

Structure

- Popol Vuh encompasses a range of subjects that includes creation, ancestry, history, and cosmology. There are no content divisions in the Newberry Library's holograph, but popular editions have adopted the organization imposed by Brasseur de Bourbourg in 1861 in order to facilitate comparative studies. Though some variation has been tested by Tedlock and Christenson, editions typically take the following form:
- **Preamble**
- A brief statement attesting to the antiquity of the mythistory, its perpetuation in oral form, and its post-conquest writing.
- **Part I**
- *Account of the creation of living beings.* Animals are created first followed by humans. The first humans of earth and mud soak up water and dissolve. The second humans are created from wood, "but they did not have souls, nor minds." They lose favor with the gods who cause them to be beaten and disfigured before receiving a deluge of heavy rain.
- *Hero twins.* Exploits of hero twins Hunahpū and Xbalanqué also known as Hunter and Jaguar deer.
- Their defeat of Yucub-Caquis and his sons Zipacná and Cabracán, presentation of ball-game motif.

Crosscurrents in Indigenous Spirituality

Edward Cook,2016-05-18 The resurgence of indigenous cultures and the reappearance of their ancient spiritualities during the 1990s is of great interest to social scientists Several such cultures are featured in this book The indigenous populations of struggling multi ethnic democracies in Latin America are demanding to be integrated into the national mainstream together with their holistic values of family economics and ecology Institutional Christianity is being challenged by indigenous theologies that are critical of both traditional Christianity and liberation theology While some see here a danger of syncretism these developments can be experienced as a breath of fresh air Much has been said about the Mayas but they have not been allowed to speak for themselves anthropologist Rafael Girardi 1962 This book is an attempt to allow religious spokespersons from a very ancient and creative civilization to share their faith which has remained hidden for five centuries

Chaos And Complexity Michael R. Butz,2018-05-11 The nature of this book is to emphasize the inherent complexity and richness of the human experience of change Now the author believes there to be an acceptable scientific explanation for this phenomena Explored here are 30 years of studies to describe nonlinear dynamics today termed either chaos theory or complexity theory The connotations of both theories are discussed at length Offering social scientists validation in their attempts to describe and define phenomena of a previously ineffable nature this book explores chaos implications for psychology and the social sciences It describes the benefits psychology can glean from using ideas in chaos theory and applying them to psychology in general individual psycho therapy couples therapy and community psychology and also considers possible directions for research and application

Parallel Worlds Kerry M. Hull,Michael D.

Carrasco,2012-05-15 Despite recent developments in epigraphy ethno poetics and the literary investigation of colonial and modern materials few studies have compared glyphic texts and historic Maya literatures Parallel Worlds examines Maya writing and literary traditions from the Classic period until today revealing remarkable continuities across time In this volume contributions from leading scholars in Maya literary studies examine Maya discourse from Classic period hieroglyphic inscriptions to contemporary spoken narratives focusing on parallelism to unite the literature historically Contributors take an ethno poetic approach examining literary and verbal arts from a historical perspective acknowledging that poetic form is as important as narrative content in deciphering what these writings reveal about ancient and contemporary worldviews Encompassing a variety of literary motifs including humor folklore incantation mythology and more specific forms of parallelism such as couplets chiasms kennings and hyperbatons Parallel Worlds is a rich journey through Maya culture and pre Columbian literature that will be of interest to students and scholars of anthropology ethnography

Rice,2009-02-17 In *Maya Political Science Time Astronomy and the Cosmos* Prudence M Rice proposed a new model of Maya political organization in which geopolitical seats of power rotated according to a 256 year calendar cycle known as the May This fundamental connection between timekeeping and Maya political organization sparked Rice s interest in the origins of the two major calendars used by the ancient lowland Maya one 260 days long and the other having 365 days In *Maya Calendar Origins* she presents a provocative new thesis about the origins and development of the calendrical system Integrating data from anthropology archaeology art history astronomy ethnohistory myth and linguistics Rice argues that the Maya calendars developed about a millennium earlier than commonly thought around 1200 BC as an outgrowth of observations of the natural phenomena that scheduled the movements of late Archaic hunter gatherer collectors throughout what became Mesoamerica She asserts that an understanding of the cycles of weather and celestial movements became the basis of power for early rulers who could thereby claim control over supernatural cosmic forces Rice shows how time became materialized transformed into status objects such as monuments that encoded calendrical or temporal concerns as well as politicized becoming the foundation for societal order political legitimization and wealth Rice s research also sheds new light on the origins of the Popol Vuh which Rice believes encodes the history of the development of the Mesoamerican calendars She also explores the connections between the Maya and early Olmec and Izapan cultures in the Isthmian region who shared with the Maya the cosmovision and ideology incorporated into the calendrical systems **Translating Borrowed Tongues** MaCarmen África Vidal Claramonte,2022-09-19 This book sheds light on the translations of renowned semiotician essayist and author Ilan Stavans elucidating the ways in which they exemplify the migrant experience and translation as the interactions of living and writing in intercultural and interlinguistic spaces While much has been written on Stavans work as a writer there has been little to date on his work as a translator subversive in their translations of Western classics such as Don Quixote and Hamlet into Spanglish In Stavans experiences as a writer and translator between languages and cultures Vidal locates the ways in which writers and translators who have experienced migratory crises marginalization and exclusion adopt a hybrid polydirectional and multivocal approach to language seen as a threat to the status quo The volume highlights

how the case of Ilan Stavans uncovers unique insights into how migrant writers nonstandard use of language creates worlds predicated on deterritorialization and in between spaces which more accurately reflect the nuances of the lived experiences of migrants This book will be of particular interest to students and scholars in translation studies literary translation and Latinx literature
