Pop Art and Consumer Culture Christin J. Mamiya, 1992-01-01 American Pop Art in France Liam Considine, 2019-10-28 Pop art was essential to the Americanization of global art in the 1960s yet it engendered resistance and adaptation abroad in equal measure especially in Paris From the end of the Algerian War of Independence and the opening of Ileana Sonnabend's gallery for American Pop art in Paris in 1962 to the silkscreen poster workshops of May 68 this book examines critical adaptations of Pop motifs and pictorial devices across French painting graphic design cinema and protest aesthetics Liam Considine argues that the transatlantic dispersion of Pop art gave rise to a new politics of the image that challenged Americanization and prefigured the critiques and contradictions of May 68

Modernist America Richard Pells, 2011-03-29 America's global cultural impact is largely seen as one-sided with critics claiming that it has undermined other countries' languages and traditions But contrary to popular belief the cultural relationship between the United States and the world has been reciprocal says Richard Pells The United States not only plays a large role in shaping international entertainment and tastes it is also a consumer of foreign intellectual and artistic influences Pells reveals how the American artists novelists composers jazz musicians and filmmakers who were part of the Modernist movement were greatly influenced by outside ideas and techniques People across the globe found familiarities in American entertainment resulting in a universal culture that has dominated the twentieth and twenty-first centuries and fulfilled the aim of the Modernist movement to make the modern world seem more intelligible Modernist America brilliantly explains why George Gershwin's music Cole Porter's lyrics Jackson Pollock's paintings Bob Fosse's choreography Marlon Brando's acting and Orson Welles's storytelling were so influential and why these and other artists and entertainers simultaneously represent both an American and a modern global culture

The New York School Poets and the Neo-Avant-Garde Mark Silverberg, 2016-02-17 New York City was the site of a remarkable cultural and artistic renaissance during the 1950s and 60s In the first monograph to treat all five major poets of the New York School John Ashbery Barbara Guest Kenneth Koch Frank O'Hara and James Schuyler Mark Silverberg examines this rich period of cross-fertilization between the arts Silverberg uses the term neo-avant-garde to describe New York School Poetry Pop Art Conceptual Art Happenings and other movements intended to revive and revise the achievements of the historical avant-garde while remaining keenly aware of the new problems facing avant-gardists in the age of late capitalism Silverberg highlights the family resemblances among the New York School poets identifying the aesthetic concerns and ideological assumptions they shared with one another and with artists from the visual and performing arts A unique feature of the book is Silverberg's annotated catalogue of collaborative works by the five poets

and other artists To comprehend the coherence of the New York School Silverberg demonstrates one must understand their shared commitment to a reconceptualized idea of the avant garde specific to the United States in the 1950s and 60s when the adversary culture of the Beats was being appropriated and repackaged as popular culture Silverberg s detailed analysis of the strategies the New York School poets used to confront the problem of appropriation tells us much about the politics of taste and gender during the period and suggests new ways of understanding succeeding generations of artists and poets

