Popular Religion In Germany And Central Europe 1400 18:

Popular Religion in Germany and Central Europe, 1400-1800 Trevor Johnson, R. W. Scribner, 1996-08-16 Studies in the field of popular religion have for some time been among the most innovative in social and cultural history but until now there have been few publications providing any adequate overview for Germany and the Holy Roman Empire This volume presents the results of recent research by younger scholars working on major aspects of this subject The nine essays range over nearly four centuries of German history encompassing late medieval female piety propaganda for radical Hussite dissent attitudes towards the Jews legitimization for the witchcraze on the eve of the Reformation attempts to implement Protestant reform in German villages Reformation attacks on popular magic and female culture problems of defining the Reformation in small German towns Protestant popular prophecy and formation of confessional identity and the missionising strategies of the Counter Reformation

A Comparative Sociology of World Religions Stephen Sharot, 2001-08 A Sociology of World Religions presents a comparative analysis of the world's religions focusing on the differences and interrelationships between religious elites and lay masses In each case the volume contextualizes how the relationships between these two religious forms fit within and are influenced by the wider socio-political environment After introducing the book's major themes the volume introduces and builds upon an analysis of Weber's model of religious action drawing on Durkheim Marxist scholars and the work of contemporary sociologists and anthropologists The following chapters each focus on major religious cultures including Hinduism Buddhism Catholicism Protestantism Islam Judaism and the religions of China and Japan This ambitious project is the first to offer a comparison of the popular or folk forms of religion around the world Sharot's accessible introductions to each of the world religions synthesizing a vast literature on popular religion from sociology anthropology and historians of religion make the project ideal for course use His comparative approach and original analyses will prove rewarding even for experts on each of the world religions

Superstition and Magic in Early Modern Europe: A Reader Helen L. Parish, 2014-11-20 Superstition and Magic in Early Modern Europe brings together a rich selection of essays which represent the most important historical research on religion magic and superstition in early modern Europe Each essay makes a significant contribution to the history of magic and religion in its own right while together they demonstrate how debates over the topic have evolved over time providing invaluable intellectual historical and socio-political context for readers approaching the subject for the first time The essays are organised around five key themes and areas of controversy Part One tackles superstition Part Two the tension between miracles and magic Part Three ghosts and apparitions Part Four witchcraft and witch trials and Part Five the gradual disintegration of the magical universe in the face of scientific religious and practical opposition Each part is prefaced by an introduction that provides an outline of the historiography and engages with recent scholarship and debate setting the context for the essays that follow and providing a foundation for further study This collection is an invaluable toolkit for students of early modern Europe providing both a

focused overview and a springboard for broader thinking about the underlying continuities and discontinuities that make the study of magic and superstition a perennially fascinating topic Witchcraft and Magic in Europe, Volume 4 Bengt Ankarloo, Stuart Clark, E. William Monter, 2002-12-23 A compact survey of the European witch craze of the early modern period a craze that later spilled over to America **Art and Religion in Eighteenth-Century Europe** Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study Art and Religion in Eighteenth Century Europe will be essential for art history and religious studies scholars alike Witch Craze Lyndal Roper, 2006-01-01 A powerful account of witches crones and the societies that make them From the gruesome ogress in Hansel and Gretel to the hags at the sabbath in Faust the witch has been a powerful figure of the Western imagination In the sixteenth and seventeenth centuries thousands of women confessed to being witches of making pacts with the Devil causing babies to sicken and killing animals and crops and were put to death This book is a gripping account of the pursuit interrogation torture and burning of witches during this period and beyond Drawing on hundreds of original trial transcripts and other rare sources in four areas of Southern Germany where most of the witches were executed Lyndal Roper paints a vivid picture of their lives families and tribulations She also explores the psychology of witch hunting explaining why it was mostly older women that were the victims of witch crazes why they confessed to crimes and how the depiction of witches in art and literature has influenced the characterization of elderly women in our own culture **The Cambridge History of Christianity: Volume 4, Christianity in Western Europe, c.1100-c.1500** Miri Rubin, Walter Simons, 2014-07-31 During the early middle ages Europe developed complex and varied Christian cultures and from about 1100 secular rulers competing factions and inspired individuals continued to engender a diverse and ever changing mix within Christian society This volume explores the wide range of institutions practices and experiences associated with the life of European Christians in the later middle ages The clergy of this period initiated new approaches to the role of priests bishops and popes and developed an ambitious project to instruct the laity For lay people the practices of parish religion were central but many sought additional ways to enrich their lives as Christians Impulses towards reform and renewal

