The Romantic Machine John Tresch, 2012-02-06 In the years immediately following Napoleon's defeat French thinkers in all fields set their minds to the problem of how to recover from the long upheavals that had been set into motion by the French Revolution Many challenged the Enlightenment's emphasis on mechanics and questioned the rising power of machines seeking a return to the organic unity of an earlier age and triggering the artistic and philosophical movement of romanticism Previous scholars have viewed romanticism and industrialization in opposition but in this groundbreaking volume John Tresch reveals how thoroughly entwined science and the arts were in early nineteenth century France and how they worked together to unite a fractured society Focusing on a set of celebrated technologies including steam engines electromagnetic and geophysical instruments early photography and mass scale printing Tresch looks at how new conceptions of energy instrumentality and association fueled such diverse developments as fantastic literature popular astronomy grand opera

Nonfictional Romantic Prose Steven P. Sondrup, Virgil Nemoianu, 2004-03-31 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less

widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

Historical Dictionary of French

Literature John Flower, 2013-01-17 Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English And even if we don't read we would have seen film and television versions think Count of Monte Cristo and even a musical rendition Les Mis So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English

French Romantic Ballets

Robert Ignatius Letellier, 2012-03-15 This collection presents music from three of the most important scores of the Golden Age of ballet in Paris from 1830 1870 The Romantic ballet had been inaugurated by Meyerbeer's opera Robert le Diable 21 November 1831 with its ghostly Ballet of the Nuns risen from their graves and dancing in the moonlight led by their spectral Abbess a role created by Marie Taglioni 1804 1884 to her father's choreography La Sylphide 1832 inspired by this situation was the first fully fledged Romantic ballet Its graceful and atmospheric score was written by the first violinist at the Opéra

Jean Schneitzhoeffter The story devised by the great tenor Adolphe Nourrit similarly introduces spirits and elemental beings which dominated ballet scenarios for the following decades Filippo Taglioni's creation provided the fullest realization of the Romantic ideal especially in the leading character of the story and its perfect incarnation in the original interpreter Marie Taglioni whose stage personality seemed to be made for the part of the Sylphide The ballet became the source of theatrically romantic fantasies centred around the hopeless and fatal love between a human being and a supernatural creature It was performed in Paris until 1860 when the work was abandoned Only in the late 20th century was Taglioni's original version revived in a literal reconstruction by Pierre Lacotte at the Paris Opéra on 7 June 1972 Giselle is a central work in the ballet repertory all over the world It is regarded as the absolute masterpiece of Romantic dance theatre a wonderful synthesis of style technique and dramatic feeling with an exceptional score The ballet was devised in 1841 as a result of the collaboration of some of the major talents in literature choreography and music in the Paris of the time The author critic and poet Théophile Gautier overwhelmed by the art of the ballerina Carlotta Grisi 1819-1899 discovered what he felt would be the perfect theme for her while reading a translation of Heinrich Heine's book on German legend and folklore *D'Allemagne* Here he found the legend of the wilis maidens who die before their wedding day and who come out of their graves at night in bridal dress to dance until dawn Should any man be caught in the wood while the wilis are about their rituals he is doomed to dance on and on until he drops dead from exhaustion The choreography was created by Jean Coralli and Jules Perrot The first act is on a realistic level with an evocation of a medieval rusticity and emotional sentimental intrigue while the second act conjures up the supernatural an ethereal world of magic symbolism Both public and the critics greeted the work as a triumph The score was praised for its elegance the freshness and clarity of the melodies the vigour and novelty of the harmonic combinations and the vivacity that pervades the musical texture from start to finish The ballet has come down the years in a more or less unbroken tradition Perrot emphasized his own special creative imprint in the productions he supervised in London 1842 and St Petersburg 1856 In Russia he collaborated with Marius Petipa who made his own reconstruction of the ballet in 1884 This version became the model for all later revivals in Russia as well as for Mikhail Fokine's production for the Ballet Russes in Paris 1910 Byron's famous narrative poem *The Corsair* inspired several ballets with Joseph Mazilier's proving the most important 1856 Jules Henri Vernoy de Saint-Georges's scenario was of a superior quality Mazilier was maître de ballet at the Paris Opéra between 1853 and 1859 the years of his fullest creativity The solo parts were infused with an intense dramatic expressiveness and there was a splendid *mise en scène* But the great success of the work was due primarily to the quality of the chief performers the ballerina Carolina Rosati 1826-1905 and the mime Domenico Segarelli 1820-1860 The spectacular shipwreck finale was a sensational feat engineered by the chief mechanist of the Opéra Victor Sacré and his crowning glory Adam's score consistently rich in melodic inspiration engaging in the set dances imaginative in the many extended mime sequences and more richly symphonic than ever before in his work reached a height of inspiration in this last music he ever

wrote for the stage Mazilier's ballet gained a world wide popularity and became a favourite of the leading ballerinas for decades Marius Petipa produced his own version in St Petersburg in 1868 with additional music by Cesare Pugni and L o Delibes In 1899 Petipa revived the ballet again for the Maryinsky Theatre in St Petersburg this time completely re choreographing it for Pierina Legnani with additional music by Riccardo Drigo Performances in the USSR and contemporary Russia derive from this version Drigo's music for the spectacular pas de deux in act 2 is still performed all over the world as an independent piece

Lafayette in Two Worlds Lloyd S. Kramer,2000-11-09 Lloyd Kramer offers a new interpretation of the cultural and political significance of the career of the Marquis de Lafayette which spanned the American Revolution the French Revolutions of 1789 and 1830 and the Polish Uprising of 1830-31 Moving beyond traditional biography Kramer traces the wide ranging influence of Lafayette's public and personal life including his contributions to the emergence of nationalist ideologies in Europe and America his extensive connections with liberal political theorists and his close friendships with prominent writers many of them women Kramer places Lafayette on the cusp of the two worlds of America and France politics and literature the Enlightenment and the Romantic movement public affairs and private life revolution and nationalism and men and women He argues that Lafayette's experiences reveal how public figures can symbolize the aspirations of a society as a whole and he stresses Lafayette's important role in a cultural network of contemporaries that included Germaine de Stael Benjamin Constant Frances Wright James Fenimore Cooper and Alexis de Tocqueville History Biography
