exile has long been spotlighted little attention has been given to the material meaning of this condition What things and objects do modernism s exiles and emigres carry with them and how does the act of carriage enter into the modernist picture more broadly What are the implications and historical resonances of a portable outlook particularly from the angles of gender wartime conflict and character conception Above all how far does such an outlook impact upon artistic vision Portability represents the simultaneous transportation and repudiation of domesticity and the home those key frames of reference in the nineteenth century novel This book examines the multifarious ways in which the emergence of a modern culture of portability prompts a radical if often problematic departure from Victorian architectural conceptions of fiction towards more movable understandings of form and character

Handbook of the American Novel of the Twentieth and Twenty-First Centuries Timo Müller,2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

The Bourgeois Interior j Brown,2012-10-05 From Robinson Crusoe s cave to Henry Selwyn s hermitage the domestic interior tells a story about things and their relation to character and identity Beginning with a description of a typical middle class interior in America today noting how its contents echo interiors described in literatures of the past Julia Prewitt Brown asks why certain features persist despite radical changes in domestic life over the past three hundred years The answer lies Brown argues in the way the bourgeois interior functions as a medium a many layered fabric across which different energies travel be they psychological political or aesthetic In this way objects are not symbols but rather the materials out of which symbols are made symbols that constitute the very soul of the bourgeois In a wide ranging analysis moving from works by Daniel Defoe Jane Austen Charles Dickens and Henry James to those by Virginia Woolf Ingmar Bergman John Updike and W G Sebald Brown shows that what is at issue is less the economic basis of class than the bourgeoisie s imagination of itself The themes explored include the middle class s ever increasing desire for more wealth as well as Victorian women s identification with the domestic interior and the changes that took place when they began working outside the home Brown also examines the ambivalence of economically determined objects both as repositories of memory and dreams and as fetishized commodities that become detached from everyday reality Does the bourgeois possess the

interior and its objects or do the interior and its objects possess the bourgeois **Misrecognitions** Ben Parker, 2024-03-15

Misrecognitions mounts a vigorous defense of the labyrinthine plotting of Victorian novels notorious for their implausible concluding revelations and coincidences Critics have long decried Victorian recognition scenes the reunions and retroactive discoveries of identity that too conveniently bring the story to a close as regrettable contrivances Ben Parker counters this view by showing how these recognition scenes offer a critique of the social and economic misrecognitions at work in nineteenth century capitalism Through a meticulous analysis of novels by Charles Dickens Anthony Trollope and Henry James as well as Arthur Conan Doyle s Sherlock Holmes stories Misrecognitions tracks how the Victorian novel translates the financialized abstractions of capital into dramas of buried secrets and disguised relations Drawing on Karl Marx s account of commodity fetishism and reification Parker contends that by configuring capital as an enigma to be unveiled Victorian recognition scenes dramatize the inversions of agency and temporality that are repressed in capitalist production In plotting capital as an agent of opacity and misdirection Victorian novels and their characteristic dialectic of illusion and illumination reveal the plot hole in capitalism itself
