Populism A Psychohistorical Perspective

Carl Grafton, Anne Permaloff

Populism A Psychohistorical Perspective:

Populism James M. Youngdale, 1975 Populism according to Dr James Youngsdale was a pivotal force in the watershed separating nineteenth century petty capitalism and laissez faire liberalism from twentieth century progressivism It was not Youngsdale asserts merely a heightened expression of middle class disillusionment and rebelliousness as Richard Hofstadter contends nor was it a glorious chapter in the struggle for human rights as Norman Pollack idealizes it Youngsdale s own view of populism as reflecting a shift in social and economic attitudes is in the vein of William Appleman Williams interpretation of American history Extending from the Civil War through the 1930s Dr Youngsdale s study focuses on the developments in the upper midwestern states particularly the rise of the Minnesota Farmer Labor Party the most significant and successful attempt to organize a populist third party movement in the United States But this book is more than a forceful and thoroughgoing study of populism It is equally an exposition of the author s theory of history as a process of overlapping paradigms From a synthesis of Thomas Kuhn s concept of paradigm revolutions and Alfred Adler s goal oriented psychology Dr Youngdale proposes a new version of psychohistory that sees people striving for psychic homeostasis in a world of competing paradigms Capable of a broad application this model is offered particularly as a needed methodology for the field of American studies Jacket

The Journal of Psychohistory, 1983 *The Psychohistory Review*, 1988 *The Church of God* Mickey Crews, 1990 This book delves into the remarkable rise of the Church of God a Pentecostal denomination born in the rural mountains of Tennessee and North Carolina at the turn of the twentieth century Emerging alongside the Populist movement the church offered a distinct spiritual response to the anxieties of a rapidly changing society The author meticulously traces the church s evolution from its humble beginnings to its current global reach exploring its unique theology strict moral code and the development of its hierarchical structure This journey unveils the intricate interplay between religious fervor social class and cultural context Through vivid accounts of early members experiences the book illuminates the church s appeal as a close knit community offering spiritual empowerment and a sense of belonging It also sheds light on the challenges faced by the church including internal conflicts and external persecution Ultimately this book offers a nuanced understanding of how the Church of God navigated the tensions between tradition and modernity carving out a space for itself in the American religious landscape Its insights into the dynamics of religious communities and the enduring power of faith resonate even today

The Third Electoral System, 1853-1892 Paul Kleppner, 2017-10-10 This analysis of the contours and social bases of mass voting behavior in the United States over the course of the third electoral era from 1853 to 1892 provides a deep and rich understanding of the ways in which ethnoreligious values shaped party combat in the late nineteenth century It was this uniquely American mode of political confessionals that underlay the distinctive characteristics of the era s electoral universe In its exploration of the the political roles of native and immigrant ethnic and religious groups this study bridges the gap between political and social history The detailed analysis of

