Birks,C.A. Sinclair,2020-07-26 The Arab world increasingly falls into two divisions the capital poor and the capital rich countries where capital means in essence oil In the capital rich countries shortage of labour is the chief constraint on growth In the capital poor countries analysis of the labour market is equally central as shortage of labour compounds the already existing problem of shortage of capital This book surveys the labour markets of the Arab world state by state evaluating them by demand and supply analysis and analysing the different elements in trends of employment It forecasts the areas of stress in the next decade and suggests ways of minimising them The book based on much previously unpublished information and on extensive on the spot research in the respective Arab countries sets out the economic and social conditions which underly the impending crisis of development in the Arab region First published in 1980 *Sudan's Wars and Peace Agreements* Stephanie Beswick,Jay Spaulding,2010-07-12 Originating from the 2008 27th annual conference of the Sudan Studies Association SSA of the same title these essays document and analyze Sudan s chronic history of conflict since independence in 1956 as well as its own and international efforts to bring an end to

these conflicts As the country moves toward what some see as the inevitable separation of South Sudan in 2011 honoring the principle of self determination long fought for by southerners the lessons of six decades of a history of war and peace agreements is both telling and compelling This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits In addition to an Introduction by the editors all founders or current or past presidents of the SSA the essays by Sudanese and non Sudanese explore the often bitter history of North South relations and loss of life leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state The role of the Khartoum government s pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated The central question of constructing a sustainable peace irrespective of the outcome in 2011 is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated This book is must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond *African Studies Abstracts* ,1994