Four Musical Minimalists Keith Potter,2002-04-25 Offers the most detailed account yet of the early works of these four minimalist composers *Destruction Rites* Mona Hadler,2017-01-30 In the early sixties crowds gathered to watch rites of destruction from the demolition derby where makeshift cars crashed into each other for sport to concerts where musicians destroyed their instruments to performances of self destructing machines staged by contemporary artists Destruction in both its playful and fearsome aspects was ubiquitous in the new Atomic Age This complicated subjectivity was not just a way for people to find catharsis amid the fears of annihilation and postwar trauma but also a complex instantiation of ideological crisis in a time with some seriously conflicted political myths Destruction Rites explores the ephemeral visual culture of destruction in the postwar era and its links to contemporary art It examines the demolition derby games and toys based on warfare playgrounds situated in bomb sites and the rise of garage sales where goods designed for obsolescence and destined for the garbage heap are reclaimed and repurposed by local communities Mona Hadler looks at artists such as Jean Tinguely Niki de Saint Phalle Martha Rosler and Vito Acconci to expose how the 1960s saw destruction construction and the everyday collide as never before During the Atomic age whether in the public sphere or art museums destruction could be transformed into a constructive force and art objects and performances often oscillated between the two *Eating Architecture* Jamie Horwitz,Paulette Singley,2006-02-17 A highly original collection of essays that explore the relationship between food and architecture the preparation of meals and the production of space The contributors to this highly original collection of essays explore the relationship between food and architecture asking what can be learned by examining the often metaphorical intersection of the preparation of meals and the production of space In a culture that includes the Food Channel and the knife juggling chefs of Benihana food has become not only an obsession but an alternative art form The nineteen essays and Gallery of Recipes in Eating Architecture seize this moment to investigate how art and architecture engage issues of identity ideology conviviality memory and loss that cookery evokes This is a book for all those who opt for the combination platter of cultural inquiry as well as for the readers of M F K Fisher and Ruth Reichl The essays are organized into four sections that lead the reader from the landscape to the kitchen the table and finally the mouth The essays in Place Settings examine the relationships between food and location that arise in culinary colonialism and the global economy of tourism Philosophy in the Kitchen traces the routines that create a site for aesthetic experimentation including an examination of gingerbread houses as art food and architectural space The essays in Table Rules consider the spatial and performative aspects of eating

and the ways in which shared meals are among the most perishable and preserved cultural artifacts Finally Embodied Taste considers the sensual apprehension of food and what it means to consume a work of art The Gallery of Recipes contains images by contemporary architects on the subject of eating architecture

Are We Not New Wave? Theodore Cateforis, 2011-06-22 Are We Not New Wave is destined to become the definitive study of new wave music Mark Spicer coeditor of Sounding Out Pop New wave emerged at the turn of the 1980s as a pop music movement cast in the image of punk rock's sneering demeanor yet rendered more accessible and sophisticated Artists such as the Cars Devo the Talking Heads and the Human League leapt into the Top 40 with a novel sound that broke with the staid rock clichés of the 1970s and pointed the way to a more modern pop style In Are We Not New Wave Theo Cateforis provides the first musical and cultural history of the new wave movement charting its rise out of mid 1970s punk to its ubiquitous early 1980s MTV presence and downfall in the mid 1980s The book also explores the meanings behind the music's distinctive traits its characteristic whiteness and nervousness its playful irony electronic melodies and crossover experimentations Cateforis traces new wave's modern sensibilities back to the space age consumer culture of the late 1950s early 1960s Three decades after its rise and fall new wave's influence looms large over the contemporary pop scene recycled and celebrated not only in reunion tours VH1 nostalgia specials and 80s night dance clubs but in the music of artists as diverse as Rihanna Lady Gaga Miley Cyrus and the Killers

Sigmar Polke Anne MacPhee, Sigmar Polke, 1996-01-01 Sigmar Polke is a highly exemplary Postmodernist and perhaps one the most indicative of a truly European avant garde culture This book presents a number of critiques which shed light on Polke's otherwise bewildering display of stylistic references apparent changes of allegiance and often unorthodox techniques of production

The Cinematic Novel and Postmodern Pop Fiction Décio Torres Cruz, 2019-12-05

Décio Torres Cruz approaches connections between literature and cinema partly through issues of gender and identity and partly through issues of reality and representation. In doing so he looks at the various ways in which people have thought of the so called cinematic novel tracing the development of that genre concept not only in the French cin roman and film scenarios but also in novels from the United States England France and Latin America. The main tendency he identifies is the blending of the cinematic novel with pop literature through allusions to Pop Art and other postmodern cultural trends. His prime exhibits are a number of novels by the Argentinian writer Manuel Puig: *Betrayed* by Rita Hayworth *Heartbreak Tango* *The Buenos Aires Affair* *Kiss of the Spider Woman* and *Pubis angelical*. Bringing in suggestive sociocultural and psychoanalytical considerations Cruz shows how in Puig's hands the cinematic novel resulted in a pop collage of different texts films discourses and narrative devices which fused reality and imagination into dream and desire.