ethnoreligious experiences values and beliefs is integrated into an explanation of the relationship between group political subcultures and partisan preferences which will be of interest to political sociologists political scientists and also political and social historians Unlike other works of this genre this book is not confined to a single description of the voting patterns of a single state or of a series of states in one geographic region but cuts across states and regions while remaining sensitive to the enormously significant ways in which political and historical context conditioned mass political behavior The author accomplishes this remarkable fusion by weaving the small patterns evident in detailed case studies into a larger overview of the electoral system The result is a unified conceptual framework that can be used to understand both American political behavior during an important era and the general preconditions of social group political consciousness Challenging in major ways the liberal rational assumptions that have dominated political history the book provides the foundation for a synthesis of party tactics organizational practices public rhetoric and elite and mass behaviors *The Social Credit Phenomenon in Alberta* Alvin Finkel, 1989-01-01 In this account of the Social Credit transformation Alvin Finkel challenges earlier works which focus purely on Social Credit monetary fixations and religiosity **Labor Immigration under Capitalism** Lucie Cheng, Edna Bonacich, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 *Psychoanalytic and Historical Perspectives on the Leadership of Donald Trump* Michael Maccoby, Ken Fuchsman, 2020-05-01 What is Donald Trump's personality Is he mentally ill What in American culture and history enabled him to become president How does his personality shape his policies and leadership In this fascinating and highly relevant new book these questions are answered by a selection of expert contributors including psychoanalysts historians and a sociologist Narcissism is defined and applied to Donald Trump his personal history and style of leadership and the relationship between Trump and his base is explored as a symptom of his needs and the needs of his followers U S culture and U S politics are put under the lens as chapters draw on contemporary academic and journalistic analysis continuing discussions around gaslighting demagoguery and fascism in terms of their validity in application to Trump *Psychoanalytic and Historical Perspectives on the Leadership of Donald Trump* refutes many of the mental health experts who label Trump as suffering from a narcissistic personality disorder and makes the case that Trump's personality combines a marketing and narcissistic orientation that determines his behavior and policies The authors also assert that to understand Trump's rise and his followers it is valuable to combine psychoanalytic historical and sociological perspectives This book will therefore be of great interest to academics in those fields and all those with an interest in contemporary American politics **Dirt Persuasion** Derek Moscato, 2022-06 2023 Nebraska Book Award 2023 Choice Outstanding Academic Title *Dirt Persuasion* examines a watershed moment in U S environmental politics the fight

over the Keystone XL Pipeline The complex interplay of resources extraction industries with grassroots environmentalism and advocacy has transformed the role of activists in the contemporary public sphere Bold Nebraska s years long fight against pipeline company TransCanada provides a compelling case study a contemporary state level organization that simultaneously challenged political and business leaders in its home state of Nebraska at the national level in the United States and in the foreign jurisdiction of Canada Dirt Persuasion sheds light not only on the activism practices of social movements but also on the changing environments in which such actions are deployed The KXL Pipeline fight represents a watershed moment both for U S energy politics and in the communication of environmental activism The rural dimension of this environmental saga is critical environmentalism must be understood from the perspective of the rural Americans who coexist with one of the planet s most delicate ecologies Populism rhetorical appeals strategic advocacy framing and media framing all factor prominently within the pipeline debate leading to a civic environmental persuasion built on the attributes of narrative engagement hyperlocalization and bipartisanship in order to build broad stakeholder support and influence public policy **In Search of Justice** ,2024-12-09 Truth in History Oscar Handlin,2018-04-24 Like scholars in other

fields historians have long occupied themselves in self justification In a society which calibrates all measures by a single standard the proof of scientific worth became relevance which in turn was interpreted as a search not for truth but for political correctness In a blistering professional critique of this tendency in academic scholarship perhaps the first of its kind Oscar Handlin offers an analysis that if anything has grown more pertinent over the past decade In seventeen chapters written with the brilliant assurance of a master craftsman Handlin shows why the turn to partisanship and meaning has undermined the calling of historical research As his new introduction makes clear partisanship has taken the best and brightest from the field into different callings Both widely heralded upon its initial appearance as well as attacked with vigor Truth in History emanates from a half century s experience of reading writing teaching researching and publishing in history and related disciplines The passage of time has only confirmed the concerns of Handlin and the accuracy of his predictions for the field This book will be valuable for sociologists economists political scientists and historians It is a must read for those who contemplate a life of scholarship in liberal arts Populism in the Western United States, 1890-1900 David B.

Griffiths,1992 *Big Mules and Branchheads* Carl Grafton,Anne Permaloff,2008-09-01 A passion for politics and for political power is at the core of this biography of Big Jim Folsom the legendary two term Alabama governor who revolutionized state government by going directly to the branchheads the grassroots to exhort the powerless to fight for their rights against the Big Mules the elite cotton planters and urban industrialists Drawing on hundreds of hours of interviews with Folsom his family and friends and his allies and rivals Carl Grafton and Anne Permaloff reveal in *Big Mules and Branchheads* the complex reality behind the stories and myths that have arisen around the Alabama governor Often dismissed as a na ve yet somehow appealing yokel whose rise to power was largely attributable to luck Folsom is seen here as a highly knowledgeable

