Advanced Practice in Human Service Agencies: Issues, Trends, and Treatment Perspectives Lupe Alle-Corliss, Randall Alle-Corliss, 1999. Lupe and Randy Alle Corliss book addresses the practical hands-on field experience that every student in human services is required to explore. The authors go beyond providing a basic orientation to field course work to zero in on more in-depth skills that the advanced student must master such as what models of therapy apply to different client populations. A journal type format with an emphasis on self-awareness makes this book an especially useful tool whether the student is in the classroom or out in the field in a human service agency. Interpersonal Communication Teri Kwal Gamble, Michael W. Gamble, 2013-01-04. Written in a conversational style for students living in today's world of ever-evolving media and new technology, this hands-on skills guide by Teri Kwal Gamble and Michael W. Gamble puts students at the center of interpersonal communication. To help them become better, more successful communicators, married author team Teri Kwal Gamble and Michael Gamble shed new light on the dynamics of students' everyday interactions and relationships and give students the tools they need to develop and cultivate effective communication skills. Using an applied case study approach that draws from popular culture and students' own experiences, Gamble and Gamble go beyond skill building by encouraging readers to critically reflect on their own communication patterns and actively apply relevant theory to develop and maintain healthy relationships with family, friends, romantic partners, and co-workers. Designed to promote self-reflection and develop students' interpersonal communication skills, each chapter of this engaging text examines how media, technology, gender, and culture affect the dynamics of relationships and self-expression.

Internet and Mobile Phone Addiction Olatz Lopez-Fernandez, 2019-03-07. Internet use-related addiction problems, e.g., Internet addiction problem, mobile phone use problem, gaming, and social networking, have been defined according to the same core element: the addictive symptomatology presented by individuals who excessively and problematically behave using the technology. Online activity is the most important factor in their lives, causing them the loss of control by stress and difficulties in managing at least one aspect of their daily life, affecting users' wellbeing and health. In 2018, Gaming Disorder was included as a mental disease in the 11th Revision of the International Classification of Diseases by the World Health Organization. In 2013, the American Psychiatric Association requested additional research on Internet Gaming Disorder. The papers contained in this e-Book provide unique and original

perspectives on the concept development and early detection of the prevention of these health problems They are diverse in the nature of the problems they deal with methodologies populations cultures and contain insights and a clear indication of the impact of individual social and environmental factors on Internet use related addiction problems The e Book illustrates recent progress in the evolution of research with great emphasis on gaming and smartphone problems signaling areas in which research would be useful even cross culturally
