Materializing Queer Desire Elisa Glick, 2010-03-30 How did the queer subject come to occupy such a central and in many respects contradictory place in the modern world of the early twentieth century What role has capitalism played in the development of modern gay and lesbian identities Materializing Queer Desire focuses on the figure of the dandy to explore how and why gay and lesbian subjects became heroes of modern life Elisa Glick argues that the gay subject emerged

out of the specifically modern capitalist contradiction between the public world of production and industry and the private world of consumption and pleasure Boldly bringing modernism into dialogue with Marxist and queer theory Glick offers an innovative materialist account of modern queer consciousness that challenges tendencies to oppose private eroticism and the systems of value that govern public interests In the process she illuminates the connections between aesthetic sexual and social formations in modern life between modernity's disruptive queer desires and their unfolding in an increasingly rationalized society