and creative political strategist who calculated his most important victories even while his behavior often seemed influenced by innocence and a tendency toward buffoonery His two terms as governor were marked by scandal yet Folsom energetically sought to raise the moral level of Alabama politics by bluntly advocating in the face of great opposition the expansion of civil rights for blacks poor whites and women Folsom the authors suggest is as widely misunderstood in Alabama as Alabama is misunderstood throughout the nation Illuminating the intricacies of Alabama s politics as it traces Folsom s rise to power this book gives readers the unique opportunity to know the legendary Folsom as a flawed yet often inspiring human being who energetically practiced his own colorful brand of politics

The Just Polity Norman Pollack,1987 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1977

Organized Labor and American Politics, 1894-1994 Kevin Boyle,1998-10-15 Organized Labor and American Politics 1894 1994 traces the rise and fall of labor s power over the course of the twentieth century It does so through provocative and engaging essays written by distinguished scholars of the modern labor movement The essays focus on different times and places from turn of the century steel mills to the streets of 1930s Detroit to the halls of Congress in the 1990s Drawing on a broad range of primary sources the authors adopt a variety of approaches from broad syntheses to careful case studies Altogether the essays tell a single story of workers struggling to find a voice for themselves and their unions within the nation they helped to build It is a story of victories won and of defeats endured

Land Fever James M. Marshall,2021-12-14 James Marshall s illuminating study of dispossession on the frontier begins with the autobiography of a pioneer who met repeated failure Writing in his old age Omar Morse 1824 1901 looked back on the successive loss of three homesteads in mid nineteenth century Wisconsin and Minnesota The frontier as Morse encountered it was a place of runaway land speculation of high railroad freight rates of mortgage foreclosures and of political and economic chaos Stoic and resilient in adversity Morse nevertheless expressed the anger of those for whom the Jeffersonian ideal of an independent yeomanry proved to be a cruel illusion Marshall moves from Morse s narrative to the historical record of the thousands of similarly dispossessed pioneers and to the legacy of their failure Politically their anger was expressed in a grassroots movement that led to formation of the Populist party in the 1880s and 1890s Culturally dispossession became a theme in their literature exemplified in Mark Twain s and Charles Dudley Warner s *The Gilded Age* and in novels by such Realists as Edward Eggleston Joseph Kirkland and Hamlin Garland *Land Fever* thus presents the underside of disappointment that has long been the great ignored reality of the splendid success myth of the American frontier

Debating Social Problems Leonard A. Steverson,Jennifer E. Melvin,2018-09-03 *Debating Social Problems* emphasizes the process of debate as a means of addressing social problems and helps students engage in active learning The debate format covers sensitive material in a way that encourages students to talk about this material openly in class This succinct text includes activities that promote critical thinking and includes examples from current events

Norway to America Ingrid Semmingsen,1980 Traces Norwegian immigration to the United States from 1825 through the twentieth

century and examines the lifestyles and culture of Norwegian American pioneers who formed settlements and journeyed across the continent to California Federal Practice and Procedure Charles Alan Wright, 1969

Unveiling the Power of Verbal Art: An Emotional Sojourn through **Populism A Psychohistorical Perspective**

In a world inundated with monitors and the cacophony of quick connection, the profound energy and mental resonance of verbal beauty often diminish in to obscurity, eclipsed by the regular onslaught of sound and distractions. Yet, set within the lyrical pages of **Populism A Psychohistorical Perspective**, a fascinating perform of literary splendor that pulses with natural emotions, lies an unforgettable journey waiting to be embarked upon. Composed with a virtuoso wordsmith, this interesting opus manuals visitors on an emotional odyssey, gently exposing the latent potential and profound influence embedded within the elaborate web of language. Within the heart-wrenching expanse with this evocative evaluation, we will embark upon an introspective exploration of the book is key themes, dissect their interesting publishing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
