range of subjects Text previously published in ART A Field Guide
