Population Perils Justices:

The Promise and Peril of Environmental Justice Christopher H. Foreman, 2011-02-01 Are we environmentally victimizing perhaps even poisoning our minority and low income citizens Proponents of environmental justice assert that environmental decisionmaking pays insufficient heed to the interests of those citizens disproportionately burdens their neighborhoods with hazardous toxins and perpetuates an insidious environmental racism In the first book length critique of environmental justice advocacy Christopher Foreman argues that it has cleared significant political hurdles but displays substantial limitations and drawbacks Activism has yielded a presidential executive order management reforms at the Environmental Protection Agency and numerous local political victories Yet the environmental justice movement is structurally and ideologically unable to generate a focused policy agenda The movement refuses to confront the need for environmental priorities and trade offs politically inconvenient facts about environmental health risks and the limits of an environmental approach to social justice Ironically environmental justice advocacy may also threaten the very constituencies it aspires to serve distracting attention from the many significant health hazards challenging minority and disadvantaged populations Foreman recommends specific institutional reforms intended to recast the national dialogue about the stakes of these populations in environmental protection

Engaging Displaced Populations in a Future Syrian Transitional Justice Process Grace Mieszkalski,Benjamin Zyla,2021-08-23 This book offers an analysis of a prospective transitional justice process in Syria As the Syrian conflict enters into its tenth year this book asks how the sustained human rights violations and war crimes could possibly be addressed in a post conflict setting particularly in the context of the widespread displacement crisis Despite a recent movement in scholarship toward bottom up peacebuilding approaches and participatory transitional justice models the transitional justice and local peacebuilding nexus remains under theorized particularly as it relates to the engagement of displaced populations This book seeks to address this gap through the conceptualization of a locally driven transitional justice process for Syria that is founded on the integration of refugees and displaced populations Through offering a series of policy recommendations on how to implement such a process it aims to make a contribution to building a bridge of exchange between the policy practitioner world and the academy in this area of study

Personal Justice Denied United States. Commission on Wartime Relocation and Internment of Civilians,1983 Part II p 315 359 concerns the removal of Aleuts to camps in southeastern Alaska and their subsequent resettlement at war s end

Personal Justice Denied Commission on Wartime Relocation and Internment of Civilians,2012-08-01 *Personal Justice Denied* tells the extraordinary story of the incarceration of mainland Japanese Americans and Alaskan Aleuts during World War II Although this wartime episode is now almost universally recognized as a catastrophe for decades various government officials and agencies defended their actions by asserting a military necessity The Commission on Wartime Relocation and Internment was established by act of Congress in 1980 to investigate the detention program Over twenty days it held hearings in cities across the country particularly on the West Coast with testimony from more than 750 witnesses evacuees former government officials public figures interested citizens and historians and other professionals It took steps to locate and to review the records of government action and to

analyze contemporary writings and personal and historical accounts The Commission's report is a masterful summary of events surrounding the wartime relocation and detention activities and a strong indictment of the policies that led to them The report and its recommendations were instrumental in effecting a presidential apology and monetary restitution to surviving Japanese Americans and members of the Aleut community

The Ethics of Precision Medicine Paul

Scherz,2024-10-01 Paul Scherz explores the ethical challenges raised by precision medicine and its focus on medical risk as opposed to current disease Genetic technologies and artificial intelligence are rapidly changing the landscape of medical practice and patient care In the emerging field of precision medicine a patient's risk factors especially genetic risk factors are incorporated into an all encompassing plan to prevent future disease But identifying at risk individuals through technologies such as wearable devices and direct to consumer genetic sequencing can undermine the overall experience of health The potential for overdiagnosis and overtreatment grows as patients are prescribed medications and receive prophylactic surgeries that carry inherent risks Also as the medical industry shifts its attention from individuals to trends in the general population the one to one practitioner patient relationship becomes strained Using the lens of virtue ethics and theological bioethics The Ethics of Precision Medicine offers suggestions for better implementing precision medicine to treat those currently suffering from or at high risk of disease while also recognizing that effectively preventing disease depends ultimately on addressing the social determinants of health The book provides a new perspective on the problems of contemporary healthcare proposing practical steps that individuals and institutions can take to ensure that the advanced technologies of precision medicine can be used to promote human flourishing

The Promise and Peril of CRISPR

Neal Baer,2024-07-02 A timely collection of essays on the pressing possibilities and risks of gene editing technology Scientists and genetic engineers are becoming increasingly adept at editing the human genome How far can and should they go in editing future generations In The Promise and Peril of CRISPR editor Neal Baer brings together a timely collection of essays by

influential bioethicists philosophers and geneticists to explore the moral ethical and policy challenges posed by CRISPR technology We are at a technological and ethical crossroads in grappling with the impacts of genetic editing Gene editing technology holds the promise of curing more than 7 000 known genetic diseases Yet with that promise comes the peril of using CRISPR to edit the human genome which could not only lead to manipulating human evolution but also to creating and releasing pathogens capable of wreaking havoc on human animal and plant life Although CRISPR has already cured several genetic diseases it could also be used to design biological weapons or to edit the embryos of people who can afford to purchase genetic enhancements for their children What role can and should the public play in discussing the far reaching implications of gene editing What oversights should be put in place to prevent a rogue scientist from engineering another baby as was recently done with twins in China Essay contributors offer informed predictions and guidelines for how the uses of CRISPR today will affect life in the future Decisions we make now may have unpredictable consequences for future generations For anyone concerned about the uses and potential abuses of gene editing these essays provide a critical and comprehensive discussion of the central issues surrounding CRISPR technology Contributors Florence Ashley R Alta Charo Marcy Darnovsky Kevin Doxzen Rosemarie Garland Thomson Gigi Kwik Gronvall Jodi Halpern Katie Hasson Andrew C Heinrich Jacqueline Humphries J Benjamin Hurlbut Ellen D Jorgensen Peter F R Mills Carol Padden Marcus Schultz Bergin Robert Sparrow Sandra Sufian Krystal Tsosie Ethan Weiss Rachel M West *National Institute of Justice Journal* ,2000
