Pinkerton,2024-07-11 Harry E Rieseberg s autobiographical writings include stories like being attacked by a giant octopus while recovering sunken treasure defending himself from an attack by a 15 foot shark with only a diving knife and surviving a hurricane and a severely broken leg while at sea all captivating tales for audiences in the 1940s and 1950s and all invented by a very successful charlatan This is a biography of Harry E Rieseberg a shameless self promoter who passed himself off as the world s greatest treasure salvor but who never got wet His entire public persona was based on stories he retold in dozens of books and thousands of articles in which he made claims of feats that were fantasy but sold as fact Despite the often obvious facts of his fabrication his books influenced a generation of legitimate divers and underwater archaeologists like Sir Robert Marx and Robert Stenuit Thoroughly researched this book uses sources including his personal records and letters to his agents to provide deep insight into the nature of his life and the way he created a false persona for popular consumption

Admiral Benbow through an age of dramatic change from his birth under Cromwell's Commonwealth to service under the restored Stuart monarchy to the Glorious Revolution of 1688 to the French wars of Louis XIV and finally to the bitter betrayal of 1702. The Admiral Benbow covers all aspects of seventeenth century naval life in richly vivid detail from strategy and tactics to health and discipline. But Benbow also worked in the Royal Dockyards, lived in Samuel Evelyn's House, knew Peter the Great, helped to found the first naval hospital and helped to build the first offshore lighthouse. This long-awaited follow-up to Deagan's first volume on ceramics, glassware and beads focuses on the portable personal objects owned and used by the residents of Spanish colonial America. These objects are not only of Spanish origin; the collection includes many English, French, Dutch, German, Italian and American pieces as well. Deagan not only provides an authoritative source of identification for these items but also draws extensively on colonial documents, travel accounts, paintings and museum collections as well as other contemporary sources to suggest specific functions of the items and the meanings they held for the people who used them. She documents and demonstrates how the objects were made and exchanged in the Americas and explores how they embody Hispanic cultural identities, attitudes and belief systems.
