Privatization and Political Change in Mexico Judith A. Teichman, 2010-11-23 Since 1983 Mexico has undergone a rapid and thorough economic restructuring program with privatization at the core The government has divested itself of hundreds of public companies increasing the role of private capital both domestic and foreign Supporters have argued that divestiture would have positive implications for Mexican democracy but Judith A. Teichman concludes that political and economic power in Mexico is more concentrated and exclusionary than ever She uses extensive field research including interviews with top political and business leaders to describe and analyze the process by which the Mexican state has reformed its mammoth public enterprise sector

Rural Protest and the Making of Democracy in Mexico, 1968-2000 Dolores Trevizo, 2015-11-05 When the PRI fell from power in the elections of 2000 scholars looked for an explanation Some focused on international pressures while others pointed to recent electoral reforms In contrast Dolores Trevizo argues that a more complete explanation takes much earlier democratizing changes in civil society into account Her book explores how largely rural protest movements laid the groundwork for liberalization of the electoral arena and the consolidation of support for two opposition parties the PAN on the right and the PRD on the left that eventually mounted a serious challenge to the PRI She shows how youth radicalized by the 1968 showdown between the state and students in Mexico City joined forces with peasant militants in nonviolent rural protest to help bring about needed reform in the political system In response to this political effervescence in the countryside agribusinessmen organized in peak associations that functioned like a radical social movement Their countermovement formulated the ideology of neoliberalism and they were ultimately successful in mobilizing support for the PAN Together social movements and the opposition parties nurtured by them contributed to
