**The Rise of Market Society in England, 1066-1800** Christiane Eisenberg, 2013-12-01 Focusing on England this study reconstructs the centuries long process of commercialization that gave birth to the modern market society It shows how certain types of markets e g those for real estate labor capital and culture came into being and how the social relations mediated by markets were formed The book deals with the creation of institutions like the Bank of England the Stock Exchange and Lloyd's of London as well as the way the English dealt with the uncertainty and the risks involved in market transactions Christiane Eisenberg shows that the creation of a market society and modern capitalism in England occurred under circumstances that were utterly different from those on the European continent In addition she demonstrates that as a process the commercialization of business society and culture in England did not lead directly to an industrial society as has previously been suggested but rather to a service economy

*English almanacs, astrology and popular medicine, 1550-1700* Louise Hill-Curth, 2018-09-30 Early modern almanacs have received relatively little academic attention over the years despite being the first true form of British mass media While their major purpose was to provide annual information about the movements of the stars and the corresponding effects on Earth most contained a range of other material including advice on preventative and remedial medicine for humans and animals Based on the most extensive research to date into the relationship between the popular press early modern medical beliefs and practices this study argues that these cheap annual booklets played a major role in shaping contemporary medical beliefs and practices in early modern England Beginning with an overview of printed vernacular medical literature the book examines in depth the genre of almanacs their authors target and actual

Cian Duffy, Peter Howell, 2016-04-08 How did romanticism define its relationship with its sources How has romanticism since been understood and misunderstood across a range of cultural activities These are among the questions taken up in this reexamination of the place of adaptation within romanticism Renegotiating the cultural topography of the period and the place of romanticism in subsequent cultural history the volume focuses on the adaptation of source material by romantic writers and the adaptation in subsequent periods of the tropes and ideologies associated with romanticism In place of a hierarchical distinction between source and text between romanticism and its contexts the collection identifies distinct but overlapping and mutually constitutive genres such as the Gothic and romance Whether their essays deal with early nineteenth century periodical reviews affordable editions of *Pride and Prejudice* aimed at the late nineteenth century mass audience or the ongoing cultural presence of romanticism in late twentieth and early twenty first century debates about embryology and stem cell research the contributors remain cognizant of the tension between the processes of adaptation and the apparent ideology of romantic originality      *Gender and Policing in Early Modern England* Jonah Miller, 2023-06-15 This book traces the beginnings of a shift from one model of gendered power to another Over the course of the seventeenth and early eighteenth centuries traditional practices of local government by heads of household began to be undermined by new legal ideas about what it meant to hold office In London this enabled the emergence of a new kind of officeholding and a new kind of policing rooted in a fraternal culture of official masculinity London officers arrested searched and sometimes assaulted people on the basis of gendered suspicions especially poorer women *Gender and Policing in Early Modern England* describes how a recognisable form of gendered policing emerged from practices of local government by patriarchs and addresses wider questions about the relationship between gender and the state      *London's News Press and the Thirty Years War* Jayne E. E. Boys, 2014 A topical subject offering interesting parallels between the news revolution in the age of James I and Charles I and our internet age An important contribution to the history of print and books London's News Press

shows that seventeenth century England was very much part of a European wide news community The book presents a new print history that looks across Europe and the interconnecting political and religious groups with international networks It tells the story of the printers and publishers engaged in the earliest illicit publications their sources and connections in Germany as well as the Netherlands and traces the way legitimacy was achieved These were the earliest printed periodical news publications Periodicity and its implications for trade and customers is explored as well as the roles of publishers and editors The period saw a much bigger circulation of news than had ever been experienced before The book also describes the lively nature of relationships that ensued between news networkers editors writers and readers along their interconnecting chains The subject is topical Our understanding of reading and communications is undergoing major changes with the rise and proliferation of social media James I and Charles I faced new media and an unprecedented growth in informed public opinion fuelled by a flow of information that was essentially beyond the reach of government control So there are parallels with the contemporary struggle to adapt and there is a corresponding growth in the publication of history books reflecting upon the origins of the public sphere and the development of public opinion JAYNE E E BOYS is an independent scholar who lives in Suffolk and British Columbia
