*The Trial of Emma Cunningham* Brian Jenkins, 2020-01-17 The alleged 1857 murder of a wealthy Bond Street dentist by Emma Cunningham a mature widow he was believed to be sexually involved with served to distract many New Yorkers from the deepening national crisis over slavery in the United States Public anxieties seemed well founded domestic murders

committed by women were believed to be increasing sharply jeopardizing society's patriarchal structure. The penny press created public demand for a swift solution. The inadequacy of the city police complicated by the state's decision to install a new force resulted in the rival forces battling it out on the streets. Elected coroners conducting inquests and elected D.A.s prosecuting alleged culprits fed a tendency to rush to judgment. New York juries, all men, were reluctant to send a middle-class woman to the gallows. At trial, Cunningham proved a formidable and imaginative member of the so-called weaker sex and was acquitted. This reexamination places the story in its social and political context.

**Essays of Elia** is a collection of essays written by Charles Lamb, first published in book form in 1823 with a second volume, **Last Essays of Elia**, issued in 1833. The essays in the collection first began appearing in *The London Magazine* in 1820 and continued to 1825. The personal and conversational tone of the essays has charmed many readers. Lamb himself is the Elia of the collection, and his sister Mary is Cousin Bridget. Charles first used the pseudonym Elia for an essay on the South Sea House where he had worked decades earlier. Elia was the last name of an Italian man who worked there at the same time as Charles, and after that essay, the name stuck.

**Tales from Shakespeare** is an English children's book written by Charles and Mary Lamb in 1807. The book is designed to make the stories of Shakespeare's plays familiar to the young Mary Lamb, who was responsible for the comedies, while Charles wrote the tragedies. They wrote the preface between them.
