terminal decline and finally wore itself out by the 1980s Though the industrial model of the musical was disrupted by the emergence of pop the Hollywood musical has not gone extinct Many Hollywood productions from the 1960s to the present have revisited the forms and conventions of the classic musical except instead of drawing from showtunes and jazz standards they employ the styles and iconography of pop Alberto Mira offers a new account of how pop music revolutionized the Hollywood musical He shows that while the Hollywood system ceased producing large scale traditional musicals different pop strains disco rock n roll doo wop glam and hip hop renewed the genre giving it a new life While the classical musical presented a world light on conflict defined by theatricality and where effortless talent can shine through the introduction of pop spurred musicals to address contemporary social and political conditions Mira traces the emergence of a new set of themes such as the painful hard work depicted in *Dirty Dancing* 1987 the double edged fandom of *Velvet Goldmine* 1998 and the racial politics of *Dreamgirls* 2006 to explore why the Hollywood musical has found renewed relevance *Musicals at the Margins* Julie Lobalzo Wright, Martha Shearer, 2021-04-22 But is it a musical This question is regularly asked of films television shows and other media objects that sit uncomfortably in the category despite evident musical connections *Musicals at the Margins* argues that instead of seeking to resolve such questions we should leave them unanswered and unsettled proposing that there is value in examining the unstable edges of genre This collection explores the marginal musical in a diverse range of historical and global contexts It encompasses a range of different forms of marginality including boundary texts films media that are sort of not quite musicals musical sequences marginalized sequences in musicals musical sequences in non musicals music films musicals of the margins musicals produced from social cultural geographical and geopolitical margins and musicals across media television and new media Ultimately these essays argue that marginal genre texts tell us a great deal about the musical specifically and genre more broadly *China in the Mix* Ying Xiao, 2017-08-09 Scarce attention has been paid to the dimension of sound and its essential role in constructing image culture and identity in Chinese film and media *China in the Mix* fills a critical void with the first book on the sound languages scenery media and culture in post Socialist China In this study Ying Xiao explores fascinating topics including appropriations of popular folklore in the Chinese new wave of the 1980s Chinese rock n roll and youth cinema in fin de si cle China the political economic impact of free market imperatives and Hollywood pictures on Chinese film industry and filmmaking in the late twentieth century the reception and adaptation of hip hop and the emerging role of Internet popular culture and social media in the early twenty first century Xiao examines the articulations and representations of mass culture and everyday life concentrating on their aural oral manifestations in contemporary Chinese cinema and in a wide spectrum of media and cultural productions *China in the Mix* offers the first comprehensive investigation of Chinese film expressions and culture from a unique cohesive acoustic angle and through the prism of global media cultural exchange It shows how the complex evolving uses of sound popular music voice over silence noise and audio mixing in film and media reflect and engage the

important cultural and socio historical shifts in contemporary China and in the increasingly networked world Xiao offers an innovative new conception of Chinese film and media and their audiovisual registers in the historiographical frame of China amid the global landscape

Hindi Film Songs and the Cinema Anna Morcom, 2017-07-05 Since their beginnings in the 1930s Hindi films and film songs have dominated Indian public culture in India and have also made their presence felt strongly in many global contexts Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process musical style and commercial life it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round While they constitute India's still foremost genre of popular music film songs are also situational dramatic sequences inherently multi media in style and conception This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries Its findings lead to highly novel ways of viewing Hindi film songs their key role in Hindi cinema and how this affects their wider life in India and across the globe It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema It also forms a major contribution to popular music popular culture film music studies and ethnomusicology tackling pertinent issues of cultural production multi media and the cross cultural use of music in Hindi cinema The book caters for both music specialists as well as a wider audience
