## **Population Studies In New Zealand:**

**Sociologies of New Zealand** Charles Crothers, 2018-04-13 This book provides the first comprehensive analysis of the various sociologies of New Zealand from the late 19th century to the present day Opening with previously undocumented insights into the history of proto sociology in New Zealand the book then explores the parallel stories of the discipline both as a mainstream subject in Sociology departments and as a more diffuse sociology within other university units The rise and fall of departments specialties and research networks is plotted and the ways in which external and internal factors have shaped these is explained Different generations of sociologists including many immigrants are each shown to have left their unique mark on New Zealand sociology The author demonstrates that the rising interest in topics specific to New Zealand has been accompanied by increasing capacities to contribute to world sociology This book will have inter disciplinary appeal across the social sciences and provides a valuable study of the development of sociology in a semi peripheral country *New Zealand Journal of Agricultural Research* ,1980 **Population Studies in New Zealand** Graeme Aitken, Sue Downs, 1993-01 Examines various aspects of population studies including taking a census birth rates migration population movement and population composition Each chapter includes student activities based on the topics discussed Suggested level Secondary *New Zealand Journal of Agricultural Research* ,1981 **New Zealand Journal of Agricultural Research** ,1980 **New Zealand Journal of Agricultural Research** ,1981 *New Zealand Journal of Agricultural Research* ,1974-05 **New Zealand Journal of Crop and Horticultural Science/Experimental Agriculture** ,1975-06 *New Zealand Journal of Agricultural Research* ,1982 *New Zealand Journal of Agricultural Research* ,1980 **Population Mobility and Indigenous Peoples in Australasia and North America** Martin Bell, John Taylor, 2003-12-25 Focusing on the four New World countries Australia New Zealand Canada and the United States this book explores key themes and issues in indigenous mobility *New Zealand Journal of Agricultural Research* ,1981 *New Zealand Journal of Agricultural Research* ,1967-02 **Colonization and Development in New Zealand between 1769 and 1900** Ian Pool, 2015-09-03 This book details the interactions between the Seeds of Rangiotea New Zealand s Maori people of Polynesian origin and Europe from 1769 to 1900 It provides a case study of the way Imperial era contact and colonization negatively affected naturally evolving demographic epidemiologic transitions and imposed economic conditions that thwarted development by precursor peoples wherever European expansion occurred In doing so it questions the applicability of conventional models for analyses of colonial histories of population health and of development The book focuses on and synthesizes the most critical parts of the story the health and population trends and the economic and social development of Maori It adopts demographic methodologies most typically used in developing countries which allow the mapping of broad changes in Maori society particularly their survival as a people The book raises general theoretical questions about how populations react to the introduction of diseases to which they have no natural immunity Another more general theoretical issue is what happens when one society s

development processes are superseded by those of some more powerful force whether an imperial power or a modern day agency which has ingrained ideas about objectives and strategies for development Finally it explores how health and development interact The Maori experience of contact and colonization lasting from 1769 to circa 1900 narrated here is an all too familiar story for many other territories and populations Natives and former colonists This book provides a case study with wider ramifications for theory in colonial history development studies demography anthropology and other fields