periodically swept across Europe led by charismatic preachers and supported by secular rulers This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry *Beyond the Wall* Martin Elbel, 2020-09-14T16:54:00+02:00 The wall separating the cloister from the surrounding world is one of the most distinctive features of a monastery it marks out the community of monks or friars and defines the very essence of a cloister However this wall was never completely impenetrable Those inside interacted with those outside in churches in towns and villages or even in the cloisters It is this permeability of the cloister wall what constitutes the central motif of this book Using the example of the Franciscan Friary of St Bernardino in Olomouc nowadays in the Czech Republic it analyses the interaction of the friars and the urban community It focuses on the 17th and 18th centuries when following the suppression of non Catholic confessions Roman Catholicism became the only official religion and the city became one of major ecclesiastical centres in the Habsburg Lands The Franciscans significantly contributed to the formation of the new Catholic confessional culture in the city yet they were just one of the many agents They were forced to constantly re negotiate their position and to compete with other religious institutions The mendicant character of the order eventually proved to be their main advantage Although the life in strict poverty brought many complications it also greatly enhanced the prestige of the friars Simultaneously it motivated them to search for new and efficient ways to address the people Begging for alms thus became one of the main forms of interaction between the friary and the local community allowing the mendicants to extend their reach significantly to emphasise their uniqueness and importance and to patiently build their own network of ties to the local population The story of the friary of St Bernardino in Olomouc demonstrates that early modern Roman Catholicism was not built unilaterally from the top down but was instead the result of synergy and even conflicts between many actors **Women in Medieval Europe** Jennifer Ward, 2014-06-11 Women in Medieval Europe were expected to be submissive but such a broad picture ignores great areas of female experience Between the thirteenth and fifteenth centuries women are found in the workplace as well as the home and some women were numbered among the key rulers saints and mystics of the medieval world Opportunities and activities changed over time and by 1500 the world of work was becoming increasingly restricted for women Women of all social groups were primarily engaged with their families looking after husband and children and running the household Patterns of work varied geographically In the northern towns women engaged in a wide range of crafts with a small number becoming entrepreneurs Many of the poor made a living as servants and labourers Prostitution flourished in many medieval towns Some women turned to the religious life and here opportunities burgeoned in the thirteenth century The Middle Ages are not remote from the twenty first century the lives of medieval women evoke a response today The medieval mother faced similar problems to her modern counterpart The sheer variety of women s experience in the later Middle Ages is fully brought out in this book *Cultural Shifts and Ritual Transformations in Reformation Europe* Victoria Christman, Marjorie Elizabeth Plummer, 2020-08-10 This volume honors the work of a scholar

who has been active in the field of early modern history for over four decades In that time Susan Karant Nunn s work challenged established orthodoxies pushed the envelope of historical genres and opened up new avenues of research and understanding which came to define the contours of the field itself Like this rich career the chapters in this volume cover a broad range of historical genres from social cultural and art history to the history of gender masculinity and emotion and range geographically from the Holy Roman Empire France and the Netherlands to Geneva and Austria Based on a vast array of archival and secondary sources the contributions open up new horizons of research and commentary on all aspects of early modern life Contributors James Blakeley Robert J Christman Victoria Christman Amy Nelson Burnett Pia Cuneo Ute Lotz Heumann Amy Newhouse Marjorie Elizabeth Plummer Helmut Puff Lyndal Roper Karen E Spierling James D Tracy Mara R Wade David Whitford and Charles Zika Confessional Identity in East-Central Europe Maria Craciun,Ovidiu Ghitta,2017-05-15 This book considers the emergence of a remarkable diversity of churches in east central Europe between the 16th and 18th centuries which included Catholic Orthodox Hussite Lutheran Bohemian Brethren Calvinist anti Trinitarian and Greek Catholic communities Contributors assess the extraordinary multiplicity of confessions in the Transylvanian principality as well as the range of churches in Poland Bohemia Moravia and Hungary Essays focus on how each church sought to establish its own identity in a crowded market place of religious ideas and on the extent to which printed literature brokered the popular reception of religious doctrine The volume addresses how ideas about religion spread within the largely illiterate societies of east central Europe especially through catechisms and how printed literature was used to instruct congregations about doctrinal truth to encourage the faithful to pious devotions and to shape the religious life and identity of local communities Images of Purgatory Tomáš Malý,Pavel Suchánek,2022-02-10T17:38:00+01:00 On the example of the Czech lands the book discusses the transformation of the representation of Purgatory in the period between the late Reformation debates at the end of the sixteenth century and partial rejection of Purgatory by the so called reform Catholicism of the late eighteenth century The authors moving permanently in between history and art history gradually analyse theology iconography practice and reception of Purgatory They address the questions of space and time in Purgatory of emotions and the early modern affects treatment of images in religious practice circulation and diffusion of meditative texts and images or the problem of revenant souls The book offers a comprehensive consideration of the development of a fascinating cultural phenomenon in a crucial period of significant changes in people s thoughts and behaviour *Popular Culture in Early Modern Europe* Peter Burke,2009 The concept of cultural history has in the last few decades come to the fore of historical research into early modern Europe Due in no small part to the pioneering work of Peter Burke the tools of the cultural historian are now routinely brought to bear on every aspect of history and have transformed our understanding of the past First published in 1978 and now in its third edition this study examines the broad sweep of pre industrial Europe s popular culture This new edition features a new introduction reflecting the growth of cultural history and an extensive

supplementary bibliography which further adds to the information about new research in the area

Religion, Government and Political Culture in Early Modern Germany J. Wolfart, 2001-12-05 The story of conflict in an island community offers a valuable case study for the analysis of early modern German political culture Investigations range from interpersonal relations to dynamics of civic church and imperial government Chronicled throughout are the interactions of two opposing principles in modern society secular vs spiritual and public vs private These are found to operate both discursively and institutionally and are deployed to help establish sovereign authority Obrigkeit as well as to articulate resistance in the form of bourgeois republican ideology
